UNITED NATIONS

ST/ESCAP/2173

This publication has been issued by the Transport, Communications, Tourism and Infrastructure Development Division of the United Nations Economic and Social Commission for Asia and the Pacific.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Most of the data in the tables and figures came from the national experts.

The place names in this publication follow the United Nations standards, which conform with The Times Concise Atlas of the World, eighth edition.

CONTENTS

I.	INTRODUCTION	1
A.	Background.....	1
	1. Asian Land Transport Infrastructure Development project	1
	2. Asian Highway project	1
B.	Objective of the study	2
C.	Project progress and activities	2
D.	Outline of the report.....	3
II.	TRANSPORT DEVELOPMENT PROGRAMMES OF INTERNATIONAL ORGANIZATIONS	4
A.	European Union	4
	1. Trans-European Networks	4
	2. Technical Assistance for the Commonwealth of Independent States	4
B.	United Nations Economic Commission for Europe.....	5
C.	Commonwealth of Independent States	5
D.	Economic Cooperation Organization	5
E.	Special Programme for the Economies of Central Asia	6
F.	United Nations Development Programme	7
	1. Tumen River Area Development Programme	7
	2. Silk Road Area Development Project	7
G.	United Nations regional commissions capacity-building programme	8
H.	International financing institutions	8
I.	Coordination	8
III.	ROAD TRANSPORT... ..	9
A.	Overview of roads and road transport.....	9
	1. China.....	9
	2. The Democratic People's Republic of Korea.....	9
	3. Kazakhstan.....	9
	4. Mongolia.....	11
	5. The Republic of Korea.....	11
	6. The Russian Federation.....	11

B.	Road classification and design standards.....	14
1.	China	14
2.	Kazakhstan.....	17
3.	Mongolia.....	22
4.	The Republic of Korea.....	26
5.	The Russian Federation.....	30
6.	Comparison of the Asian Highway design standards and national standards.....	30
C.	Status of the road network and road transport	31
1.	China	31
2.	The Democratic People's Republic of Korea.....	39
3.	Kazakhstan.....	42
4.	Mongolia.....	51
5.	The Republic of Korea.....	61
6.	The Russian Federation.....	75
IV.	ASIAN HIGHWAY ROUTES	95
A.	Asian Highway route criteria	95
B.	Proposed Asian Highway routes and assessment	95
1.	China	95
2.	The Democratic People's Republic of Korea.....	99
3.	Kazakhstan.....	101
4.	Mongolia.....	106
5.	The Republic of Korea.....	110
6.	The Russian Federation.....	114
C.	Numbering system of identified Asian Highway routes.....	123
1.	Existing route numbering system for the Asian Highway network	123
2.	Numbering of the proposed Asian Highway routes.....	124
V.	CONCLUSIONS.....	129

ANNEXES

I.	Asian Highway classification and design standards	131
II.	Study team.....	139
III.	Officials contacted during missions.....	140
IV.	Report of the Policy-level Expert Group Meeting	142
V.	List of participants	149
VI.	Programme of the Policy-level Expert Group Meeting	151

LIST OF TABLES

1.	Classification of roads in China	14
2.	Class of roads in China	14
3.	Design elements by highway class according to the Technical Standards of Highway Engineering.....	15
4.	Height clearance of roads in China.....	15
5.	Classification of roads in the former Soviet Union.....	17
6.	Classification of roads in Kazakhstan.....	17
7.	Major former Soviet Union technical standards for roads.....	18
8.	Class of roads in the former Soviet Union.....	18
9.	Cross-section elements of roads in the former Soviet Union.....	18
10.	Other elements relating to the design speed of roads in the former Soviet Union.....	19
11.	Height clearance of roads in the former Soviet Union.....	19
12.	Standard highway traffic loading.....	22
13.	Classification of roads in Mongolia.....	22
14.	Design speed corresponding to design traffic volume.....	23
15.	Cross-section elements of roads in Mongolia.....	23
16.	Gradient, sight distance and horizontal curve related to design speed	23
17.	Height clearance of roads in Mongolia.....	24
18.	Classification of roads in the Republic of Korea	26
19.	Class of roads in the Republic of Korea	27
20.	Cross-section elements of roads in the Republic of Korea	27
21.	Other elements relating to the design speed of roads in the Republic of Korea	27
22.	Height clearance of roads in the Republic of Korea	28
23.	Standard highway traffic loading.....	28
24.	Road development indicators.....	32
25.	Modal share of domestic freight movement	32
26.	Freight traffic volume	32
27.	Passenger volume	33
28.	Passenger traffic volume.....	33
29.	Classification of roads in China.....	33
30.	Road length by technical standards.....	34
31.	Road length by category	35
32.	Length of roads by classification and surface type	37
33.	Road condition.....	37
34.	Annual volume of border-crossing road traffic from/to China	38
35.	Border-crossing points.....	40
36.	Road development indicators.....	42
37.	Freight movement	42
38.	Freight traffic volume	43

39.	Passenger volume	43
40.	Passenger traffic volume.....	43
41.	Trend in road vehicle fleet composition	43
42.	Length of public roads in Kazakhstan	44
43.	Road length by technical standards.....	46
44.	Road length by category	46
45.	Length of roads by classification and surface type	46
46.	Road condition.....	47
47.	Length of roads by road classification, number of lanes and missing links.	47
48.	The outline of the motor road development plan.....	48
49.	Road development indicators.....	51
50.	Freight movement.....	52
51.	Freight traffic volume	52
52.	Passenger volume	52
53.	Passenger traffic volume.....	52
54.	International freight transport by railway	53
55.	Trend in road vehicle fleet composition	53
56.	Traffic volume	53
57.	Average annual distance travelled	54
58.	Major origins and destinations of international transport in Mongolia.....	54
59.	Classification of roads	55
60.	Road length by technical standards.....	55
61.	Road length by category	57
62.	Length of roads by classification and surface type	57
63.	Road condition.....	57
64.	Length of roads by road classification and number of lanes.....	58
65.	Mongolian border-crossing points with neighboring countries	58
66.	Road traffic volume at border-crossing points.....	58
67.	Condition of roads leading to border-crossing points.....	59
68.	Total number of passengers and traffic volumes at border-crossing points.....	59
69.	Road development indicators.....	62
