## DISCLAIMER

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning delimitation of its frontiers or boundaries, or regarding its economic system or degree of development. The analysis, conclusions and recommendations of the report do not necessarily reflect the views of the United Nations Human Settlements Programme, the Governing Council of the United Nations Human Settlements Programme or its Member States.

The ideas and proposals contained in the current edition of this work are the exclusive responsibility of its authors and do not compromise CAF's official position.

The report is produced with official data provided by governments and additional information gathered by the Global Urban Observatory. It is important to acknowledge that data varies according to definition and sources. While UN-Habitat checks data provided to the fullest extent possible, the responsibility for the accuracy of the information lies with the original providers of the data. Cities and countries are invited to update data relevant to them.

It is noteworthy that the study covers a 20-year period running from 1990 to 2010. Several countries and cities have made significant progress at the beginning of this decade, which are not recorded in the analysis and accompanying graphics. An updated study will reveal the magnitude and evolution of those trends that, in principle, appear positive. This is the case particularly in the urban centers of Colombia, Costa Rica, Ecuador and the Dominican Republic, among others.

Printed in Kenya.

# ACKNOWLEDGEMENTS

## Core Team

### Coordinators

José Carrera (CAF), Eduardo López Moreno (UN-Habitat)

**Author:** Eduardo López Moreno

### Support Team

Elisa Silva (CAF), Regina Orvañanos (UN-Habitat)

**Special contribution:** Pablo Vaggione (Equity policies)

**Additional Contribution:** Agustín Escobar Latapí,

David Gómez Álvarez (Equity policies)

### UN-Habitat Statistical Team

**Statistical advisor:** Gora Mboup

**Technical team:** Wandia Riunga, Julius Majale, Antony Abilla

### Inequality Estimates ECLAC

**Coordinator:** Simone Cecchini

**Technical team:** Ernesto Espíndola, Fabiola Fernández

**Consultant:** Luis Hernán Vargas

### Institutional Review

Adriana Arreaza, María Lucila Berniell, Bernardo Requena,

Elisa Silva (CAF)

Claudio Acioly, Elkin Velásquez, Regina Orvañanos (UN-Habitat)

### Advisory Board – Peer Review

Agustín Escobar Latapí, David Gómez Álvarez, Jorge Iván González

### Financial Support

CAF, Avina

### Editorial Design

**Cerocuatro, Motor Creativo**

**Original design:** Alejandro Hernández

**Cover design:** Rodolfo Romo

**Editorial design:** Ariana Villanueva

**Spanish editors:** María Dolores Olea, Ana María Sanjuan,

Andrés Zamora

**Cover image:** Eduardo Ramos

**Graphics:** Antony Abilla

**Translation from Spanish:** Alexandra Harwood

**English editor:** Peter Clayburn

**English version layout:** Euclide Namema Inyumbira

### Additional Contributions:

#### Background Reports

**Coordination:** Francisco Pérez Arellano

**Cities:** Natalia Sátyro (Belo Horizonte, Brazil), Alfredo Sarmiento (Bogotá, Colombia), Leonardo Gasparini (Buenos Aires, Argentina), Alexis Rodríguez Mojica (Panama City, Panama), Ignacio Román (Guadalajara, Mexico), Katuska King (Quito, Ecuador), Fernando

Landa (La Paz/El Alto, Bolivia), Raúl Mauro Machuca (Lima, Peru), Miguel Serna (Montevideo, Uruguay), Manuel Barahona (San José, Costa Rica), Dante Contreras (Santiago, Chile), Miguel Ceara (Santo Domingo, Dominican Republic)

### Survey on Inequality Perception

**Coordinators:** David Gómez Álvarez, Eduardo López Moreno

**Financial and technical support:** Fundación Avina

**Regional manager of the Sustainable Cities Programme for Latin America:** Diana Castro Benetti

**Programmatic coordinator of Sustainable Cities for Mexico:** Paola García Nieto

**Red de Ciudades:** Virginia Romanuti (Cordoba, Argentina, Nuestra Cordoba), Fernando Cabezas (La Paz, Bolivia, La Paz Cómo Vamos), Mauricio Broinizi (São Paulo, Brazil, Nossa São Paulo), Mauricio Bugueño (Valdivia, Chile, Nueva Región), Claudia Bustamante (Chiloé, Chile, Chiloé Cómo Vamos), Rocío Mendoza (Barranquilla, Colombia, Barranquilla Cómo Vamos), Daniel Proaño (Galápagos, Ecuador, Comunidades Sostenibles Islas Galápagos), Augusto Chacón (Guadalajara, Mexico, Jalisco Cómo Vamos), Mario Villalba (Asunción, Paraguay, Asunción Nos Une), Nilo Cruz (Arequipa, Peru, Arequipa Te Queremos), Roberto Gossi (Montevideo, Uruguay, Montevideo Cómo Vamos)

### Boxes

CHAPTER 1: Box 1: Inequality, community and society, Agustín Escobar Latapí; Box 3: Equality vs. Equity, Urban Jonsson  
CHAPTER 3: Box 5: Where are we with inequality in Bogotá? From perception to reality Bogotá Como Vamos, Mónica Villegas; CHAPTER 4: Box 1: The effects of inequalities in cities, Eduardo López Moreno y Agustín Escobar Latapí; CHAPTER 7: Box 1: Transport and territorial integration territorial, Pablo Vaggione

CONSTRUCTION OF MORE  
**EQUITABLE CITIES**

PUBLIC POLICIES FOR  
INCLUSION IN LATIN AMERICA

Prologue	I
Introduction	III
<b>▶ CHAPTER 1: REDUCING THE URBAN INCOME GAP</b>	2
The many histories of inequality in the countries of Latin America.	5
Why are some cities more unequal than others in the same country?	10
The risks of inequity	12
Equity in the development agenda	13
A national equity policy	15
Principle of equity in Latin American cities	17
<b>Graphs</b>	
1: Differences in levels of income inequalities in cities of the same country, various years	6
2: Institutions which make the most significant contribution to reducing inequality	14
<b>Boxes</b>	
1: Inequality, community and society	8
2: Inequality in cities	9
3: Equality vs. Equity	11
4: “The changes behind the change”	14
5: The right to the city	20
<b>Infographics</b>	
The many faces of inequality within Latin American countries	7
<b>▶ CHAPTER 2: RISING WEALTH, RISING INEQUALITY: MAJOR GLOBAL TRENDS</b>	26
Income inequality in regions and countries	30
Inequality: a concern in OECD countries	33
Growing inequality in countries in transition	34
Asia: growing unequally	35
Africa: A mixed inequality landscape	38
Inequality in Latin American and the Caribbean in a global context	40
<b>Tables</b>	
1: Income inequality by region, Gini coefficient, 1990-2008	30
2: Average income inequality between countries 1980-2010 (D10/D1)	31
<b>Graphs</b>	
1: Gini coefficient by region at national level and GDP per capita around 2010	40
2: National per capita income ratio (richest and poorest decile, D10/D1). Various regions 9 (three countries with the highest and lowest ratios per region)	24
<b>Boxes</b>	
1: Measuring inequality: the Gini index	28
2: Inequality between countries: 30 years of change	31
3: Inequality in Asian cities	36
4: Evolution in the People’s Republic of China	37
5: Inequality in African cities	39
<b>Infographics</b>	
Major trends in world inequality	29
Global Wealth has increased but so has inequality	32
<b>▶ CHAPTER 3: TOWARDS INCOME EQUITY IN LATIN AMERICAN CITIES</b>	48
The state of inequality in the countries and cities of the regions	49
Inequalities in urban areas tend to grow more than in rural areas	53
The inequality landscape in the urban areas of Latin American countries	54
An overview of the inequality in the cities of the region	57
Inequality in the national capitals	58

The most egalitarian cities	60
The most unequal cities	61
Progress towards equality	62
The evolution of urban inequality in recent times	62
The most and least successful countries	68
Inequality decreases in a number of cities, but increases in others	71
The variety of trends within each individual country	72
City size and income inequalities	80
Small cities with large inequalities	81
<b>Graphs</b>	
1: Comparison of the rural and urban Gini between the countries of the regions	54
2: Inter-decile income ratio between the richest and the poorest households (D10/D1), urban areas in selected countries, various years, 2005-2010	56
3: Inequality in the capitals of Latin America and the Caribbean. Gini coefficient (2005-2010)	59
4: Changes in urban Gini in the countries of Latin America and the Caribbean, between the end of 1980 and 1990 and the end of 2000	68
5: Changes in the urban Gini coefficient in Latin American countries (1989-2010)	69
6: Cities with the largest reduction in inequality (Gini coefficient) 1989-2010	72
7: Cities with the largest increase in inequality (Gini coefficient) 1989-2010	72
8: National capitals in Latin America with rising levels of income inequality (1990-2010)	74
9: National capitals in Latin America with declining levels of income inequality (1989-2010)	75
10: Income inequality and city size in Latin America and the Caribbean (1990 to 2010)	80
<b>Tables</b>	
1: General classification of cities and countries according to inequality levels (2007-2010)	51
2: Changes in inequality levels in Latin American cities with comparable information available (1990-2010)	71
<b>Boxes</b>	
1: Measuring inequality: Approach, method and data	51
2: The evolution of income inequality in the urban areas of selected countries in which inequalities decreased (1989-2010)	65
3: The evolution of trends in national capitals	74
4: Perceptions of the evolution of inequality	78
5: Where are we with inequality in Bogota? From perception to reality	79
<b>Infographics</b>	
The state of inequality in the region	50
The landscape of inequalities in the urban areas of Latin American countries	55
Steps towards equity	64
Changing levels of inequality in countries and cities	73

## ▶ CHAPTER 4: HUMAN DEVELOPMENT AND INEQUALITY: CONVERGENCES AND DIVERGENCES

Urban poverty and inequality	86
Economic growth and income equality	91
Income inequality and human development	96
Slums and inequality	101
Spatial segregation and inequality	104
Insecurity and income inequality	109
<b>Graphs</b>	112
1: Broadly speaking, would you say that your city is governed by a small group of powerful individuals whose aim is to further their own interests, or that it is governed for the good of all its people?	88
2: The contrasting evolution of poverty and inequality in Mexico and Brazil (around 1989 and 2010)	94
3: Economic development and income inequality. Selected countries in Latin America and the Caribbean. Various years around 2010	96
4: Inequality and income distribution between deciles, Bogota (1991-2010)	100
5: CPI. Selected cities in Latin America	103
6: Proportion of the urban population living in slums (2005-2010) selected countries in Latin America.	106

7: Countries in which both the number of slums and inequality decreased	107
8: Countries in which the number of slums decreased but in which inequalities remained stable or decreased	108
9: What do you think generates the most inequality in your city?	111
10: Inequality and violence in selected Latin American cities (around 2000-2010)	114
<b>Tables</b>	
1: Inequality-adjusted index in the countries of Latin America	102
<b>Boxes</b>	
1: The effects of inequality in cities	90
2: Evolution of economic growth and inequality in the city of Bogota	99
3: Slums	105
4: Perception and spatial inequality	111
<b>Infographics</b>	
Urban poverty and income inequality	92
Inequality and poverty in Latin American cities	93
Economic growth and income inequality	97

<b>CHAPTER 5: THE FACTORS OF INEQUALITY</b>	122
The influence of labour and non-labour income in the generation of inequality	126
The evolution of income streams at national level	129
Income streams in cities with greater inequality	131
The evolution of income streams in the cities which most reduced inequality	137
Education and skills development are essential for equality	143
<b>Graphs</b>	
1: Income streams, average contribution to total income. Latin American cities. The beginning of the 1990s to around 2010.	129
2: Income streams, average contribution to Gini coefficient. Latin American cities. The beginning of the 1990s to around 2010.	130
3: Average contribution of income streams to total income creation, cities which recorded the largest increase in inequalities in Latin America. (Around 1990-2002-2010)	131
4: Average contribution of income streams to Gini coefficient, cities which recorded the largest increase in inequalities in Latin America. (Around 1990-2002-2010)	131
5: Brasilia, variations in income by decile. Various periods (1990-2010)	134
6: Aggregated nation urban data on variations in income by decile. Various years. (1990-2010)	134
7: Medellin: Variations in income by decile. Various periods. (1990-2010)	136
8: Average contribution of income streams to total income, cities which most reduced inequality. (around 1990-2002-2010)	138
