General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement. Terminology used to refer to countries, territories and areas as well as representation of countries, territories and areas, including delimitation of frontiers or boundaries, in this publication follow the institutional style and practice of the WHO as lead publishing organization, and may be at variance with those used by other UN agencies.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

ACKNOWLEDGEMENTS	vi
ACRONYMS AND ABBREVIATIONS	vii
EXECUTIVE SUMMARY	viii
1. INTRODUCTION	1
2. DEFINITIONS AND CONCEPTS	4
2.1 Concepts and measures	4
2.2 Differences between the indicators used for this analysis and the United Nations Sustainable Development Goals (SDG) indicators	7
2.3 Challenges in measurement and reporting of violence against women: rationale for modelled estimates	9
3. DATA AND METHODS	11
3.1 Data sources, systematic review of the evidence and compilation of the database	11
3.2 Pre-processing of data.....	14
3.3 Data analysis: multilevel modelling framework	16
3.4 Post-processing of data.....	17
4. PREVALENCE ESTIMATES OF INTIMATE PARTNER VIOLENCE AND NON-PARTNER SEXUAL VIOLENCE, 2018	19
4.1 Global, regional and national prevalence estimates of physical and/or sexual intimate partner violence, 2018.....	20
4.2 Global and regional prevalence estimates of lifetime non-partner sexual violence against women, 2018.....	29
4.3 Global and regional combined prevalence estimates of intimate partner violence and non-partner sexual violence, 2018.....	33
5. POLICY IMPLICATIONS AND NEXT STEPS	36
5.1 Summary of key findings.....	37
5.2 Addressing measurement challenges and research gaps.....	38
5.3 Addressing policy and programmatic challenges	41
5.3 Conclusion.....	42
REFERENCES	44
ANNEXES	52

List of tables

Table 2.1. Operational definitions of forms of intimate partner violence (IPV) and indicators most frequently used in surveys included in this analysis.....	6
Table 2.2. Operational definitions of non-partner sexual violence (NPSV) and indicators most frequently used in surveys included in this analysis.....	7
Table 4.1. Global prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women, by age group, 2018.....	22
Table 4.2. Global and regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, by United Nations Sustainable Development Goal (SDG) super region and subregion, 2018	24
Table 4.3. Regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, by World Health Organization (WHO) region, 2018.....	26
Table 4.4. Global and regional prevalence estimates of lifetime non-partner sexual violence (NPSV) among women aged 15–49 years, by United Nations Sustainable Development Goal (SDG) super region and subregion, 2018.....	31
Table 4.5. Global and regional prevalence estimates of lifetime non-partner sexual intimate partner violence (NPSV) among women aged 15–49 years and data availability, by World Health Organization (WHO) region, 2018.....	33
Table 4.6. Global and regional prevalence estimates of lifetime physical and/or sexual intimate partner violence (IPV) or non-partner sexual violence (NPSV) or both among all women aged 15–49 years, by World Health Organization (WHO) region, 2018.....	35

List of figures

Figure 3.1. Conceptual overview of data inputs, data processing, analysis and post-processing steps required to produce global, regional and national prevalence estimates on violence against women.....	15
Figure 4.1. Map of prevalence estimates of lifetime physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, 2018.....	27
Figure 4.2. Map of prevalence estimates of past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, 2018	28

List of annexes

Annex 1. Summary description of the 2019–2020 country consultations on prevalence estimates of intimate partner violence against women.....	52
Annex 2. Countries with eligible data on prevalence of physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15 years and older, by World Health Organization (WHO) region, 2018.....	56
Annex 3. Countries with eligible data on prevalence of physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15 years and older, by United Nations Sustainable Development Goal (SDG) region, 2018.....	59
Annex 4. Statistical analyses: multilevel modelling framework used to construct the violence against women estimates.....	63
Annex 5. Number of estimates included in the modelling of the prevalence of physical and/or sexual intimate partner violence, by World Health Organization (WHO) region and age group.....	66
Annex 6. Country prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, 2018.....	68
Annex 7. Regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15 years and older, by World Health Organization (WHO) region, 2018.....	75
Annex 8. Regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15–49 years, by Global Burden of Disease (GBD) region, 2018.....	76
Annex 9. Regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15 years and older, by United Nations Population Fund (UNFPA) region, 2018.....	77
Annex 10. Regional prevalence estimates of lifetime and past 12 months physical and/or sexual intimate partner violence (IPV) among ever-married/partnered women aged 15 years and older, by United Nations Children’s Fund (UNICEF) region, 2018.....	78
Annex 11. Characteristics of included studies on lifetime non-partner sexual violence (NPSV experienced since age 15), conducted between 2000 and 2018.....	79
Annex 12. Countries with eligible data on lifetime prevalence of non-partner sexual violence (NPSV) among all women aged 15 years and older, by World Health Organization (WHO) region, 2018.....	80
Annex 13. Countries with eligible data on lifetime prevalence of non-partner sexual violence (NPSV) among all women aged 15 years and older, by United Nations Sustainable Development Goal (SDG) region, 2018.....	81
Annex 14. Results of random effects meta-analysis for different adjustment factors, lifetime non-partner sexual violence (NPSV), by Global Burden of Disease (GBD) super region.....	83
Annex 15. Regional prevalence estimates of lifetime non-partner sexual violence (NPSV) among women aged 15 years and older, by World Health Organization (WHO) region, 2018.....	85
Annex 16. Regional prevalence estimates of lifetime non-partner sexual violence (NPSV) among women aged 15–49 years, by Global Burden of Disease (GBD) region, 2018.....	86
Annex 17. Regional prevalence estimates of lifetime physical and/or sexual intimate partner violence (IPV) and/or lifetime non-partner sexual violence (NPSV) among women aged 15 years and older, by World Health Organization (WHO) region, 2018.....	87

Acknowledgements

This report was jointly prepared by Claudia García-Moreno (Unit Head) and LynnMarie Sardinha (Technical Officer) of the UNDP-UNFPA-UNICEF-WHO-World Bank Special Programme of Research, Development and Research Training in Human Reproduction (HRP) in the Department of Sexual and Reproductive Health and Research (SRH) at the World Health Organization (WHO). Mathieu Maheu-Giroux of McGill University, Canada, developed the methodology for modelling the estimates and contributed to the relevant section of the report. Heidi Stöckl of the London School of Hygiene and Tropical Medicine (LSHTM) and Sarah Meyer (WHO consultant) contributed to the development of the Global Database on Prevalence of Violence Against Women.

The United Nations Inter-Agency Working Group on Violence Against Women Estimation and Data (VAW-IAWGED) guided the process of developing the estimates, and reviewed the Technical Note for the country consultation and this report. The independent external Technical Advisory Group (TAG) to the VAW-IAWGED provided expert advice and input throughout the process of developing the methodology and the estimates.

From each of the constituent agencies, the following individuals were members of the VAW-IAWGED:

- World Health Organization (WHO): Claudia García-Moreno and LynnMarie Sardinha
- United Nations Entity for Gender Equality and the Empowerment of Women (UN Women): Juncal Plazaola-Castaño
- United Nations Children's Fund (UNICEF): Claudia Cappa and Nicole Petrowski
- United Nations Population Fund (UNFPA): Henriette Jansen and Mengjia Liang
- United Nations Office on Drugs and Crime (UNODC): Enrico Bisogno and Luisa Sanchez Iriarte Mendoza
- United Nations Statistics Division (UNSD): Francesca Grum.

The following members of the TAG provided independent technical advice:

- Naeemah Abrahams, Gender and Health Research Unit, South African Medical Research Council, South Africa
- Sarah Bott, Independent consultant, United States of America
- Kristin Diemer, School of Social Work, Melbourne School of Health Sciences, University of Melbourne, Australia
- Mary Ellsberg, Global Women's Institute, George Washington University, USA
- Monica Howlett, University of California, Berkeley, USA
- Sunita Kishor, Demographic and Health Surveys (DHS) Program, ICF, USA
- Maria Giuseppina Muratore, Istituto Nazionale di Statistica, Italy
- Nguyen Thi Viet Nga, Social-Environmental Statistics Department, General Statistics Office of Viet Nam, Viet Nam
- Ruchira Tabassum Naved, Health Systems and Population Studies Division, icddr, b, Bangladesh
- Eva Gisela Ramirez Rodriguez, National Institute of Statistics and Geography (INEGI), Mexico
- Charlotte Watts, LSHTM, United Kingdom of Great Britain and Northern Ireland
- İlknur Yüksel-Kaptanoğlu, Social Survey Methodology Department, Hacettepe University, Turkey.

WHO, UNFPA, UNICEF, WHO, World Bank Special Programme of Research, Development and Research Training in Human Reproduction (HRP) in the Department of Sexual and Reproductive Health and Research (SRH) at the World Health Organization (WHO).
