

Global Framework on
Transferable Skills

November 2019

Acknowledgements

The Global Framework on Transferable Skills is a global public good that was developed under the guidance of the Education Section at UNICEF headquarters in New York. It is a living document that will be periodically updated.

This Framework utilizes and builds upon conceptualization, research, and content developed in 2017 to produce the Middle East and North Africa Conceptual and Programmatic Framework (MENA-CPF). The MENA-CPF was developed within the scope of the Life Skills and Citizenship Education (LSCE) initiative (www.lsce-mena.org). The ongoing LSCE Initiative is led by the United Nations Children's Fund (UNICEF) in collaboration with the Arab League Educational, Cultural and Scientific Organization (ALESCO), ministries of education and other national institutions responsible for education across the MENA countries.

Other country, regional, and global partners include Aflatoun International, the Arab Institute for Human Rights (AIHR), Birzeit University (BZU), Deutsche Post DHL Group, the International Labour Organization (ILO), the International Youth Foundation (IYF), Mercy Corps, the Norwegian Refugee Council (NRC), Save the Children, the United Nations Educational, Scientific and Cultural Organization (UNESCO), the United Nations Population Fund (UNFPA), the United Nations Refugee Agency (UNHCR), the United Nations Relief and Work Agency (UNRWA), the World Bank, and the World Food Programme (WFP).

The Framework has further benefited from contributions and feedback from The United States Agency for International Development (USAID) Social and Emotional Learning Working Group, Right to Play, and UNICEF Programme Division at headquarters, regional, and country levels (Education, Gender, Adolescent Development and Participation, Water, Sanitation and Hygiene (WASH), Health, Child Protection, Social Inclusion, HIV and AIDS), and the Office of Global Insight and Policy.
