ON FEMALE GENITAL MUTILATION/CUTTING:  
ACCELERATING CHANGE**

**SUMMARY REPORT OF PHASE I  
2008 - 2013**

## PHASE I - PROGRAMME COUNTRIES

## Acknowledgements

UNFPA and UNICEF are grateful for the multi-donor funding received to support Joint Programme activities to accelerate FGM/C abandonment for Phase I, 2008-2013. We would like to express particular gratitude to the governments of Austria, Iceland, Ireland, Italy, Luxembourg, Norway, Switzerland and the United Kingdom for their contributions and sound guidance as members of the Steering Committee. We also wish to recognize the bilateral support provided to our partners whose collaboration and work has been integral to the achievements of Phase I.

Our appreciation is extended to the national and local governments, other UN agencies and civil society organizations for their collaboration, technical and political support, without which the achievements described in this report would not have been possible. We would like to recognize the international community's reaffirmed commitment to the acceleration of FGM/C abandonment during the Rome International Conference on "Action to achieve commitments in UNGA Resolution 67/146: Intensifying global efforts for the elimination of female genital mutilations", held in October 2013.
