Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Contents

| | |
|--|-----------|
| List of annexes | v |
| Manual resources for each step of the survey process | vi |
| List of boxes, figures and tables | vii |
| Abbreviations | viii |
| Acknowledgements | ix |
| Preface | x |
| 1. Introduction | 1 |
| 1.1. Why vaccination coverage is assessed | 2 |
| 1.2. Methods for measuring vaccination coverage | 2 |
| 1.3. Population-based surveys: cluster sampling | 3 |
| 1.4. Changes to previous methods and materials | 5 |
| 2. Design the sample structure of the survey | 9 |
| 2.1. Convene a survey steering group | 10 |
| 2.2. Discuss the purpose of the survey | 11 |
| 2.3. Identify primary questions that affect survey design and sample size | 11 |
| 2.4. Define the target population | 12 |
| 2.5. Set inferential goals | 12 |
| 2.6. Select a survey design | 13 |
| 2.7. Calculate the required sample size | 15 |
| 2.8. Draft an analysis plan, table shells and report figures | 22 |
| 2.9. Budget for the survey and estimate the timeline | 22 |
| 2.10. Evaluate affordability and timeliness | 24 |
| 2.11. Implications of adding routine immunization questions to a post-SIA survey | 25 |
| 2.12. Designing for multiple outcomes | 26 |
| 2.13. Designing for multiple geographic areas | 26 |
| 2.14. Designing for multiple levels of administrative or geographic hierarchy | 26 |
| 2.15. Reporting results by subgroups | 28 |
| 3. Make concrete plans | 29 |
| 3.1. Set survey schedule | 30 |
| 3.2. Decide who will conduct the survey and create a project plan | 30 |
| 3.3. Obtain ethical clearance | 31 |
| 3.4. Design data collection tools and methods | 31 |

| | |
|---|-----------|
| 3.5. Choose data analysis tools | 35 |
| 3.6. Select a sample | 35 |
| 3.7. Obtain access to health registers for vaccination records | 41 |
| 3.8. Select and hire staff | 42 |
| 3.9. Train staff | 46 |
| 4. Conduct field work | 49 |
| 4.1. Collect data from households | 50 |
| 4.2. Check health registers from the health centre | 51 |
| 4.3. Monitor the quality of field data collection | 52 |
| 4.4. Check questionnaire forms and transmit | 53 |
| 4.5. Clusters that become suddenly inaccessible | 54 |
| 5. Data entry, cleaning and management | 55 |
| 5.1. Database design | 56 |
| 5.2. Data entry | 56 |
| 5.3. Clean the dataset | 57 |
| 5.4. Merge datasets and construct derived variables | 58 |
| 5.5. Generate a codebook | 60 |
| 6. Tabulation and analysis | 61 |
| 6.1. Conduct descriptive analyses to characterise the sample and assess its quality | 62 |
| 6.2. Calculate weights for analysis | 67 |
| 6.3. Conduct standard analyses | 69 |
| 6.4. Conduct additional analyses | 77 |
| 6.5. Classifying coverage | 84 |
| 7. Interpret, format, and share results | 89 |
| 7.1. Draft the background section | 90 |
| 7.2. Draft the survey methods and limitations | 91 |
| 7.3. Draft the results section | 91 |
| 7.4. Draft the discussion section | 93 |
| 7.5. Develop implications and recommendations | 93 |
| 7.6. Revise the report and obtain clearance on final draft | 96 |
| 7.7. Share the results | 96 |
| References | 98 |

| | |
|--|------------|
| List of annexes | 100 |
| Annex A: Glossary of terms | 100 |
| Annex B1: Steps to calculate a cluster survey sample size for estimation or classification | 105 |
| Annex B2: Sample size equations for estimation or classification | 129 |
| Annex B3: Sample size equations for comparisons between places or subgroups, or over time | 132 |
| Annex C: Survey budget template | 141 |
| Annex D: An example of systematic random cluster selection without replacement and probability proportional to estimated size (PPES) | 143 |
| Annex E: How to map and segment a primary sampling unit | 150 |
| Annex F: How to enumerate and select households in a two-stage cluster sample | 156 |
| Annex G: Tips for high-quality training of survey staff | 162 |
| Annex H: Sample survey questions | 162 |
| Annex I: Using information and communication technology (ICT) for digital data capture | 185 |
| Annex J: Calculating survey weights | 186 |
| Annex K: Using software to calculate weighted coverage estimates | 189 |
| Annex L: Standard definitions for vaccine coverage indicators | 190 |
| Annex M: Graphical display of coverage results | 191 |
| Annex N: Examples of classifying vaccination coverage | 197 |
| Annex O: Missed opportunities for vaccination (MOV) analysis | 208 |
| Annex P: Suggested outline for coverage survey report | 216 |

Manual resources for each step of the survey process

| | Step | Manual Resources |
|-----------------|---|--|
| Getting started | 1. Assess need for a survey | |
| | 2. Create Steering Group | Manual sections 2.1 and 3.5.1. |
| | 3. Define survey scope and budget | Manual sections 2.2 and 2.3 Manual section 2.9, Annex B and C |
| Planning | 4. Set survey schedule | Manual section 3.1 |
| | 5. Develop survey proposal | |
| | 6. Confirm funding is in place | |
| | 7. Decide who will conduct survey | Manual section 3.2 |
| | 8. Finalize survey protocol | |
| | 9. Verify ethical clearance | Manual section 3.3 |
| | 10. Design data collection tools | Manual section 3.4, Annex H |
| | 11. Hire staff and coordinate logistics | Manual section 3.6 |
| | 12. Select sample | Manual section 3.8, Annexes D to F |
| | 13. Train staff | Manual section 3.9, Annex G |
| Implementing | 14. Conduct field work | Manual sections 4.1 to 4.5 |
| | 15. Enter, clean and manage data | Manual sections 5.1 to 5.5, Annex I |
| | 16. Analyse data | Manual sections 6.1 to 6.5, Annexes J to O |
| Taking action | 17. Interpret and share survey results | Manual sections 7.1 to 7.7 |
