The study was undertaken within the purview of the Memorandum of Understanding between ESCAP and the Korea Maritime Institute, signed in 1998.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Mention of firm names and commercial products does not imply the endorsement of the United Nations.

The views expressed in this study are those of the authors and do not necessarily reflect the views of the United Nations.

This publication has been issued without formal editing.

Acknowledgements

Grateful acknowledgement is made to the Government of the Republic of Korea for the generous funding of this study.

This study was prepared by the Transport and Tourism Division of ESCAP, with contribution from the Korea Maritime Institute (KMI).

Consultancy input was provided by Dr. Richard Gray.

Figures	viii
Tables	viii
1 Introduction	1
1.1 Background of the study	1
1.2 Report structure and contents	1
2 Trends in Supply Chain Management and Logistics Systems	5
2.1 Introduction	5
2.2 Definition of supply chain and supply chain management	5
2.3 “Supply chain thinking” and the “lean approach”	6
2.4 Supply chain structure	7
2.5 Supply chain members	8
2.5.1 Commitment to supply chain integration	8
2.5.2 Cooperation and coordination	8
2.5.3 Ability to exert power	8
2.6 Supply chain activities	9
2.7 Supply chain integration	9
2.8 Supply chain logistics	10
2.9 Trends in logistics developments	11
2.10 Relations between logistics service providers and their customers	13
2.11 Logistics centres	14
2.11.1 Functions of logistics centres	15
2.11.2 Location of logistics centres	19
3 Factors governing the decision of enterprises to locate at ports or port-related logistics zones	21
3.1 Introduction	21
3.2 What is a port?	21
3.2.1 Influences on decisions of enterprises to locate at ports	22
3.2.2 Port organization and structure	22
3.2.3 Different types of port operators	22
3.3 Responsibility for financing port development	24
3.3.1 Financing of operational infrastructure	24
3.3.2 Public-private partnerships	25
3.4 Services offered by modern ports	25
3.4.1 Commercial freight transport-related services	27
3.4.2 Non-transport logistics	28

Contents (*continued*)

	<i>Page</i>
3.4.3 Other industrial services	30
3.4.4 Industrial clusters in ports	31
3.4.5 Other categories of port use	33
3.5 Responsibility for assets and associated services	33
3.6 Intermediate conclusions: Towards a step-by-step action plan for “dry ports” – Part 1	34
4 Replicating the Port Concept at Inland Locations	37
4.1 Introduction	37
4.2 The definition of inland ports	37
4.3 Classification of inland or dry ports	41
4.4 The development of dry ports	42
4.4.1 The advantages of dry ports	42
4.4.2 Constituents of a good dry port	43
4.4.3 Critical issues for the effective development of dry ports	44
4.5 Legal implications of dry ports	45
4.5.1 Background	45
4.5.2 The roles of Government	45
4.6 Administrative/financial arrangements	47
4.7 Institutional arrangements	51
4.7.1 Background	51
4.7.2 Changing functions	54
4.8 Intermediate Conclusions: Towards a step-by-step action plan for “dry ports” – Part 2	55
5 The Concept of Clusters	57
5.1 Introduction	57
5.2 Clusters: an examination of definitions	57
5.3 Economic and management theories associated with the concept of clusters ..	58
5.3.1 Porter’s concept of clusters	58
5.3.2 Other theories on geographical concentration	59
5.4 Emergence of clusters	60
5.5 Types of clusters	61
5.5.1 Industry clusters	61
5.5.2 Technology clusters	62
5.5.3 Logistics clusters	62
5.5.4 Port clusters	65
5.6 Government policy and clusters	68
5.6.1 Reasons for Government involvement	68
5.6.2 Problems of policymaking for clusters	68
5.6.3 The changing role of Government	69
5.7 Intermediate Conclusions: Towards a step-by-step action plan for “dry ports” – Part 3	70

Contents (continued)

	<i>Page</i>
6 Application of the Model – Factors Governing Corporate Decisions	73
6.1 Introduction	73
6.2 Model Part 1: Factors governing decision of enterprises to locate	73
6.2.1 Organization and structure	73
6.2.2 Services offered	73
6.2.3 Responsibility for assets and associated services	76
6.2.4 Responsibility for financing terminal development	77
7 Application of the Model – Replicating Port Concepts at Inland Locations	83
7.1 Introduction	83
7.2 Model Part 2: Replicating port concepts at inland locations	83
7.3 Identify local advantages/disadvantages	83
7.3.1 Landlocked countries	84
7.3.2 Solutions for landlocked countries	85
7.4 Identify interested parties	85
7.5 Identify potential functions	86
7.6 Establish operational quality and performance indicators	86
7.7 Identify potential operational problems	88
7.7.1 Organizational problems	88
7.7.2 Management and operational problems	89
7.7.3 Communications problems/inefficiencies	89
7.7.4 Infrastructural problems	90
7.7.5 Establish framework of assessment	90
8 Application of the Model – Implementing the Cluster Concept	91
8.1 Introduction	91
8.2 Model Part 3: Replicating port concepts at inland locations	91
8.2.1 Define cluster boundary	91
8.2.2 Existing and potential resources	93
8.2.3 Potential cluster members	94
8.2.4 Supportive role of Government	94
8.2.5 Scope for shared resources	97
8.2.6 Scope for innovation	101
8.2.7 Barriers to clusters	101
9 Preliminary Conclusions	103

Contents (*continued*)

Annexes	
Annex A: Key elements of port asset categories	107
Annex B: Non-exhaustive overview of interchangeable names for dry ports.....	109
Annex C: Example case for legislation related to dry ports – United States	113
Annex D: Example case for legislation related to dry ports – Europe	119
Annex E: Example of a World Bank Implementation Completion Report (Extract)	123
Annex F: Defining the notion “cluster” (Extract)	127
Annex G: Almaty Programme of Action (Priority 1 to 4 in detail)	129
Annex H: The local advantage in China	133
Annex I: Initiatives for wider regional cooperation (ALTID, AH, TAR)	137
References	139

Contents (continued)
