2.8 Standard Errors and Confidence Intervals92.8.1 Confidence Intervals10Chapter 3: Disabled Population-Size and Distribution123.1 Number of persons with Disability123.2 Disability rate for Cambodia and Provinces133.3 Disabled Population by Type of Disability18Chapter 4: Sex Composition, Age Distribution and Marital status22	<u> </u>	9
2.8.1 Confidence Intervals10Chapter 3: Disabled Population-Size and Distribution123.1 Number of persons with Disability123.2 Disability rate for Cambodia and Provinces133.3 Disabled Population by Type of Disability18Chapter 4: Sex Composition, Age Distribution and Marital status22		
Chapter 3: Disabled Population-Size and Distribution123.1 Number of persons with Disability123.2 Disability rate for Cambodia and Provinces133.3 Disabled Population by Type of Disability18Chapter 4: Sex Composition, Age Distribution and Marital status22		
3.1 Number of persons with Disability123.2 Disability rate for Cambodia and Provinces133.3 Disabled Population by Type of Disability18Chapter 4: Sex Composition, Age Distribution and Marital status22		
 3.2 Disability rate for Cambodia and Provinces 3.3 Disabled Population by Type of Disability Chapter 4: Sex Composition, Age Distribution and Marital status 22 		
3.3 Disabled Population by Type of Disability18Chapter 4: Sex Composition, Age Distribution and Marital status22	•	
Chapter 4: Sex Composition, Age Distribution and Marital status 22	•	
	· · · · · · · · · · · · · · · · · · ·	
4.1 Sex Composition	4.1 Sex Composition	22
4.2 Age Structure of the disabled population 22	•	
4.2.1 Median Age		

4.3 Marital Status	27
Chapter 5: Literacy and Educational	31
5.1 Literacy Rate of Persons with Disability	31
5.2 Educational Level of Disabled population	38
5.3 Literacy and Educational Levels by Type of Disability	48
Chapter 6: Economic Activity	50
6.1 Introduction	50
6.2 Crude Economic Activity Rate	50
6.3 Economic Activity Rate by Type of Disability	53
6.4 Economic Activity Rate of the Working Age Group	55
6.5 Economic Activity Rates in other Age Groups	57
6.6 Employed Persons by Industrial Sector	57
Chapter 7: Other Characteristics	59
7.1 Fertility Level	59
7.2 Mortality	59
7.3 Migration Pattern	60
7.4 Household characteristics	62
Chapter 8: Summary and Conclusions	63
Annexes	69
Annex 1 - Form A House Listing	71
Annex 2 - Form B Household Questionnaire	72
Annex 3 - List of Priority Tables	78
GLOSSARY	80

FOREWORD

By HE. Senior Minister, Minister of Planning, Cambodia

I have great pleasure in presenting this report on Disability in Cambodia, containing an in-depth analysis of the results of the Cambodia Inter-censal population Survey (CIPS), conducted by the National Institute of Statistics (NIS) in March 2013 under technical and financial support by UNFPA, JICA and Government of Japan. From the point of view of a nationally representative sample survey of 955 Primary Sampling Units and 28,650 households, this survey could be considered as a major statistical exercise in the country in recent time. This database created by the present survey could be useful on an interim basis until the next population census is conducted.

This survey is follow-up of the successful Population Census conducted in 2008 after Population Census 1998. The census results have been widely disseminated within the line Ministries and among large body of data users and public. The National Population Policy for Cambodia formulated in August 2003 was one of the significant outcomes of the census results.

The successful conduct of the next census is crucial to obtain a correct population count and to update the much needed demographic data in the country. Such information is required for planning not only at national and provincial level but also at district, commune and event at village levels.

The present survey is in the nature of preparation for the gigantic task of the census. More than a thousand staff of the NIS and Provincial Planning Office was trained in this survey. Their services will be available for the next census to train a large number of enumerators and supervisors who will be recruited. The CIPS 2013 may therefore be called the harbinger of the next Population in Cambodia due in the year 2018.

On behalf of the Ministry of Planning, I wish to place on record our gratitude to the United Nations Population Fund (UNFPA) for supporting the whole process of CIPS, 2013 including resources and technical assistance program with emphasis on capacity development. Thanks are due to Japan International Cooperation Agency (JICA) for providing technical assistance for mapping villages and Enumeration Area (EAs), and for participating in analysis and dissemination of the results.

I appreciate the hard work put in by the staff of the NIS under the guidance and supervision of H.E. Mrs. Hang Lina, Director General, NIS and the Provincial Planning Offices in making the survey a success as well as in the preparation of this report. I wish to take this opportunity to thanks all staff in the National Institute of Statistics as well as all survey field staff who have taken part and contributed to success of the Cambodia

Inter-censal Population Survey, 2013. We are also thankful to technical advisers for the survey: Mr. Nott Rama Rao, Dr. Hans Petterson, Mr. Yi Soktha, Mr. Gregory Martin, Mr. Fumihiko Nishi, Mr. Akihiko Ito and Mr. Akihito Yamauchi.

I am sure this report would be welcomed by the line-ministries, international agencies, non-government organization, policy makers, program implementers, development planners, and researchers a publication with a plethora of useful information. We hope to received feedback and comments to improve our subsequent publication.

Ministry f lanning Phnom enh P December 2013 CHHAY THAN
Senior inis Mr,
Minister f laon Ing

PREFACE

The Cambodia Inter-censal Population Survey, 2013 was conducted not only to obtain the much-needed demographic data following the census, but also to serve as a means to train the staff of the NIS and Provincial Planning Offices in demographic data collection. We are happy to record that the survey achieved both objectives.

This report contains and in-depth analysis on Disability in Cambodia based on the results of CIPS, 2013. A general report at national level and separate report for each province will be prepared later. There was planned to produce more in-depth studies based on the results of the survey, on other topics of interest.

Our special thanks are due to H.E. Chhay Than, Honorable Senior Minister, Minister of Planning, Cambodia whose keen interest in the census and in the survey was always a source of inspiration and encouragement both to the national and international staff of the project.

We sincerely thank to the United Nations Population Fund (UNFPA) for supporting the whole process of CIPS, 2013 including resources and technical assistance program with emphasis on capacity development. Thanks are due to Japan International Cooperation Agency (JICA) for providing technical assistance for mapping villages and Enumeration Area (EAs), and for participating in analysis and dissemination of the results.

The success of the survey was mainly due to the enthusiastic participation of a large number of staff in fieldwork, data processing and other survey activities. To every one of them our thanks are due. The UNFPA and JICA national project staff closely assisted the NIS and the provincial staff. The names of personnel associated with this report are mentioned separately. We are thankful all of them.

Phnom Penh, Cambodia December, 2013 Hang Lina
Director eneral
National Institute of Statistics
