Under the terms of this licence, you may copy, redistribute and adapt the work for non-commercial purposes, provided the work is appropriately cited, as indicated below. In any use of this work, there should be no suggestion that WHO endorses any specific organization, products or services. The use of the WHO logo is not permitted. If you adapt the work, then you must license your work under the same or equivalent Creative Commons licence. If you create a translation of this work, you should add the following disclaimer along with the suggested citation: "This translation was not created by the World Health Organization (WHO). WHO is not responsible for the content or accuracy of this translation. The original English edition shall be the binding and authentic edition".

Any mediation relating to disputes arising under the licence shall be conducted in accordance with the mediation rules of the World Intellectual Property Organization (<http://www.wipo.int/amc/en/mediation/rules/>).

Suggested citation. Laboratory biosafety manual, fourth edition. Geneva: World Health Organization; 2020 (Laboratory biosafety manual, fourth edition and associated monographs). Licence: [CC BY-NC-SA 3.0 IGO](https://creativecommons.org/licenses/by-nc-sa/3.0/igo).

Cataloguing-in-Publication (CIP) data. CIP data are available at <http://apps.who.int/iris>.

Sales, rights and licensing. To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Glossary of terms	x
Foreword	xvii
SECTION 1 Introduction	1
1.1 Intended scope	2
1.2 How to use the <i>Laboratory biosafety manual</i>	3
SECTION 2 Risk assessment	5
2.1 Gather information	9
2.2 Evaluate the risks	11
2.3 Develop a risk control strategy	17
2.4 Select and implement risk control measures	18
2.5 Review risks and risk control measures	25
SECTION 3 Core requirements	27
3.1 Good microbiological practice and procedure	27
3.2 Personnel competence and training	31
3.3 Facility design	31
3.4 Specimen receipt and storage	34
3.5 Decontamination and waste management	35
3.6 Personal protective equipment	41
3.7 Laboratory equipment	43
3.8 Emergency/incident response	45
3.9 Occupational health	47

SECTION 4 Heightened control measures	49
4.1 Operational working practices and procedures	49
4.2 Personnel competence and training	50
4.3 Facility design	50
4.4 Specimen receipt and storage	51
4.5 Decontamination and waste management	51
4.6 Personal protective equipment	51
4.7 Laboratory equipment	54
4.8 Emergency/incident response	55
4.9 Occupational health	55
SECTION 5 Maximum containment measures	59
5.1 Operational working practices and procedures	60
5.2 Personnel competence and training	60
5.3 Facility design	60
5.4 Specimen receipt and storage	63
5.5 Decontamination and waste management	63
5.6 Personal protective equipment	63
5.7 Laboratory equipment	64
5.8 Emergency/incident response	64
5.9 Occupational health	64
SECTION 6 Transfer and transportation	65
6.1 Transfer within the laboratory	65
6.2 Transfer within a building	66
6.3 Transfer between buildings on the same site	66

6.4 Off-site transport of infectious substances	68
SECTION 7 Biosafety programme management	77
7.1 Biosafety culture	78
7.2 Biosafety policy	78
7.3 Assigned roles and responsibilities	79
7.4 Biosafety manual	80
7.5 Biosafety and biosecurity risk assessment	80
7.6 Supporting programmes and plans	80
7.7 Reports and reviews	81
SECTION 8 Laboratory biosecurity	83
8.1 Biosecurity risk assessment	84
8.2 Inventory control	85
8.3 Information control	85
8.4 Personnel control	86
8.5 Physical security control	86
8.6 Transport control	87
8.7 Emergency/incident response	87
8.8 Emerging biological risks	88
8.9 Dual use research of concern	89
SECTION 9 National/international biosafety oversight	91
References	95
Further information	100
