### **ACKNOWLEDGEMENTS**

This abridged report is based on a comprehensive report entitled: Climate Change Vulnerability Assessment of Islamabad which was jointly published by the Capital Administration and Development Division (CADD), Islamabad Capital Territory Administration (ICT), Capital Development Authority (CDA), Pakistan Meteorological Department, Pakistan Space & Upper Atmosphere Research Commission (SUPARCO), Global Change Impact Studies Centre (GCISC), and UN-Habitat. Funding for the Climate Change Vulnerability Assessment of Islamabad was provided by the Government of Norway.

# Contents

Acknowledgements	09
Foreword	11
Foreword	12
Glossary	13
<b>01</b> Introduction	01
1.1 Cities and Climate Change	01
1.2 UN-Habitat's Cities and Climate Change Initiative	01
<b>02</b> Overview of the City	02
2.1 Introduction to Islamabad and Islamabad Capital Territory	02
2.2 Government and Planning	03
2.3 Population	04
2.4 Climate and Natural Environment	05
<b>03</b> Vulnerability Assessment	06
3.1 Methodology	06
3.2 Exposure	06
3.2.1 Trends in Temperature	07
3.2.2 Trends in Precipitation	08
3.2.3 Projected Change in Temperature 2010-2099	09
3.2.4 Projected Change in Precipitation	09
3.2.5 Climate Extremes	10

3.3	Sensitivity	-----	11
3.3.1	Groundwater Level	-----	11
3.3.2	Economic Systems and Livelihoods	-----	12
3.3.3	Infrastructure and Urban Basic Services	-----	12
3.3.4	Health and Education	-----	13
3.4	Adaptive Capacity	-----	13
3.4.1.	Adaptive Capacity of Municipal and Local Development Institutions	-----	13
3.4.2	Adaptive Capacity at the Household and Community Level	-----	14

## **04** Hotspots 15

4.1	Major Hotspots in Islamabad	-----	15
4.2	Major Hotspots in Rawalpindi	-----	15

## **05** Conclusion - Proposed Adaptation Projects 17

5.1	Proposed Projects for Waste, Sanitation, Rainwater and Carbon Sequestration	-----	17
5.2	Proposed Projects for Energy Conservation	-----	18
5.3	Proposed Projects for Planning, Institutions and Policy	-----	19
5.4	Proposed Projects in Other Sectors	-----	20
5.5	Medium- to Long-term Considerations	-----	20

## List of Figures

Figure 1.	Master plan of Islamabad Capital Territory	-----	03
Figure 2.	Assessment framework	-----	06
Figure 3.	Spatial segmentation of the Islamabad Capital Territory	-----	06
Figure 4.	Change in annual average temperature in Islamabad 1961-2010	-----	07
Figure 5.	Average annual precipitation in both grids over 1960-2010	-----	08
Figure 6.	Projected precipitation in Grid II through to 2040	-----	09
Figure 7.	Climate change hotspots in Islamabad and Rawalpindi	-----	16

## List of Tables

Table 1.	Key facts of Islamabad Capital Territory	-----	02
Table 2.	Mean temperature and precipitation in Islamabad Capital Territory	-----	07
Table 3.	Precipitation in both grids over 1961-2010	-----	08
Table 4.	Projected temperature changes for both grids 2020s-2080s	-----	09
Table 5.	Days of more than 100 mm of rain in Islamabad 2001-2012	-----	10
Table 6.	Then months of maximum rainfall over 2001-2012 in Islamabad	-----	10
Table 7.	Days when the temperature exceeded 44° centigrade in Islamabad	-----	11
Table 8.	Adaptive capacity at the household level in Islamabad	-----	14

# Acknowledgements

We highly commend Mr Raja Hasan Abbas, former Secretary of the Climate Change Division, Government of Pakistan, for his excellent leadership, support and guidance during the development of this important pilot initiative. We would also like to express our sincere gratitude to Ms Rukshana Saleem, current Secretary of the Climate Change Division, Government of Pakistan, for her support in completing this work and for her leadership in taking it forward. The overall advice of the members of the Steering Committee for successfully concluding this pilot initiative is also appreciated. We are also grateful to Mr Irfan Tariq, Director General of the Climate Change Division, who operationalised this pilot initiative and coordinated with partners in the collection, collation, consultation and conclusion of the report. We are also grateful for the support of Mr Irfan Tariq's team, namely Mr Zia-ul-Islam, Director for Policy, Mr Fayaz Memon, Deputy Director, and Mr Tayyab Shahzad, Sustainable Land Management Project, for their commitment and zeal in organizing and managing this work in such a timely and efficient manner.

Special thanks are due to members of the technical working group for their invaluable contributions. Special gratitude is extended to the Global Change Impact Studies Centre (GCISC), Space and Upper Atmosphere Research Commission (SUPARCO), Pakistan Meteorological Department (PMD), Capital Development Authority (CDA), Islamabad Capital Territory Administration (ICTA), and Capital Admin-

istration Development Division (CADD). In particular, we would like to thank the nominated focal persons of these agencies who provided timely and quality data, analysis and advice. Our appreciation in this respect goes to Mr Muhammad Munir Sheikh, Chief Climatology Unit of GCISC and his team members Mr Shahbaz Mehmood and Mr Naeem Manzoor; Mr Rahmat Ullah Jilani, Director, Earth Sciences, and Dr Hussain H. Razvi, SUPARCO; Mr Muhammad Aleemul Hassan Ramay, Deputy Director, National Weather Forecasting Centre; Dr. Muhammad Afzaal, Deputy Director, PMD; Mr Ali Kazim Syed, Director Disaster Risk Reduction, CDA; Mr Shafique Ali Siddiqui, former Director Planning, CDA; and Dr Muhammad Amjad Malik, Deputy Director, ICTA; and Mr Rafique Tahir, Joint Secretary/Joint Education Advisor, CADD. The contributions of Mr Ahmad Kamal, Member Disaster Risk Reduction of the National Disaster Management Authority (NDMA) are also deeply acknowledged.

This report would not have been possible without the generous support of UN-Habitat Cities and Climate Change Initiative (CCCI) for Asia-Pacific, and the UN-Habitat Regional Office for Asia and Pacific (ROAP). Special thanks are extended to Mr Bruno Dercon, Senior Human Settlements Officer and Mr Bernhard Barth, Human Settlements Officer, UN-Habitat ROAP; Ms Maria Adelaida Cea, Regional Coordinator for UN-Habitat CCCI in Asia-Pacific; and Mr. Liam Fee, Sustainable Urban Development Advisor, UN-Habitat, ROAP.
