Box 2932, 1000, Manila, Philippines, Fax. No. (632) 521-1036, email: [wpropuballstaff@who.int](mailto:wpropuballstaff@who.int)

**Third-party materials.** If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

**General disclaimers.** The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters. All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use. Annex 8. Outcomes from insecticide resistance monitoring for <i>Anopheles spp.</i> in Viet Nam	44

## Acknowledgements

WHO would like to thank Associate professor. Dr Tran Thanh Duong, Associate professor. Dr Nguyen Van Chuong, Associate professor. Dr Le Thanh Dong, Dr Nguyen Quang Thieu and Ms Lai Hong Loan who generously gave their time to provide information and views on Viet Nam's National Malaria Control Programme. In addition, we would like to thank staff at the National Institute of Malariology, Parasitology and Entomology and regional institutes, as well as government staff at provincial, district and commune levels, for providing information and investing time in the organization and conduct of field visits. Without these field visits, it would have been impossible to gain a sound understanding of the activities on the ground. This activity was supported by financial contributions from the Global Fund to Fight AIDS, Tuberculosis and Malaria.
