Publications of the World Health Organization are available on the WHO web site ([www.who.int](http://www.who.int)) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)).

Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO website ([www.who.int/about/licensing/copyright\\_form/en/index.html](http://www.who.int/about/licensing/copyright_form/en/index.html)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

ACKNOWLEDGEMENTS.....	V
ABBREVIATIONS .....	VII
EXECUTIVE SUMMARY .....	1
1 INTRODUCTION.....	3
2 MEASURING MATERNAL MORTALITY .....	4
2.1 Concepts and definitions .....	4
2.2 Coding of maternal deaths .....	5
<i>Measures of maternal mortality</i> .....	6
2.3 Approaches for measuring maternal mortality .....	7
3 METHODOLOGY FOR THE 1990–2013 ESTIMATES OF MATERNAL MORTALITY .....	11
3.1 Sources of country data used for the 1990–2013 estimates .....	11
3.2 Methods used to estimate maternal mortality ratio in 1990–2013 according to data source .....	12
<i>Estimation of maternal mortality ratio from Group 1 civil registration data (Group A)</i> .....	14
<i>Estimation of maternal mortality ratio using a statistical model (Groups B and C)</i> .....	14
<i>Multi-level regression model</i> .....	16
<i>Uncertainty of estimates</i> .....	18
3.3 Computation of adult lifetime risk of maternal mortality .....	19
3.4 Global and regional estimates .....	20
3.5 Methodological updates .....	20
4 RESULTS.....	21
4.1 Maternal mortality estimates for 2013 .....	21
4.2 Trends in maternal mortality from 1990 to 2013 .....	26
4.3 Comparison with previous maternal mortality estimates .....	26
5 PROGRESS TOWARDS MILLENNIUM DEVELOPMENT GOAL 5 .....	27
REFERENCES.....	29

## TABLES

<b>Table 1.</b> Sources of maternal mortality data used in generating the 2013 maternal mortality ratio estimates.....	12
<b>Table 2.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk, by United Nations MDG region, 2013.....	22
<b>Table 3.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths and maternal deaths attributed to HIV/AIDS, by United Nations MDG region, 2013.....	24
<b>Table 4.</b> Comparison of 1990 and 2013 maternal mortality ratio (MMR, maternal deaths per 100 000 live births) and number of maternal deaths, by United Nations MDG regions.....	25

## ANNEXES

<b>Annex 1.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, lifetime risk and percentage of AIDS-related indirect maternal deaths, 2013.....	31
<b>Annex 2.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), 1990–2013, by country .....	36
<b>Annex 3.</b> Countries with 40% or more decrease in the maternal mortality ratio (maternal deaths per 100 000 live births) from 1990 to 2013 .....	44

## APPENDICES

<b>Appendix 1.</b> Adjustment factor to account for misclassification of maternal deaths in civil registration, literature review of reports and articles.....	45
<b>Appendix 2.</b> Sixty-seven countries with civil registration data characterized as complete, with good attribution of cause of death.....	47
<b>Appendix 3.</b> Ninety-six countries with incomplete civil registration and/or other types of maternal mortality data.....	47
<b>Appendix 4.</b> Twenty countries with no national data on maternal mortality.....	47
<b>Appendix 5.</b> Estimation of maternal deaths due to HIV .....	48
<b>Appendix 6.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), 1990–2013, by United Nations Millennium Development Goal region (indicated in bold) and other grouping .....	50
<b>Appendix 7.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk by WHO region, 2013 .....	51
<b>Appendix 8.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), 1990–2013, by WHO region.....	51
<b>Appendix 9.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk by UNICEF region, 2013 .....	52
<b>Appendix 10.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), by UNICEF region .....	52
<b>Appendix 11.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk by UNFPA region, 2013 .....	53
<b>Appendix 12.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births) 1990–2013, by UNFPA region .....	53
<b>Appendix 13.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk by The World Bank region and income group, 2013 .....	54
<b>Appendix 14.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), 1990–2013, by The World Bank region and income group .....	54
<b>Appendix 15.</b> Estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), number of maternal deaths, and lifetime risk by UNPD region, 2013.....	55
<b>Appendix 16.</b> Trends in estimates of maternal mortality ratio (MMR, maternal deaths per 100 000 live births), 1990–2013, by UNPD region .....	55
<b>Appendix 17.</b> Summary of country consultations.....	56

## Acknowledgements

The Maternal Mortality Estimation Inter-Agency Group (MMEIG), together with Leontine Alkema, of the National University of Singapore, Singapore, and Alison Gemmill, of the University of California at Berkeley, United States of America, collaborated in developing these maternal mortality estimates.

The MMEIG consists of the following individuals, listed in alphabetical order: Mohamed Ali of the World Health Organization (WHO); Ties Boerma of WHO; Liliana Caravajal of the United Nations Children's Fund (UNICEF); Doris Chou of WHO; Daniel Hogan of WHO; Victor Gaigbe-Togbe of the United Nations Population Division (UNPD) and Sara Hertog of UNPD; Edilberto Loaiza of the United Nations Population Fund (UNFPA); Matthews Mathai of WHO; Colin Mathers of WHO; Samuel Mills of The World Bank; Holly Newby of UNICEF; Vibeke Nielsen of Statistics Norway; Lale Say of WHO; Emi Suzuki of The World Bank; and Marleen Temmerman of WHO. Leontine Alkema is the lead adviser to the MMEIG. Flavia Bustreo of WHO oversaw the overall work and process of developing the estimates.

An external technical advisory group (TAG) provided independent technical advice. The members of the TAG are: Saifuddin Ahmed of Johns Hopkins University, Baltimore, MD, USA; David Braunholz of Aberdeen University, Scotland; Peter Byass of Umeå University, Sweden; Wendy Graham of Aberdeen University, Scotland; Dr Namuunda Mutombo, African Population and Health Research Centre, Nairobi, Kenya; Thomas Pullum of ICF Macro Calverton, Maryland, USA; and Neff Walker of Johns Hopkins University, Baltimore, MD, USA.

The Department of Governing Bodies and External Relations of WHO, WHO country offices, UNFPA country offices, and UNICEF country offices, are gratefully acknowledged for facilitating the country consultations. Thanks to the WHO regional office staff:

Hiromi Obara  
Howard Sobel

Joanne Simpson-Deprez and Armando Seuc of WHO provided translation during country consultations. Thanks to all focal points of governments who reviewed the preliminary estimates of maternal mortality ratios and provided valuable feedback.

WHO, UNICEF, The World Bank, and the United States Agency for International Development (USAID) provided financial support.

This report was prepared by Leontine Alkema, Doris Chou, Alison Gemmill, Daniel Hogan, Colin Mathers, Samuel Mills, Ann-Beth Moller, Lale Say and Emi Suzuki. The report was reviewed by Agbessi Amouzou, Victor Gaigbe-Togbe, Lianne Gonsalves and Edilberto Loaiza.

Grateful thanks are extended to Peter Byass, Andres de Francisco, and Mary Mahy, who reviewed the drafts of this report and provided valuable advice.

Contact persons: Doris Chou (e-mail: [choud@who.int](mailto:choud@who.int)) and Lale Say (e-mail: [sayl@who.int](mailto:sayl@who.int)), Department of Reproductive Health and Research, WHO.
