Cataloguing-in-Publication (CIP) data. CIP data are available at <http://apps.who.int/iris>.

Sales, rights and licensing. To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Please consult the WHO Global Malaria Programme website for the most up-to-date version of all documents (www.who.int/malaria)

Contents

Acknowledgements	vii
Abbreviations and acronyms	ix
1. Malaria surveillance as a core intervention	2
1.1 Introduction	2
1.2 Updates of past guidance	3
1.3 Target readership and use of this manual	4
1.4 Malaria surveillance on the continuum	5
1.5 Principles of the design and establishment of malaria surveillance	7
2. Establishing malaria surveillance systems	11
2.1 Requirements and processes	12
2.2 People-centred surveillance	15
2.3 Recording	16
2.4 Reporting	22
2.5 Data analysis and interpretation	23
2.6 Using data for making decisions in malaria control programmes	27
2.7 Structure of surveillance systems	29
2.8 Surveillance during prevention of re-establishment	37
2.9 Certification of elimination	38
3. Concepts and practice of malaria surveillance	40
3.1 Case definitions	40
3.2 Case detection	43
3.3 Case classification	47
3.4 Focus classification	52
3.5 Routine activities in malaria elimination surveillance and response	53
3.6 Reactive surveillance activities in the focus	56
3.7 Focus response	67

4. Surveillance of antimalarial drug efficacy and drug resistance	69
4.1 Introduction	69
4.2 Therapeutic efficacy studies	69
4.3 Molecular markers of resistance to antimalarial drugs	73
4.4 Monitoring the efficacy of antimalarial drugs in settings with very low transmission	73
5. Entomological surveillance and vector control monitoring and evaluation	82
5.1 Rationale, definition and objectives	82
5.2 Surveillance systems for entomology and vector control	85
5.3 Main malaria entomological indicators	88
5.4 Frequency of surveys	95
5.5 Priorities for entomological surveillance by transmission setting	95
5.6 Monitoring of vector control	102
5.7 Use of entomological data in programme response	103
6. Early warning, detection and response to malaria outbreaks and epidemics	106
6.1 Definition and classification of epidemics	106
6.2 Epidemic curves of <i>P. falciparum</i> and <i>P. vivax</i> malaria	107
6.3 Factors that may contribute to epidemics	108
6.4 Definition of areas that are prone to epidemics	110
6.5 Surveillance system for epidemics	111
6.6 Preparedness and response	120
6.7 Post-epidemic assessment	122
7. Monitoring and evaluation of national programmes	124
7.1 Aims of monitoring and evaluation	124
7.2 Types of information required for monitoring	126
7.3 Roles of routine systems and surveys	127
7.4 Use of information at national level	129
7.5 Recommended indicators on the continuum to elimination	146
7.6 Use of information at regional and global levels	146
References	148

Annexes	155
Annex 1. Glossary	156
Annex 2. Example of individual case investigation form for a national malaria case register	162
Annex 3. Example of individual focus investigation form for a national malaria case register	165
Annex 4. Form for updating registration of foci	168
Annex 5. Geographical reconnaissance during focus investigation	169
Annex 6. Proposed register for community health workers, health posts and outpatient departments in health centres and hospitals	172
Annex 7. Tally sheet for outpatient attendance at health centres and hospitals	173
Annex 8. Daily and weekly records of outpatient attendance at health centres and hospitals	174
Annex 9. Discharge register for inpatient departments of health centres and hospitals	175
Annex 10. Reports from health posts and community health workers to health facilities	176
Annex 11. Reports from health facilities to district level	177
Annex 12. Line lists of malaria cases and deaths among inpatients to be reported to district level in low-transmission settings	180
Annex 13. Line lists of all confirmed malaria cases to be reported to district level in low-transmission settings	181
Annex 14. Supervisory checklist for countries with high or moderate transmission	182
Annex 15. Model monthly surveillance bulletins for countries with high or moderate transmission	183
Annex 16. Sampling methods and analytical techniques in entomological surveillance	185
Annex 17. Core indicators for surveillance, monitoring and evaluation	186
Annex 18. Example of questionnaire for assessment before and after a malaria epidemic	194
Annex 19. Examples of operational responses to various stages of a malaria epidemic	196
