ACKNOWLEDGEMENTS

This report was prepared by the NCD surveillance team within the Department for Prevention of Noncommunicable Diseases. Leanne Riley coordinated the work on the NCD country capacity survey, the overall implementation of the survey and the reporting of results; Hebe Gouda oversaw the web-based data collection and validation of results; and Melanie Cowan performed all data management and statistical analysis needed to prepare the results for the final report.

We wish to thank the NCD focal points in the WHO regional offices for their generous support and assistance in coordinating the NCD country capacity survey during 2017 with their respective Member States and for undertaking validation and review of completed survey responses: Nivo Ramanandraibe and Steven Shongwe for the WHO Regional Office for Africa; Roberta Caixeta and Carolina Chavez-Cortez for the WHO Regional Office for the Americas; Anna Kurmanova and Enrique Loyola Elizondo for the WHO Regional Office for Europe; Heba Fouad for the WHO Office for the Eastern Mediterranean; Naveen Agarwal, Manju Rani, and Thaksaphon Thamarangsi for the WHO Regional Office for South-East Asia; and Marie Clem Carlos, Rick Kim, Hai-Rim Shin and Wendy Snowden for the WHO Regional

Office for the Western Pacific. Additional thanks to staff in numerous WHO country offices who provided invaluable support in survey-related communication with Member States.

Colleagues from WHO headquarters also provided helpful input and support in the development of the survey questionnaire and review and validation of the completed questionnaires by countries: Douglas Bettcher, Lubna Bhatti, Fiona Bull, Alison Commar, Kaia Engesveen, Alexandra Fleischmann, Lawrence Grummer-Strawn, Regina Guthold, André Ilbawi, Taskeen Khan, Doris Ma Fat, Colin Mathers, Leo Nederveen, Vladimir Poznyak, Dag Rekve, Stefan Savin, Kerstin Schotte, Gretchen Stevens, Cherian Varghese and Temo Waqanivalu.

Thanks also to Steve Moore, independent consultant who designed the web-based platform for data collection, and Amber Abernethie, Rebecka Mozes and Kate Sheffer, who helped with the writing and preparation of this report.

Finally, we thank all Member States that took part in the survey, allowing the assessment and completion of this report.
