Annex 3. Indicator definitions and specifications, the status of countries and areas	94

## ■ TABLES

Table 1	Countries and areas in the Western Pacific Region that participated in the NCD CCS 2019 by World Bank income level and subregion	4
Table 2	Number of countries and areas with cancer and diabetes registries, data type and coverage rate	16
Table 3	Number of countries and areas that survey harmful use of alcohol, national coverage and interval, by age-specific population	17
Table 4	Number of countries and areas that survey tobacco use, national coverage and interval, by age-specific population	17
Table 5	Number of countries and areas that survey healthy diet, national coverage and interval, by age-specific population	18
Table 6	Number of countries and areas that survey salt intake, national coverage and interval, by age-specific population	19
Table 7	Number of countries and areas that survey physical inactivity, national coverage and interval, by age-specific population	19
Table 8	Number of countries and areas that survey overweight and obesity, national coverage and interval, by age-specific population	20
Table 9	Number of countries and areas that survey raised blood glucose/diabetes, cholesterol, and raised blood pressure/hypertension, measurement type, national coverage and interval	21
Table 10	Number of countries and areas with CVD, diabetes, cancer and CRD guidelines, drug-specific protocols, utilization and referral criteria status	22
Table 11	Number of countries and areas with alcohol dependence, tobacco dependence, overweight and physical activity guidelines, utilization and referral criteria status	23
Table 12	Number of countries and areas where basic technology is available for early detection, diagnosis, monitoring of NCDs in primary care facilities in both public and private settings	24
Table 13	Number of countries and areas with medicine generally available in the primary care facilities of the public health sector	28
Table 14	Number of countries and areas with available palliative care for patients with NCDs in the public sector	31
Table 15	Number of countries and areas with available patient registries for rheumatic fever and rheumatic heart disease	31
Table 16	Comparison of country capacity indicators in 2004, 2010, 2013, 2015, 2017 and 2019	35
Table 17	Achievement status of the NCD progress monitoring indicators in the Western Pacific	38

## ■ FIGURES

Figure 1	Percentage of countries and areas with number of dedicated staff in NCD unit	5
Figure 2	Percentage of countries and areas with technical staff dedicated per NCD risk factor and diseases	6
Figure 3	Major sources of funding for NCDs and their risk factors	7
Figure 4	Percentage of countries and areas with fiscal interventions to NCD risk factors	9
Figure 5	Number of countries and areas with multisectoral NCD commissions and their operational stages	10
Figure 6	Percentage of countries and areas with members in their national multisectoral commission, agency or mechanism	11
Figure 7	Percentage of countries and areas that included NCD in national health plans or national development plans	12
Figure 8	Number of countries and areas that have the time-bound national target for NCDs and its indicators	13
Figure 9	Percentage of countries and areas with national screening programme by cancer sites	25
Figure 10	Percentage of countries and areas with HPV vaccination and its population coverage rate	26
Figure 11	Number of countries and areas with available cancer centres/ departments at the tertiary-level hospital and related cancer treatment services in the public sector	27
Figure 12	Percentage of countries and areas with procedures available for treating NCDs	29
Figure 13	Percentage of countries and areas with primary health care facilities for cardiovascular risk stratification and its availability at country level	31
Figure 14	WHO 10 progress monitoring indicators on NCDs	37

## ACKNOWLEDGEMENTS

This report was developed by the World Health Organization (WHO) Regional Office for the Western Pacific. WHO wishes to acknowledge the support and cooperation of the following national noncommunicable disease (NCD) focal points who provided the completed survey tool.

Leila Jordan (Australia)  
 Ong Sok King (Brunei Darussalam)  
 Kol Hero (Cambodia)  
 Liangyou Wu (China)  
 Ka-wai Rita Ho (China, Hong Kong SAR)  
 Chan Tan Mui (China, Macao SAR)  
 Josephine Hermann/Mirella Mairi  
 (Cook Islands)  
 Isimeli Tukana/Alvis Zibran (Fiji)  
 Merehau Mervin (French Polynesia)  
 Patrick Solidum Luces (Guam)  
 Masakazu Aihara (Japan)  
 Kaaro Neeti/Teanibuaka Tabunga (Kiribati)  
 Lavanh Vongsavanthong (Lao People's  
 Democratic Republic)  
 Feisul Idzwan Mustapha (Malaysia)  
 Philmar Mendoza/Neiar Kabua  
 (Marshall Islands)  
 X-ner Luther (Federated States of Micronesia)

Khandarmaa Tseren-Ochir (Mongolia)  
 Jean-Paul Grangeon (New Caledonia)  
 Kalais Hemi (New Zealand)  
 Don Kadir/Stacey Cain (Nauru)  
 Grizelda Mokoia (Niue)  
 Subroto Banerji (Commonwealth of the  
 Northern Mariana Islands)  
 Edolem Ikerdeu (Palau)  
 Vicky Wari (Papua New Guinea)  
 Ferchito L. Avelino (Philippines)  
 Eun-hye Shim (Republic of Korea)  
 Mareta Sefo-Faalafi/Take Naseri (Samoa)  
 Benjamin Lee (Singapore)  
 Geoffrey Kenilorea (Solomon Islands)  
 Petelo Tavite (Tokelau)  
 Siale 'Akau'ola/'Ofa Sanft Tukia (Tonga)  
 Felise Manoa Afasene (Tuvalu)  
 Douglas Ngwele (Vanuatu)  
 Tran Dac Phu (Viet Nam)
