UNICEF OFFICE OF RESEARCH – INNOCENTI

The Office of Research – Innocenti is UNICEF's dedicated research centre. It undertakes research on emerging or current issues in order to inform the strategic direction, policies and programmes of UNICEF and its partners, shape global debates on child rights and development, and inform the global research and policy agenda for all children, and particularly for the most vulnerable.

Office of Research – Innocenti publications are contributions to a global debate on children and may not necessarily reflect UNICEF policies or approaches.

The Office of Research – Innocenti receives financial support from the Government of Italy, while funding for specific projects is also provided by other governments, international institutions and private sources, including UNICEF National Committees.

The findings, interpretations and conclusions expressed in this paper are those of the authors and do not necessarily reflect the views of UNICEF.

This paper has been peer reviewed both externally and within UNICEF.

The text has not been edited to official publications standards and UNICEF accepts no responsibility for errors.

Time to Teach

Teacher attendance and time on task
in secondary schools
in Rwanda

Spogmai Akseer and Ximena Játiva

October 2021

Acknowledgements

This report was produced by a team of researchers at the UNICEF Office of Research – Innocenti. The study was managed by Matt Brossard, coordinated by Despina Karamperidou, and written by Spogmai Akseer. Ximena Játiva supported quantitative data analysis. Silvia Peirolo and Seun Adebayo provided exceptional research assistance. Lara Stefanizzi and Amparo Barrera offered invaluable administrative support to the team.

The team would like to acknowledge the guidance of Gunilla Olsson (Director, UNICEF Office of Research), Priscilla Idele (Deputy Director, UNICEF Office of Research – Innocenti) and the many UNICEF colleagues who assisted the planning and drafting process. The team is indebted to Shiraz Chakera (UNICEF East and Southern Africa Regional Office), Sara McGinty, Paul Bagambe and Evans Atis, (UNICEF Rwanda), who took time from their busy schedules and liaised with national government and research counterparts to facilitate in-country trainings and data collection. Thanks also go to James Ngoga, the head of the Teacher Development and Management Department at the Rwanda Education Board, for providing support in the identification of schools for this study. Invaluable editorial and communications support was provided by Dali Mwangore, Dale Rutstein, Kathleen Sullivan and Silke Rechenbach (all UNICEF Office of Research – Innocenti).

Specific thanks go to Aleston Kyanga, Peter Claver Gahakwa, Canisius Karuranga and the rest of the Social Economic Studies, Surveys, Monitoring and Evaluation Consult Limited (SESMEC) team, who helped pilot and pre-test the Time to Teach instruments and led data collection in multiple Rwandan provinces, sectors and secondary schools. The Innocenti team would also like to thank the members of the national Research Steering Group who provided direction, critical advice and vital insights during the many stages of the project, including: the Rwandan Ministry of Education, the Rwanda Education Board (REB), and the UNICEF Rwanda Country Office.

The research team is deeply indebted to the 475 study participants in Rwanda (teachers, head teachers, pupils, community representatives, subnational education officers, and national officials), who generously shared their time, experience and materials for the purposes of this project. Lastly, this study would not have been possible without the financial support of the Mastercard Foundation.

Contents

Acronyms and abbreviations	8
Executive summary	9
Main findings	10
Section 1: Introduction	12
1.1. Context and study rationale	12
1.2. Secondary education and secondary school teachers in Rwanda	12
1.3. Research objectives	16
1.4. Definitions, data and methods	16
Section 2: Key findings	18
How frequently are secondary school teachers absent?	18
Why are secondary school teachers absent?	23
2.1. National-level factors associated with teacher attendance	23
2.1.1. In-service teacher training	23
2.1.2. New CBC requirements	24
2.2. Subnational factors	25
2.2.1. School monitoring visits	25
2.2.2. Resource constraints	26
2.2.3. Authority to sanction	27
2.3. Community factors	28
2.3.1. Climate	28
2.3.2. School distance and transportation	29
2.3.3. Parental engagement	30
2.4. School factors	31
2.4.1. Role of head teachers	31
2.4.2. Teacher's workload	32
2.4.3. Limited school infrastructure and TLM availability	33
2.5. Teacher factors	35
2.5.1. Personal responsibilities	35
2.5.2. Teachers' health	35
2.5.3. Teacher commitment	36

Section 3: Strengthening teacher attendance and time on task	37
3.1. Strengthen system-wide and cross-sector implementation of existing teacher policies	37
3.2. Ensure teachers are on task while in class and well prepared to teach	38
3.3. Clarify and strengthen teacher management processes	39
