A network diagram with a central white circle containing text. Numerous lines radiate from this circle to a larger, fainter network of nodes and lines that fills the background. The nodes are small circles in shades of blue and pink, connected by thin lines. The overall background is a dark blue gradient.

ACKNOWLEDGEMENTS

This report was prepared by the Surveillance, Monitoring and Reporting Unit within the Department of Noncommunicable Diseases (NCDs), World Health Organization, Geneva. Leanne Riley coordinated the work on the NCD country capacity survey, the overall implementation of the survey and the reporting of results; Melanie Cowan oversaw the web-based data collection and validation of results, and performed all data management and statistical analysis needed to prepare the results for the final report.

We wish to thank the NCD focal points in the WHO regional offices for their generous support and assistance in coordinating the NCD country capacity survey during 2019 with their respective Member States, and for undertaking validation and review of completed survey responses: Nivo Ramanandraibe for the WHO Regional Office for Africa; Roberta Caixeta and Carolina Chavez-Cortez for the WHO Regional Office for the Americas; Ivo Ravokac and Natalia Fedkina for the WHO Regional Office for Europe; Heba Fouad for the WHO Office for the Eastern Mediterranean; Naveen Agarwal and Manju Rani for the WHO Regional Office for South-East Asia; and Rick Kim, Saki Narita, Donghee Seo, Hai-Rim Shin, Wendy Snowdon and Nola Vanualailai for

the WHO Regional Office for the Western Pacific. Additional thanks to staff in numerous WHO country offices who provided invaluable support in survey-related communication with Member States.

Colleagues from WHO headquarters also provided helpful input and support in the development of the survey questionnaire and review and validation of the completed questionnaires by countries: Fiona Bull, May Cho, Alison Commar, Kaia Engesveen, Alexandra Fleischmann, Sophie Genay-Diliautas, Lawrence Grummer-Strawn, Hebe Gouda, André Ilbawi, Taskeen Khan, Yuka Makino, Doris Ma Fat, Vladimir Poznyak, Dag Rekve, Benoit Varenne, Cherian Varghese, Temo Waqanivalu and Juana Willumsen.

Thanks also to Steve Moore, independent consultant who designed the web-based platform for data collection, and Marie Clem Carlos and Fatima Soltan, who helped with the writing and preparation of this report.

Finally, we thank all Member States that took part in the survey, allowing the assessment and completion of this report.
