Message

from the Minister of Health

**The Ministry of Health
welcomes this strategy
as guiding framework
for WHO's technical
cooperation in Maldives...**

The Maldives have made significant progress in its health status and development indicators over the past decades with sustained high investments in Health and ensuring universal health coverage for its population. In recent years Maldives achieved several public health milestones such as elimination of Malaria, Filariasis, and Measles to add to elimination of Polio and Maternal and Neonatal Tetanus. The main challenge now is to sustain these achievements and be prepared for emerging challenges. Being a small island nation;
