Cataloguing-in-Publication (CIP) data. CIP data are available at <http://apps.who.int/iris>.

Sales, rights and licensing. To purchase WHO publications, see <http://apps.who.int/bookorders>. To submit requests for commercial use and queries on rights and licensing, see <http://www.who.int/about/licensing>.

Third-party materials. If you wish to reuse material from this work that is attributed to a third party, such as tables, figures or images, it is your responsibility to determine whether permission is needed for that reuse and to obtain permission from the copyright holder. The risk of claims resulting from infringement of any third-party-owned component in the work rests solely with the user.

General disclaimers. The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of WHO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by WHO in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by WHO to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall WHO be liable for damages arising from its use.

Design and layout by L'IV Com Sàrl, Villars-sous-Yens, Switzerland.

Contents

Acronyms and abbreviations	v
Acknowledgements	vii
Preface	x
Executive summary	xi

1. The environment and child health — Improve one, improve the other: Steps towards SDGs 1, 2 and 10	1
Child mortality: Increasing a chance at life	2
Inequity: Reducing the health divide	6
Overweight and stunting: Getting the balance right	10
Environmental health risks: Reducing the impacts	14
Child injuries: Preventable tragedies	18

2. Meeting basic needs for everyone: Steps towards SDG 6	23
Safe water: For all children everywhere	24
Sanitation: Making safety a priority	28
Hygiene: Now WASH your hands!	32
Arsenic and fluoride: Poison in the well	36
Vector-borne diseases: Environmental prevention	38

3. A breath of fresh air: Steps towards SDGs 7 and 13	43
Climate change: Building resilience together	44
Ambient air pollution: The unseen threat outdoors	48
Household air pollution: Switching to healthy home energy	52
Second-hand tobacco smoke: Protecting children from harm	56
Ultraviolet radiation: Be safe in the sun	60

4. Lessening the chemical load: Steps towards SDGs 6 and 12	65
Children and chemicals: Living in a chemical world	66
Contaminated food: Getting the right start in life	72
Lead-free lives: Allowing children to thrive	76
Mercury: Protecting children’s brains	80
Poisons: Keep out of reach	84
E-waste: Promoting responsible recycling	88

5. Living and learning in healthy environments: Steps towards SDGs 8, 9 and 11	93
Health-care facilities: Investing in maternal and child survival	94
Urban spaces: Building well-being	98
Housing: Raising standards, improving child health	102
Healthy schools: Education for life	106
Child labour: A dangerous phenomenon	108
Conclusion	114
World data table	116
References	126
Photo credits	139

Acronyms and abbreviations

ASGM	artisanal and small-scale gold mining
BPA	bisphenol A
CEH	children's environmental health
CT	computed tomography
DALY	disability-adjusted life years
DDT	dichlorodiphenyltrichloroethane
DEHP	di(2-ethylhexyl)phthalate
FAO	Food and Agriculture Organization of the United Nations
FCTC	Framework Convention on Tobacco Control (WHO)
GAPPD	Global Action Plan for the Prevention and Control of Pneumonia and Diarrhoea
GDP	gross domestic product
GHS	Globally Harmonized System of Classification and Labelling of Chemicals
GNI	gross national income
HAP	household air pollution
HCF	health-care facility
HFC	hydrofluorocarbon
HIC	high-income country
iCCM	integrated community case management
ILO	International Labour Organization
IQ	intelligence quotient
ITN	insecticide-treated net
IRS	indoor residual spraying
LMICs	low- and middle-income countries
LPG	liquefied petroleum gas
MDG	Millennium Development Goal
MICS	Multiple Indicator Cluster Surveys
NCD	noncommunicable disease
PACE	Partnership for Action on Computing Equipment
PAH	polycyclic aromatic hydrocarbon
PBDE	polybrominated diphenyl ether
PCB	polychlorinated biphenyl
PFOA	perfluorooctanoic acid
POP	persistent organic pollutant
PPE	personal protective equipment
SAICM	Strategic Approach to International Chemicals Management
SBS	sick building syndrome
SDG	Sustainable Development Goal
SE4All	Sustainable Energy for All
SHTS	second-hand tobacco smoke
SIDS	sudden infant death syndrome

UNEP	United Nations Environment Programme
UNICEF	United Nations Children's Fund
UV	ultraviolet
VOC	volatile organic compound
WASH	water, sanitation and hygiene
WHO	World Health Organization
WHOPES	WHO Pesticide Evaluation Scheme

Regions of the World Health Organization

AFR	African Region
AMR	Region of the Americas
EMR	Eastern Mediterranean Region
EUR	European Region
SEAR	South-East Asia Region
WPR	Western Pacific Region
