

FINAL REPORT

Viet Nam Midwifery

Report 2016

Hanoi, 2017

FINAL REPORT

Viet Nam Midwifery

Report 2016

ACKNOWLEDGEMENTS

The Ministry of Health, with technical and financial support from the United Nations Population Fund, has developed the first ever Viet Nam Midwifery Report 2016 which reviews the current needs, availability, accessibility, acceptability, quality and regulatory framework of midwifery services and practices in Viet Nam, with a vision towards 2030. The report also provides recommendations for midwifery practices in the coming years, including for governance, human resources, financing, service delivery, health information and infrastructure, equipment, and pharmaceuticals.

We would like to thank Dr. Sarah Bales and Prof. Sue Kildea for their dedication and enthusiasm to complete the report. We also sincerely thank Dr. Phan Le Thu Hang, Deputy Director of the Planning and Finance Department of the Ministry of Health, for her endless coordination efforts during the entire process of the report preparation. We would like to thank Dr. Duong Van Dat and Dr. Le Thi Thanh Huyen of UNFPA Vietnam for their valuable technical guidance throughout the preparation and publication of this report.

It is our hope that this report proves useful to policy makers, programme managers, health professionals, researchers and donors in designing and implementing effective reproductive health programmes in order to achieve the ultimate objectives of the International Conference on Population and Development and the Sustainable Development Goals in Viet Nam.

TABLE OF CONTENTS

EXECUTIVE SUMMARY	xiv
Country context.....	xiv
Methodology	xv
Findings	xv
Conclusions	xviii
Recommendations	xix
CHAPTER 1 COUNTRY CONTEXT	1
1.1. General information	1
1.2. Midwifery-related health issues.....	4
1.3. Health system to provide midwifery services.....	10
1.4. Legal framework for midwifery profession and services	12
CHAPTER 2 RESEARCH METHODS	15
2.1. Background of the report.....	16
2.2. Research methodologies used	23
CHAPTER 3 FINDINGS	29
3.1. Needs	30
3.2. Availability	63
3.3. Accessibility	86
3.4. Acceptability	115
3.4.1. Respectful care for all	116
3.5. Quality	129
3.6. Legal framework	156
CHAPTER 4: CONCLUSIONS	175
4.1. Midwifery 2030 Pathway to Health in Viet Nam.....	176
4.2. Health system challenges to achieve the Midwifery 2030 vision.....	179

5.1. Goals for Viet Nam’s Midwifery 2030 vision	189
CHAPTER 5: RECOMMENDATIONS	189
5.2 Recommendations by health system building block.....	191
5.3. Stakeholders	199
5.4. National Roadmap towards the Midwifery 2030 vision	201
REFERENCES	203
Annex 1: Midwifery 2030 Pathway to Health - Vision of midwife-led service provision.....	220
