CONTENTS

Foreword	i
Acknowledgements	ii
Abbreviation	iii
Definitions	iv
Key Messages	v
1. Introduction	1
2. Equity and health: an overview	6
2.1. <i>A framework for assessing and addressing health inequities</i>	7
2.2. <i>Inequities in overweight and obesity</i>	11
3. Overweight and obesity in the Western Pacific Region through an equity lens	13
3.1. <i>Overweight and obesity by sex</i>	16
3.2. <i>Overweight and obesity by urban or rural residence</i>	20
3.3. <i>Overweight and obesity by socioeconomic status</i>	23
3.4. <i>Overweight and obesity by ethnicity</i>	27
3.5. <i>Overweight and obesity by geographical region within countries</i>	30
4. Addressing the drivers for inequities on overweight and obesity	33
4.1. <i>Policy options</i>	36
5. Conclusions and recommendations	39
5.1. <i>Key policy recommendations</i>	41

FIGURES

Fig. 1.	The main determinants of health	-----	16
Fig. 2.	Essential attributes and action domains leading to universal health coverage	-----	17
Fig. 3.	Priority public health conditions analytical framework	-----	18
Fig. 4.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) among children under the age of 5 years by sex of the child in different countries in the Western Pacific Region, 2004–2012	-----	25
Fig. 5.	Prevalence of overweight or obesity (BMI-by-age and sex $>+1$ standard deviation [SD]) among school-attending boys and girls 13–15 years in the Western Pacific Region based on self-report of height and weight (except for Malaysia)	-----	26
Fig. 6.	Prevalence of overweight or obesity (BMI ≥ 25) in adult men and women in different countries in the Western Pacific Region	-----	27
Fig. 7.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) among children under the age of 5 years by residence in selected countries in the Western Pacific Region	-----	29
Fig. 8.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) in under-5 children according to urban or rural residence in Viet Nam, 2000–2010	-----	30
Fig. 9.	Prevalence of overweight or obesity (BMI-by-age and sex $>+1SD$) among school-attending adolescents 13–15 years by residence in Cambodia and Mongolia, based on self-report of height and weight	-----	30
Fig. 10.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) in children under the age of 5 years from lowest to highest household wealth quintiles in selected countries in the Western Pacific Region	-----	32
Fig. 11.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) in children under the age of 5 years by mother's education status in selected countries in the Western Pacific Region	-----	33
Fig. 12.	Prevalence of obesity among children 2–14 years of age according to neighbourhood deprivation and sex in New Zealand, 2012–2013	-----	35
Fig. 13.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) among children under the age of 5 in different ethno-linguistic groups in the Lao People's Democratic Republic, 2011–2012	-----	36
Fig. 14.	Prevalence of obesity (BMI ≥ 30) according to ethnicity in adults 18–69 years old in Singapore, 1992–2010	-----	38
Fig. 15.	Prevalence of overweight or obesity (weight-for-height $>+2SD$) in children under 5 years in different regions of Cambodia, 2011–2012	-----	39
Fig. 16.	Prevalence of overweight or obesity in children under 5 years in different regions of Papua New Guinea, 2009–2010	-----	40
Fig. 17.	Regional differences in prevalence of overweight and stunting in children under the age of 5 years in Viet Nam, 2010–2011	-----	40
Fig. 18.	Regional differences in prevalence of overweight and stunting in children under the age of 5 years in Mongolia, 2013	-----	41
Fig. 19.	A stepwise approach to reducing inequity in overweight and obesity	-----	43

TABLES

Table 1.	How inequities in obesity compound over the life course.	-----	21
Table 2.	Prevalence of obesity in children 2–14 years of age in New Zealand by ethnicity, 2012–2013	-----	37
Table 3.	Prevalence of obesity (BMI ≥ 30) among Malaysian adults 25–64 years old according to ethnicity, 2005–2006	-----	38
Table 4.	Interventions to tackle health inequities and their determinants	-----	42

BOXES

Box 1.	Health inequities and children's rights	-----	19
Box 2.	Marketing of foods and non-alcoholic beverages to children in the Western Pacific Region	-----	23
Box 3.	Tailored social marketing campaign to promote physical activity among women in Tonga	-----	44
Box 4.	Making fruits and vegetables more affordable	-----	47
