Lao Social Indicator Survey II

2017

Survey Findings Report

June 2018

The Lao Social Indicator Survey II (LSIS II) was carried out in 2017 by Lao Statistics Bureau (LSB) in collaboration with Ministry of Health and Ministry of Education and Sport, as part of the Global Multiple Indicator Cluster Survey (MICS) Programme. Technical support was provided by the United Nations Children's Fund (UNICEF), with government funding and financial support of UNICEF and United Nations Population Fund (UNFPA), European Union (EU), Luxembourg Government, United States Agency for International (USAID), Swiss Development Cooperation (SDC), World Food Programme (WFP), and United Nations Development Programmes (UNDP), World Health Organisation (WHO) and Japanese International Cooperation Agency (JICA). USAID provided technical support for the data collection and analysis on anaemia.

The Global MICS Programme was developed by UNICEF in the 1990s as an international multi-purpose household survey programme to support countries in collecting internationally comparable data on a wide range of indicators on the situation of children and women. MICS surveys measure key indicators that allow countries to generate data for use in policies, programmes, and national development plans, and to monitor progress towards the Sustainable Development Goals (SDGs) and other internationally agreed upon commitments. The LSIS II presents up-to date information for assessing the situation of children, women and men as well as to provide data for monitoring progress towards existing strategies and action plans including the 8th National Socio-Economic Development Plan (NSEDP) 2016-2020, update the status of the provincial social development indicators and track the graduation of the country from the category of Least Developed Country by 2020.

The objective of this report is to facilitate the timely dissemination and use of results from the LSIS II. The report contains detailed information on the methodology of the survey, and tables following MICS standard and templates.

For more information on the Global MICS Programme, please go to mics.unicef.org.

Summary table of survey implementation and the survey population, Lao Social Indicator Survey II, 2017

Survey sample and implementation			
Sample frame	2015 Population and Housing Census	Questionnaires	Household Women (age 15-49) Men (age 15-49) Children under five Children age 5-17 Water Quality Testing
- Updated	December, 2016 to February, 2017		
Interviewer training			
	June, 2017	Fieldwork	July-November, 2017
Survey sample			
Households		Children under five	
- Sampled	23, 299	- Eligible	11, 812
- Occupied	22, 443	- Mothers/caretakers interviewed	11, 720
- Interviewed	22, 287	- Response rate (Per cent)	99.2
- Response rate (Per cent)	99.3		
Women (age 15-49)		Children age 5-17	
- Eligible for interviews	26, 103	- Eligible	15, 494
- Interviewed	25, 305	- Mothers/caretakers interviewed	15, 435
- Response rate (Per cent)	96.9	- Response rate (Per cent)	99.6
Men (age 15-49)		Water Quality Testing	
- Eligible for interviews	12, 694	- Eligible	3, 495
- Interviewed	12, 017	- Interviewed	3, 346
- Response rate (Per cent)	94.7	- Response rate (Per cent)	95.7

Survey population			
Average household size	4.7	Percentage of population living in	
Percentage of population under:		- Urban areas	32.4
- Age 5	10.8	- Rural areas	67.6
- Age 18	39.4	- Rural with road	86.0
Percentage of women age 15-49 years with at least one live birth in the last 2 years	16.7	- Rural without road	14.0
