Sales, rights and licensing. To purchase WHO publications, see <https://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <https://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Acknowledgements

The World Health Organization (WHO) is grateful for the contributions that many individuals and organizations have made to the development of this guidance.

This guidance was coordinated by Venkatraman Chandra-Mouli of the WHO Department of Reproductive Health and Research, with support from Marina Plesons and oversight from Lale Say.

WHO extends sincere thanks to Susan Igras, who carried out the literature review and developed the first draft of the guidance.

WHO is also grateful to participants of a WHO technical consultation for their review and feedback to the first and subsequent versions of the guidance: Susanne Carai, Sarah Castle, Bregje de Kok, Fariyal Fikree, Kylie Hutchinson, Emma Jackson, Rebecka Lundgren, Bella Mansanya, Kristien Michielsen, Ghazaleh Samandari, Shantanu Sharma, Manahil Siddiqi, and Judith Westeneng.

Lastly, WHO thanks Vivien Stone for editing the document, L'IV Com for designing the document, and Graham Ogilvie for preparing the illustrations.

This work was funded by the John D. and Catherine T. MacArthur Foundation. The views of the funding bodies have not influenced the content of this guidance.
