**Cataloguing-in-Publication (CIP) data.** CIP data are available at <http://apps.who.int/iris>.

**Sales, rights and licensing.** To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

**Third-party materials.** If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

**General disclaimers.** The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO or UN-HABITAT concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO or UN-HABITAT in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO and UN-HABITAT to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO or UN-HABITAT be liable for damages arising from its use.

# CONTENTS

Acknowledgements	v
Abbreviations	vi
Glossary	vii
Foreword	viii
Executive summary	xi
<b>1. Health in urban and territorial planning</b>	<b>1</b>
1.1 Who is this guidance for?	1
1.2 Why is this important?	1
1.3 How do we need to respond?	5
1.4 What should we be doing?	5
<b>2. What health can bring to urban and territorial planning</b>	<b>6</b>
2.1 National governments	6
2.2 Local authorities	7
2.3 Civil society organizations and associations	7
2.4 Professionals and their associations	8
2.5 Culture change in traditional spatial planning	9
<b>3. Why integrate urban and territorial planning with health?</b>	<b>10</b>
3.1 Alignment of health and sustainable development in the urban agenda	11
3.2 Urban and territorial planning affects people's health	12
<b>4. Urban and territorial planning and health as natural allies</b>	<b>16</b>
4.1 Sustainable Development Goals and health	19
4.2 Cities and urban lifestyles influence the health of people and the planet	20
4.3 Health equity	22
<b>5. How to include health in urban and territorial planning</b>	<b>24</b>
5.1 Four dimensions of planning for health	25
5.2 Health in all planning phases	27
5.3 Urban and territorial planning contexts and health (pre-conditions)	28
5.4 Working in the absence of good planning legislation and with limited resources	29

<b>6. An assets-based approach with people at the centre</b>	<b>34</b>
6.1 People are assets	35
6.2 Places are assets	38
6.3 Processes are assets	38
<b>7. Choosing your entry point</b>	<b>40</b>
7.1 Entry points summary	40
7.2 By setting	42
7.3 By outcome	46
7.4 By principle	49
7.5 By sector	52
<b>8. Health appraisal, analysis and data tools</b>	<b>56</b>
8.1 Health impact assessment	56
8.2 Cumulative risks and comparative risk assessments	57
8.3 Online analytical tools	59
8.4 Spatial epidemiology	60
8.5 Citizen science	61
8.6 City dashboards and city profiling	61
<b>9. The heart of urban development</b>	<b>62</b>
9.1 Health as an enabler for an improved planning system	62
9.2 A panacea for better health?	64
