

EXPLORING BARRIERS TO ACCESSING MATERNAL HEALTH AND FAMILY PLANNING SERVICES IN ETHNIC MINORITY COMMUNITIES IN VIET NAM

**EXPLORING BARRIERS TO ACCESSING
MATERNAL HEALTH AND FAMILY PLANNING
SERVICES IN ETHNIC MINORITY COMMUNITIES
IN VIET NAM**

HANOI - 2017

TABLE OF CONTENTS

APPENDIX.....vii	1. INTRODUCTION..... 1
List of Abbreviationsviii	1.2. REPRODUCTIVE, MATERNAL, NEWBORN AND CHILD HEALTH IN VIET NAM 2
Executive Summaryxi	1.3. BARRIERS TO HEALTH SERVICE UTILIZATION..... 2
	1.4. EVIDENCE GAPS AND RESEARCH NEEDS..... 3
	1.5. STUDY AIMS..... 3
	2. METHODOLOGY 5
	2.1. QUANTITATIVE PHASE 6
	2.2. QUALITATIVE PHASE..... 9
	2.3. ANALYSIS..... 11
	2.4. LIMITATIONS 12
	3. SETTING THE SCENE 13

4. REPRODUCTIVE, MATERNAL, NEWBORN AND CHILD HEALTH INDICATORS IN ETHNIC MINORITY COMMUNITIES 17

4.1. FREQUENCY AND TIMING OF ANTENATAL CARE 18

4.2. CONTENT OF ANTENATAL CARE..... 19

4.3. TRAINED BIRTH ATTENDANT AT DELIVERY AND INSTITUTIONAL DELIVERIES21

4.4. POSTNATAL CARE.....23

4.5. CONTRACEPTIVE METHODS AND FAMILY PLANNING 24

4.6. DETERMINANTS AND TRENDS IN RMNCH.....30

5. EXPLORING REASONS WHY WOMEN DO NOT USE MATERNAL HEALTH SERVICES 35

5.1. CULTURAL AND SOCIAL ACCEPTABILITY OF MATERNAL HEALTH SERVICES.....38

5.2. APPROPRIATENESS OF MATERNAL CARE QUALITY....40

5.3. PHYSICAL ACCESSIBILITY OF MATERNAL HEALTH CARE44

5.4. AFFORDABILITY OF MATERNAL HEALTH CARE..... 46

6. CONCLUSIONS AND RECOMMENDATIONS51

6.1. CONCLUSIONS52

6.2. RECOMMENDATIONS..... 54

SUPPLEMENTARY TABLES61

BACKGROUND81

LIST OF TABLES

Table 1. Selected maternal and family planning indicators	7
Table 2. Qualitative research participants	10
Table 3. Description of participant population, women’s survey (N=4,609)	14
Table 4. Health facility quality in 60 commune health centres, overall and by province (average score, %)	16
Table 6. Contraceptive prevalence and type of contraceptive method (%), by province	26
Table 7. Contraceptive prevalence and type of contraceptive method (%), by ethnicity	27
Table 8. Main reasons for not using modern contraceptive methods (N=1458).....	29
Table 9. Ecological characteristics of 60 communes.....	61
Table 10. Summary estimates for reproductive, maternal, newborn and child health indicators by economic status (percentage).....	64
Table 11. Summary estimates for reproductive, maternal, newborn and child health indicators by level of education	65
Table 12. Summary estimates for reproductive, maternal, newborn and child health indicators by ethnicity	66
Table 13. Regression analysis of key predictors of RMNCH composite coverage (excludes health insurance in composite score)	67
Table 14. Summary of qualitative results.....	68
Table 15. Description of participant population by province, women’s survey (N=4,609)	78

LIST OF FIGURES

Figure 1. Map of 60 study communes in Northern Midlands and Mountains and Central Highlands regions.....	5
Figure 2. Reproductive, maternal, newborn and child health composite coverage by place of residence.....	31
Figure 3. Reproductive, maternal, newborn and child health composite coverage by economic status.....	32
Figure 4. Reproductive, maternal, newborn and child health composite coverage by level of education.....	33
Figure 5. Reproductive, maternal, newborn and child health composite coverage by ethnicity	34
Figure 6. WHO Framework for the quality of maternal and newborn care	79

APPENDIX

Research proposal on exploring barriers to accessing maternal and family planning services in ethnic minority communities in Vietnam.....	80
-------------------------------------------------------------------------------------------------------------------------------------------	----

LIST OF ABBREVIATIONS

ANC	antenatal care
CHC	commune/community health centre
FGD	focus group discussion
FP	family planning
IUD	intrauterine device
LMICs	low- and middle-income countries
MDGs	Millennium Development Goals
MDRI	Mekong Development Research Institute
MICS	Multiple Indicator Cluster Survey
MMR	maternal mortality ratio
RMNCH	reproductive, maternal, newborn, and child health
MoH	Ministry of Health
NPSM	National Plan for Safe Motherhood
PNC	postnatal care
R-HFA	Rapid Health Facility Assessment
RMNCH	reproductive, maternal, newborn and child health
SDGs	Sustainable Development Goals
STIs	sexually transmitted infections
ToR	terms of reference
