## LIST OF TABLES

<b>Table 1.</b>	Anaemia prevalence in countries in which KII were completed	<b>3</b>
<b>Table 2.</b>	Beneficiaries included in national guidelines for iron and/or micronutrient supplement provision in countries in which KII were completed	<b>5</b>
<b>Table 3.</b>	Antenatal iron supplementation indicator used in countries in which KII were completed	<b>6</b>
<b>Table 4.</b>	Key results on collection and use of data on coverage/consumption of iron supplements	<b>7</b>
<b>Table 5.</b>	Fields of work occupied by respondents	<b>8</b>
<b>Table 6.</b>	Types of organization employing respondents	<b>9</b>
<b>Table 7.</b>	Status of the national guideline for iron supplement provision in countries mentioned in the online survey	<b>9</b>
<b>Table 8.</b>	Availability of iron supplements at health facilities in countries mentioned in the online survey	<b>10</b>
<b>Table 9.</b>	Satisfaction with how iron supplement coverage/consumption is assessed in national surveys	<b>11</b>
<b>Table 10.</b>	Selected respondents' suggestions on how questions assessing iron supplement coverage/consumption should be revised in national surveys	<b>11</b>
<b>Table 11.</b>	Use of data collected on iron supplement coverage/consumption, based on respondents' comments	<b>12</b>
<b>Table 12.</b>	Countries included in secondary data analysis of iron consumption data quality	<b>14</b>
<b>Table 13.</b>	Iron coverage/consumption questions included in the Pregnancy and Postnatal Care section of the DHS Model Questionnaire – Phase 7	<b>14</b>
<b>Table 14.</b>	Data quality level guidelines used at Statistics Canada	<b>15</b>
<b>Table 15.</b>	Iron supplement consumption during pregnancy in countries selected for DHS data quality analyses	<b>16</b>
<b>Table 16.</b>	Descriptive analysis of variables included in DHS data quality analysis, by country	<b>16</b>
<b>Table 17.</b>	Evidence of data heaping in DHS datasets	<b>17</b>
<b>Table 18.</b>	Reported days of iron tablet/syrup consumption by postpartum women in three DHS datasets	<b>18</b>
<b>Table 19.</b>	Reported days of consumption by recall period among those postpartum women who consumed iron tablets/syrup for at least one day in Afghanistan, Myanmar and Tanzania	<b>18</b>

<b>Table 20.</b>	Results of linear regression analyses between iron consumption and recall period, number of ANC visits and maternal educational attainment, by country	<b>20</b>
<b>Table 21.</b>	Precision of iron consumption data collected in DHS by recall period and country	<b>21</b>
<b>Table C 1.</b>	Key informant interview (KII) guide for WHO TEAM exploratory analysis of iron supplementation data collection and usage	<b>30</b>
<b>Table C 2.</b>	List of online survey respondents' countries	<b>32</b>
<b>Table C 3.</b>	List of countries, year and name of most recent survey assessing iron supplement coverage/consumption	<b>34</b>
<b>Table C 4.</b>	Respondents' suggestions on how questions assessing iron supplement coverage/consumption should be revised in national surveys	<b>36</b>
<b>Table C 5.</b>	Details of how data collected on iron supplement coverage/consumption is used	<b>38</b>
<b>Table D 1.</b>	Questions on the age of the most recent child, number of ANC visits and maternal education included in the Pregnancy and Postnatal Care section of the DHS Model Questionnaire – Phase 7	<b>40</b>

## LIST OF FIGURES

<b>Fig. 1.</b>	Flowchart of number of respondents and countries answering each category of survey questions	<b>8</b>
<b>Fig. 2.</b>	Directed acyclic graph (DAG) representing the relationship between antenatal IFA consumption recall (outcome) and maternal sociodemographic factors and recall period	<b>13</b>
<b>Fig. B 1.</b>	Histograms of antenatal iron consumption in DHS datasets	<b>27</b>

## ACKNOWLEDGEMENTS

This technical report is an outcome of research by the WHO-UNICEF Technical Expert Advisory group on nutrition Monitoring (TEAM), which was supported by the Bill & Melinda Gates Foundation.

All TEAM members (in alphabetical order): Mary Arimond, Jennifer Coates, Trevor Croft, Omar Dary, Rafael Flores-Ayala, Edward Frongillo Jr., Rebecca Heidkamp, Purnima Menon, Lynnette Neufeld, Faith Thuita, Sara Wuehler and Wenhua Zhao, for providing feedback on draft findings.

Kuntal Kumar Saha (WHO headquarters), for conceptualization and leading this research; Sara Wuehler and Rebecca Heidkamp (TEAM), for conceptualization and technical contributions to the development, implementation, interpretation and reporting; Aatekah Owais (Nutrition International, Canada), for conducting this research, data analyses and interpretation, and report writing; and Vrinda Mehra (UNICEF) and Lisa Rogers (WHO headquarters), for their feedback on the draft version of the report.

All key informants and online survey participants, for their time, valuable inputs and thoughts.
