# Acknowledgements

The *Assistive Technology Procurement Study* was commissioned by the World Health Organization (WHO) Regional Office for the Western Pacific and led by Motivation Australia in partnership with the Pacific Disability Forum and the Nossal Institute for Global Health.

Funded by the Australian Government, this study represents one of the commitments made by Australia at the 2018 Global Disability Summit.

Study partners acknowledge and thank all those who participated and supported the study, including:

- the study advisory group of stakeholders from the Western Pacific Region and further afield;
- study participants from government and civil society who shared their knowledge and stories of procurement, service delivery and accessing assistive technology;
- the many individuals who through regional forums and group consultations gave feedback on preliminary findings and early recommendations;
- WHO country offices responsible for each of the countries visited for the study; and
- the Pacific Islands Forum Secretariat and the Pacific Community for support and guidance.
