Required citation:

FAO and WHO. 2020. *Guidelines for personal protection when handling and applying pesticide – International Code of Conduct on Pesticide Management*. Rome.

This publication was developed in the context of the Inter-Organisation Programme for the Sound Management of Chemicals (IOMC). The IOMC was established in 1995 following recommendations made by the 1992 UN Conference on Environment and Development to strengthen cooperation and increase international coordination in the field of chemical safety. The participating organizations are the Food and Agriculture Organization of the United Nations (FAO), the International Labour Organization (ILO), the Organisation for Economic Co-operation and Development (OECD), the United Nations Environment Programme (UNEP), the United Nations Industrial Development Organization (UNIDO), the United Nations Institute for Training and Research (UNITAR), the World Health Organization (WHO), the World Bank and the United Nations Development Programme (UNDP). The purpose of the IOMC is to promote coordination of the policies and activities pursued by the participating organizations, jointly or separately, to achieve the sound management of chemicals in relation to human health and the environment.

The contents of this publication do not necessarily reflect the views or stated policies of individual IOMC participating organizations.

The designations employed and the presentation of material in this information product do not imply the expression of any opinion whatsoever on the part of the Food and Agriculture Organization of the United Nations (FAO) or World Health Organization (WHO) concerning the legal or development status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. The mention of specific companies or products of manufacturers, whether or not these have been patented, does not imply that these have been endorsed or recommended by FAO or WHO in preference to others of a similar nature that are not mentioned.

The views expressed in this information product are those of the author(s) and do not necessarily reflect the views or policies of FAO or WHO.

# Contents

Foreword .....	vii
Abbreviations and acronyms .....	viii
Definitions.....	ix
Introduction.....	1
Background.....	1
Objectives and targeted audience .....	1
Scope and structure.....	3
Issues related to personal protection .....	4
FAO/WHO tiered approach in pesticide risk reduction .....	4
Understanding pesticide risks in relation to personal protection.....	5
The concept of pesticide risk .....	5
Hazard in relation to personal protection .....	6
Exposure in relation to personal protection: routes of exposure .....	7
Limiting pesticide exposure of human health and the environment.....	9
Issues in low- and middle-income countries.....	10
Special considerations for personal protection and PPE in tropical climates .....	11
<b>1. Personal protection and PPE: technical considerations .....</b>	<b>13</b>
<b>1.1. Principles of personal protection .....</b>	<b>13</b>
1.1.1. General protection when working with pesticides .....	13
Users .....	13
Storage and transportation .....	13
Application and use .....	13
Phases after use .....	14
1.1.2. Understanding the label and requirements for PPE.....	14
1.1.3. Personal hygiene and special precautions with PPE .....	15
1.1.4. Other farm workers.....	16
1.1.5. Pesticide retailers.....	16
1.1.6. Vulnerable groups .....	16
1.1.7. Bystanders and residents.....	17
1.1.8. Non-occupational uses .....	17
1.1.9. First aid.....	18
<b>1.2. PPE and factors that determine its requirements.....</b>	<b>19</b>
<b>1.3. Determining the appropriateness of PPE.....</b>	<b>23</b>
1.3.1. Use of PPE in a regulatory framework .....	23
1.3.2. Assumptions to be made in risk assessment exposure calculations.....	24
1.3.3. How governments ensure appropriate PPE on labels .....	25
<b>1.4. Types of PPE .....</b>	<b>25</b>
1.4.1. Body protection, including feet and hands .....	25

Coveralls .....	26
Aprons and tabards .....	29
Footwear .....	30
Gloves .....	30
1.4.2. Head, face, eyes and ears.....	<b>33</b>
Hat .....	33
Face shield .....	33
Safety glasses and goggles .....	33
Ear protection .....	34
1.4.3. Respiratory system .....	<b>34</b>
Nuisance dust masks .....	35
Particulate air filters (or particulate air filter masks) .....	36
Respirators .....	37
Considerations for use of RPE .....	38
1.4.4. Considerations of PPE size and fit .....	<b>39</b>
<b>1.5. Correct use of PPE .....</b>	<b>40</b>
<b>1.6. Cleaning, maintenance and storage of PPE .....</b>	<b>41</b>
1.6.1. Cleaning .....	41
1.6.2. Maintenance .....	42
1.6.3. Storage .....	42
<b>1.7. Disposal of PPE .....</b>	<b>42</b>
<b>2. Personal protection and PPE: policy considerations .....</b>	<b>43</b>
2.1. Awareness-raising, risk communication and training.....	43
2.2. Availability .....	44
2.3. Quality and affordability.....	44
2.4. Monitoring .....	45
2.5. Stakeholder involvement.....	45
2.6. Registration.....	46
2.7. Risk mitigation .....	46
Summary of considerations to reduce risks when handling and applying pesticides and technical considering in use of PPE .....	48
References .....	50
Additional reading.....	53
Annex 1: Classifications of acute hazard in the GHS and by WHO .....	54
Annex 2: PPE for applying public health pesticides.....	55
Annex 3: PPE for applying agricultural pesticides.....	56
Annex 4: The FAO Pesticide Registration Toolkit .....	57
Annex 5: Standards for PPE and RPE .....	58

## Boxes

Box 1.	Provisions related to PPE and protective clothing in the International Code of Conduct on Pesticide Management .....	2
Box 2.	Provisions related to PPE and biopesticides.....	4
Box 3.	The concept of risk.....	5

## Tables

Table 1.	Examples of factors that determine pesticide exposure.....	20
Table 2.	Indicative protection and reduction of exposure with different types of PPE in the EFSA model .....	24
Table 3.	Types of chemical-resistant clothing.....	27
Table 4.	Protective clothing described by ISO standard 27065:2017 .....	28
Table 5.	Footwear and chemical protection .....	30
Table 6.	Gloves and chemical protection .....	31
Table 7.	Levels of protection for gloves as described by ISO standard 18889:2019 ..	32
Table 8.	Colour codes and uses of respirators.....	37

## Figures

The figures in these guidelines are the property of FAO and WHO, except when indicated otherwise.

Fig. 1.	Routes of exposure to pesticides .....	7
Fig. 2.	Variation in absorption rates in different parts of the body in comparison with the rate of dermal absorption through the forearm (1.0) .....	8
Fig. 3.	Examples of common PPE pictograms for pesticide use .....	14
Fig. 4.	Example of warning near a treated field .....	17
Fig. 5.	First aid for eye .....	18
Fig. 6.	Recovery position for an unconscious person .....	19
Fig. 7.	Example of a container with a built-in measure .....	22
Fig. 8.	Engineering controls: enlarged filler opening in a tank and a deep-set filter to avoid splashing of spray liquid .....	22
Fig. 9.	Basic protective work clothing .....	26
Fig. 10.	An apron (show in black) .....	29
Fig. 11.	How to wear gloves .....	31
Fig. 12.	Safety goggles .....	34
Fig. 13.	Ear defenders .....	34
Fig. 14.	Nuisance dust mask: not recommended for protection against pesticides ...	35
Fig. 15.	Surgical mask: not recommended for protection against pesticides .....	36
Fig. 16.	Example of a particulate air filter mask .....	36
Fig. 17.	Example of a twin filter half-face respirator .....	37
Fig. 18.	Example of a powered full-face respirator .....	38
Fig. 19.	Wearing gloves when cleaning and brushing nozzles .....	41
Fig. 20.	Small, lockable store for pesticide containers .....	42
