Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Contents

Abbreviations	vi
Acknowledgements	vii
Summary	viii
1. Introduction	1
1.1 Justification	1
1.2 Objectives	2
1.3 What is being measured?	2
2. The TWG WSH countries	5
2.1 Overview of TWG WSH countries	5
2.2 Overall status of sanitation and drinking-water in TWG WSH countries	6
3. Sanitation coverage in TWG WSH countries	9
3.1 Current status	9
3.2 Sanitation inequities	12
3.2.1 Urban and rural disparities	12
3.2.2 Economic and social inequities in sanitation coverage	13
4. Drinking-water coverage in TWG WSH countries	15
4.1 Current status	15
4.2 Drinking-water inequities	17
4.2.1 Urban and rural disparities	17
4.2.2 Economic and social inequities in drinking-water coverage	19
5. The MDG drinking-water and sanitation target	21
5.1 Achieving the MDG sanitation target	21
5.2 Achieving the MDG drinking-water target	22
6. Sustainable Development Goals and targets	25
7. Health and economic development in drinking-water and sanitation	31
7.1 Health	31
7.2 Drinking-water and sanitation in health-care facilities	33
7.3 The challenge of urbanization in TWG WSH countries	34
References	35

Annexes

Annex 1. Definitions of the post-2015 terms proposed by the JMP (WHO and UNICEF, 2017)	37
Annex 2. Country and regional estimates of improved sanitation coverage in TWG WSH countries	39
Annex 3. Country and regional estimates of improved drinking-water coverage in TWG WSH countries	41

Figures

Figure 1. Proportion of urban, rural and total populations in TWG WSH region using improved sanitation, 1990 and 2015	6
Figure 2. Proportion of urban, rural and total populations in TWG WSH region using improved drinking-water sources, 1990 and 2015	7
Figure 3. Proportion of population in TWG WSH region using improved, shared, or unimproved sanitation facilities, or practising open defecation, 2015 ...	7
Figure 4. Proportion of population in TWG WSH region using different types of drinking-water facilities, 2015	8
Figure 5. Proportion of population in TWG WSH region using improved, shared, or unimproved sanitation facilities, or practising open defecation, 1990 and 2015	9
Figure 6. Number of people in TWG WSH region using improved, shared, or unimproved sanitation facilities, or practising open defecation, 1990–2012	10
Figure 7. Proportion of populations in TWG WSH countries using improved, shared, or unimproved sanitation facilities, or practising open defecation, 2015	11
Figure 8. Distribution of population in TWG WSH region not using improved sanitation facilities, by country, 2015	11
Figure 9. Proportion of urban and rural populations in TWG WSH region using improved, shared, or unimproved sanitation facilities, or practising open defecation, 1990 and 2015	12
Figure 10. Proportion of urban and rural populations in TWG WSH countries using improved sanitation, 2015	12
Figure 11. Urban and rural populations in TWG WSH region not using improved sanitation, 1990–2015	13
Figure 12. Percentage of population using improved, shared, or unimproved sanitation facilities, or using open defecation by wealth quintile, Lao People’s Democratic Republic, 2012	14
Figure 13. Percentage of population using improved, shared, or unimproved sanitation facilities or using open defecation by education level, Lao People’s Democratic Republic, 2012	14
Figure 14. Proportion of population in TWG WSH region using different types of drinking-water sources, 1990 and 2015	15
Figure 15. Number of people in TWG WSH region using different types of drinking-water sources, 1990–2015	16
Figure 16. Proportion of populations in TWG WSH countries using different types of drinking-water sources, 2015	16
Figure 17. Distribution of population in TWG WSH region not using improved drinking-water sources, by country, 2015	17
Figure 18. Proportion of urban and rural populations in TWG WSH region using different drinking-water sources, 1990 and 2015	18

Figure 19. Proportion of urban and rural populations in TWG WSH countries using improved drinking-water sources, 2015.....	18
Figure 20. Urban and rural populations in TWG WSH region not using improved drinking-water sources, 1990–2015	19
Figure 21. Percentage of population using different types of drinking-water sources by wealth quintile, Lao People’s Democratic Republic, 2012	19
Figure 22. Percentage of population using different types of drinking-water sources by education level, Lao People’s Democratic Republic, 2012	20
Figure 23. Change in the use of improved sanitation from 1990 to 2015 and MDG targets in TWG WSH region.....	21
Figure 24. Difference between sanitation coverage in 2015 and the MDG sanitation target in TWG WSH countries.....	22
Figure 25. Change in the use of improved drinking-water sources from 1990 and 2015 and MDG targets in TWG WSH region	23
Figure 26. Difference between drinking-water coverage in 2015 and the MDG drinking-water target in TWG WSH countries	23
Figure 27. Distribution of causes of death among children under 5 years old in TWG WSH countries, 2013	31
Figure 28. Deaths of children under 5 years old attributable to drinking-water, sanitation and hygiene in TWG WSH countries, 2012 (per 100 000 population).....	32
Figure 29. Under-5 mortality rate (per 1000 live births), 1990 and 2013	32
Figure 30. Use of improved drinking-water and sanitation compared with under-5 mortality rate in TWG WSH countries, 2013	33
Figure 31. Urban and rural populations in TWG WSH region, 1990 and 2015	34

Tables

Table 1. Drinking-water and sanitation categories of technologies according to the JMP	2
Table 2. Proposed indicators for monitoring sanitation services.....	26
Table 3. Proposed indicators for monitoring drinking-water services.....	27
Table 4. Proposed indicators for monitoring hygiene	28
Table 5. Contribution of JMP to SDG target 6.3	29

Abbreviations

DHS	Demographic and Health Survey
GLAAS	UN-Water Global Analysis and Assessment of Sanitation and Drinking-Water
IBNET	International Benchmarking Network for Water and Sanitation Utilities
