Preamble

Vision

Gender Equality is a key priority in UN-Habitat's mandate and is an integral part of the agency's work. *The UN-Habitat Policy and Plan for Gender Equality and the Empowerment of Women in Urban and Human Settlements (2014-19)* states, in its vision, that:

UN-Habitat promotes the stronger commitment of national and local governments as well as other relevant stakeholders to work towards the realization of a world in which men and women are recognized as equal partners in development and enjoy equal human rights and fundamental freedoms, including freedom from discrimination in urban policy and practice, so that economically productive, socially inclusive and environmentally sustainable cities and other human settlements can be achieved more rapidly, completely and sustainably.¹
