Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Annex 5. GRADE Tables	33

Acknowledgements

The Department of Reproductive Health and Research of the World Health Organization gratefully acknowledges the contributions of many individuals and organizations to the updating of this recommendation. Work on this update was coordinated by Olufemi Oladapo, Joshua Vogel and A. Metin Gülmezoglu of the WHO Department of Reproductive Health and Research.

WHO extends sincere thanks to Edgardo Abalos, Yap-Seng Chong, Catherine Deneux-Tharoux, Bukola Fawole, Justus Hofmeyr, Caroline Homer, Pisake Lumbiganon, Suellen Miller, Ashraf Nabhan, Hiromi Obara, Zahida Qureshi, Rahat Qureshi and Helen West who served as members of the Guideline Development Group (GDG), and to James Neilson for chairing the technical consultation. We also thank Richard Adanu, Fernando Althabe, Sue Fawcus, Jamilu Tukur and Dilys Walker who were members of the External Review Group. WHO also gratefully acknowledges the contribution of the members of the Executive Guideline Steering Group.

Therese Dowswell and Anna Cuthbert reviewed the scientific evidence, prepared the GRADE tables and drafted the narrative summary of evidence. Joshua Vogel and Olufemi Oladapo revised the narrative summaries and double-checked the corresponding GRADE tables. Joshua Vogel, Olufemi Oladapo, A. Metin Gülmezoglu and Mercedes Bonet commented on the draft document before it was reviewed by participants at the WHO technical consultation. The External Review Group peer-reviewed the final document.

We acknowledge the various organizations that were represented by observers at the final technical consultation, including Deborah Armbruster (United States Agency for International Development), Kusum Thapa (Maternal and Child Survival Program/Jhpiego), Janna Patterson (Bill & Melinda Gates Foundation), Sally Tracy (International Confederation of Midwives), Gerard Visser (International Federation of Gynecology and Obstetrics) and Beverly Winikoff (Gynuity Health Projects). Haleema Shakur-Still (London School of Hygiene and Tropical Medicine) provided an overview of the conduct and findings of the WOMAN trial but did not participate in the GDG deliberations. We appreciate the contributions of WHO Regional Office staff to this update – Mavjuda Babamuradova, Ramez Khairi Mahaini, Anoma Jayathilaka, Bremen De Mucio, Claudio Sosa, Mari Nagai and Léopold Ouedraogo.

The United States Agency for International Development and the Department of Reproductive Health and Research provided financial support for this work. The views of the funding body have not influenced the content of this recommendation.

Acronyms and abbreviations

CI	confidence interval
CRASH-2	Clinical Randomization of an Antifibrinolytic in Significant Haemorrhage trial
DOI	Declaration of Interest
FIGO	International Federation of Gynecology and Obstetrics
FWC	Family, Women's and Children's Health (a WHO cluster)
GDG	Guideline Development Group
GRC	Guideline Review Committee
GRADE	Grading of Recommendations, Assessment, Development, and Evaluation
GSG	Executive Guideline Steering Group
ICM	International Confederation of Midwives
IPD	individual participant data meta-analysis
LMIC	low- and middle-income country
LY	life-year
MCA	WHO Department of Maternal, Newborn, Child and Adolescent Health
MPA	Maternal and Perinatal Health & Preventing Unsafe Abortion (a team in WHO's Department of Reproductive Health and Research)
MPH	maternal and perinatal health
NNT	number needed to treat
PICO	population (P), intervention (I), comparison (C), outcome (O)
PPH	postpartum haemorrhage
RHR	[WHO Department of] Reproductive Health and Research
RR	relative risk
