Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

This publication contains the collective views of an international group of experts and does not necessarily represent the decisions or the policies of WHO.

Acknowledgements

This document is the report of the technical meeting jointly convened by the World Health Organization (WHO) and United Nations Children's Fund (UNICEF) on Redesigning Child and Adolescent Health Programmes in the context of the Sustainable Development Goals (SDGs). The meeting was organized by the WHO Departments of Maternal, Newborn, Child and Adolescent Health and the Child and Community Health Unit of UNICEF in collaboration with other departments and units in both organizations. Collaborating departments in WHO included, Public Health and Environment; Non Communicable Diseases; Mental Health and Substance Abuse; Nutrition for Health and Development; and Reproductive Health and Research. Collaborating units in UNICEF included Division of Data, Research and Policy, Care for Child Development, and Maternal Newborn and Adolescent Health, Units.

WHO and UNICEF thanks all participants and partners listed in the Annex 2 for their time, resources and technical contributions in support of the meeting. WHO and UNICEF gratefully acknowledges the chairs of the sessions, Professor Elizabeth Saewyc, Shams El Arifeen and Mark Tomlinson for their contributions and Rosie Ameyan who acted as the main rapporteur.

We also greatly acknowledge participants listed in Annex 1 who made presentations at the meeting.

Special thanks to the lead authors of the background papers for the meeting, Zulfiqar Bhutta, The Hospital for Sick Children, Toronto, Canada; Alarcos Cieza, WHO Department of Noncommunicable Diseases; Diana Estevez, Consultant, Ecuador; Regina Guthold and Kathleen Strong, WHO Department of Maternal, Newborn, Child and Adolescent Health (MCA); Mira Johri, University of Montreal, Canada; Zeina Maalouf, Consultant, USA; Mark Tomlinson, Stellenbosch University, South Africa; and Danzhen You, Division of Data, Research and Policy, UNICEF. We

We acknowledge and thank all WHO and UNICEF staff who coordinated the Child Health Redesign Project and supported the preparations of the meeting, Anne Detjen; Rory Nefdt and Stefan Peterson, UNICEF; and Rajiv Bahl; Anshu Banerjee; Ornella Lincetto; David Ross; Jonathon Simon and Wilson Were, WHO Department of Maternal, Newborn, Child and Adolescent Health (MCA).

We acknowledge financial support for preparations and convening of the meeting from the Bill and Melinda Gates Foundation Investment Grant No. OPP1163037 for Redesign of Global Guidance on Care for Newborns, Infants and Children.

Acronyms and abbreviations

HIC	high-income country
IMNCI	integrated management of neonatal and childhood illness
LMIC	low- and middle-income country
NCD	noncommunicable disease
SDG	Sustainable Development Goal
YLD	years of life lost due to disease
