# Contents

<b>Foreword</b> . . . . .	vii
<b>Acknowledgements</b> . . . . .	viii
<b>Acronyms and abbreviations</b> . . . . .	x
<b>Executive summary</b> . . . . .	xii
<b>Chapter 1. Introduction</b> . . . . .	1
1.1 The significance of sanitation for human health . . . . .	1
1.2 Sanitation as a human development issue . . . . .	2
1.3 Scope . . . . .	4
1.4 Objectives . . . . .	6
1.5 Target audiences . . . . .	7
1.6 Health authorities mandate . . . . .	7
1.7 Methods . . . . .	7
1.8 Guidelines structure . . . . .	8
References . . . . .	9
<b>Chapter 2. Recommendations and good practice actions</b> . . . . .	11
2.1 Recommendations . . . . .	11
2.2 Good practice actions . . . . .	20
References . . . . .	26
<b>Chapter 3. Safe sanitation systems</b> . . . . .	29
3.1 Introduction . . . . .	29
3.2 Toilets . . . . .	31
3.3 Containment – storage/treatment . . . . .	34
3.4 Conveyance . . . . .	39
3.5 Treatment . . . . .	44
3.6 End use/disposal . . . . .	49
3.7 Applicability of sanitation systems . . . . .	52
References . . . . .	57
<b>Chapter 4. Enabling safe sanitation service delivery</b> . . . . .	59
4.1 Introduction . . . . .	59
4.2 Components of an implementation framework . . . . .	59
4.3 Policy and planning . . . . .	61
4.4 Legislation, regulations, standards and guidelines . . . . .	64
4.5 Roles and responsibilities . . . . .	68

4.6	Environmental health authorities and their role in sanitation	70
4.7	Delivering sanitation at local level	74
4.8	Developing sanitation services and business models	75
4.9	Fostering the sanitation services market	78
4.10	Management of special sanitation risks	79
	References	83
<b>Chapter 5. Sanitation behaviour change</b>		84
5.1	Introduction	84
5.2	Institutional and government responsibilities for sanitation behaviour change	84
5.3	Sanitation behaviours and determinants	85
5.4	Changing behaviours	87
5.5	Monitoring and learning for success	95
	References	97
<b>Chapter 6. Excreta-related pathogens</b>		100
6.1	Introduction	100
6.2	Microbial aspects linked to sanitation	102
6.3	Environmental transmission of pathogens in faecal waste	114
6.4	Treatment and control	120
	References	122
<b>Chapter 7. Methods</b>		125
7.1	Introduction	125
7.2	Contributors	125
7.3	Scoping and question formulation	126
7.4	Evidence retrieval, assessment and synthesis	128
7.5	Evidence grading	128
7.6	Evidence-to-Decision (EtD) framework	130
	References	132
<b>Chapter 8. Evidence on the effectiveness and implementation of sanitation interventions</b>		133
8.1	Introduction	133
8.2	Summary and discussion of evidence	133
8.3	Reviews of intervention effectiveness	134
8.4	Reviews of implementation	141
8.5	Summary of evidence reviews	142
	References	150
<b>Chapter 9. Research needs</b>		151
9.1	Pursuing a sanitation research agenda	151
9.2	Research agenda	151
	References	157

## Annexes

Annex 1: Sanitation system fact sheets . . . . .	159
Annex 2: Glossary . . . . .	193

## Tables

Table 1.1: The health impact of unsafe sanitation. . . . .	2
Table 2.1: Evidence to recommendation table using the WHO-INTEGRATE framework . . . . .	23
Table 3.1: Treatment performance of containment technologies . . . . .	37
Table 3.2: Established wastewater treatment technologies . . . . .	46
Table 3.3: Established sludge treatment processes . . . . .	47
Table 3.4: Summary of established end use products. . . . .	50
Table 3.5: Applicability of sanitation systems . . . . .	53
Table 3.6: Examples of climate adaptation options for specific sanitation systems . . . . .	54
Table 4.1: Areas that may require legislation and regulation . . . . .	64
Table 5.1: Summary of approaches and factors for consideration in their implementation . . . . .	90
Table 5.2: Behavioural monitoring methods and measures . . . . .	96
Table 6.1: Excreta-related pathogens . . . . .	105
Table 6.2: Pathogen concentrations in faeces and raw sewage. . . . .	116
Table 6.3: Factors influencing microbial persistence . . . . .	118
Table 6.4: Selection of ID50 values from human challenge data . . . . .	119
Table 7.1: Evidence to recommendation table using the WHO-INTEGRATE framework . . . . .	131
Table 8.1: Summary of evidence reviews . . . . .	143

## Figures

Figure 1.1: Transmission of excreta-related pathogens . . . . .	4
Figure 1.2: Sanitation service chain . . . . .	5
Figure 3.1: Faecal contamination risk . . . . .	30
Figure 3.2: Excreta flow diagram showing examples of hazardous events at each step of the sanitation service chain . . . . .	30
Figure 3.3: Hazardous events for permeable and impermeable containment - storage/treatment technologies . . . . .	35
Figure 3.4: Hazardous events for conveyance technologies . . . . .	41
Figure 4.1: Categorization of sanitation services. . . . .	60
Figure 4.2: Implementation framework for sanitation . . . . .	61
Figure 4.3: Example of phasing out unsafe sanitation over time . . . . .	63
Figure 4.4: Sanitation service chain regulatory mechanism options . . . . .	66
Figure 4.5: The components of the SDG sanitation ladder . . . . .	73
Figure 5.1: Example of behavioural determinants for open defecation . . . . .	87
Figure 5.2: Stages in behaviour change strategy design . . . . .	92
Figure 6.1: Transmission of excreta-related pathogens . . . . .	103
Figure 7.1: Conceptual framework for guidelines development . . . . .	127
Figure 8.1: Preliminary conceptual framework of the influence of inadequate sanitation on well-being . . . . .	141
Figure 8.2: Sanitation adoption and sustained use review framework. . . . .	142

## Boxes

Box 1.1: Sanitation and complex health outcomes: environmental enteric dysfunction . . . . .	1
Box 1.2: Human right to sanitation . . . . .	3
Box 1.3: The Sustainable Development Goals (SDGs) and sanitation. . . . .	3
Box 1.4: Why are guidelines on sanitation and health needed? . . . . .	6
Box 3.1: International Organization for Standardization (ISO) standards relevant for sanitation services . . . . .	29
Box 3.2: Definitions . . . . .	30
Box 3.3: Climate change, sanitation and health . . . . .	54
Box 4.1: Setting targets. . . . .	62
Box 4.2: Immediate preventive measures for areas at high risk of enteric disease outbreaks. . . . .	81
Box 5.1: Sanitation behaviour change considerations for urban settings . . . . .	87
Box 6.1: Antimicrobial resistance and sanitation . . . . .	101
