Guidelines for the management of Snakebites, 2nd edition

1. Snakebites – education – epidemiology – prevention and control – therapy
2. Public Health
3. Venoms – therapy
4. Guidelines

ISBN 978-92-9022-530-0

(NLM classification:WD 410)

# Contents

i.	Foreword	7
ii.	Acknowledgement	8
iii.	Preface	9
<b>1</b>	<b>Executive summary</b>	<b>11</b>
<b>2</b>	<b>Prevention</b>	<b>17</b>
	Essentials	19
2.1	Reducing the risk of snakebites	19
2.2	Implementing preventive strategies for community education	22
2.3	Conclusion	23
<b>3</b>	<b>Venomous snakes of the South-East Asia Region, their venoms and pathophysiology of human envenoming</b>	<b>25</b>
	Essentials	27
3.1	The venom apparatus	
3.2	Classification of venomous snakes	29
3.2.1	Medically important species in South-East Asia Region countries	30
3.2.2	Other medically important venomous snakes	63
3.2.3	Non-venomous snakes	64
3.3	Identification of venomous snakes	67
3.4	Snake venoms	67
3.4.1	Venom composition	67
3.4.2	Quantity of venom injected at a bite, “dry bites”	69
3.4.3	Variations in venom composition within individual species of snakes	69
3.5	Pathophysiology of human envenoming	69
<b>4</b>	<b>Epidemiology of snakebites in South-East Asia Region countries</b>	<b>73</b>
	Essentials	75
4.1	Introduction	77
4.2	Determinants of snakebite incidence and severity of envenoming	78
4.3	Epidemiological characteristics of snakebite victims	79
4.4	Circumstances of snakebites	79
4.5	Snakebite as an occupational disease	79
4.6	Death from snakebite	80
4.6.1	Factors contributing to fatal snakebite	80
4.6.2	Time between snakebite and death	80
4.7	Snakebite in different South-East Asia Region countries	80

<b>5 Clinical aspects of snakebites</b>	<b>89</b>
Essentials	91
5.1 When venom has not been injected	94
5.2 When venom has been injected	94
5.2.1 Early symptoms and signs	94
5.2.2 Clinical patterns of envenoming by snakes in South East Asia	95
5.2.3 Local symptoms and signs in the bitten part	95
5.2.4 Generalized (systemic) symptoms and signs	96
5.3 Clinical syndromes of snakebite in South-East Asia	101
5.4 Long-term complications (sequelae) of snakebite	104
5.5 Symptoms and signs of seasnake envenoming	103
5.6 Symptoms and signs of cobra-spit ophthalmia (eye injuries from spitting cobras)	104
<b>6 Management of snakebites in South-East Asia</b>	<b>105</b>
Essentials	107
6.1 Stages of management	115
6.2 First-aid treatment	115
6.2.1 Principles of first-aid	115
6.2.2 The danger of respiratory paralysis and shock	115
6.2.3 Recommended first-aid methods	116
6.3 Transport to hospital	117
6.4 Medical treatment in the dispensary or hospital	118
6.4.1 Rapid primary clinical assessment and resuscitation	118
6.4.2 Detailed clinical assessment	119
6.4.2.1 History	119
6.4.2.2 Physical examination	120
6.4.2.3 Neurotoxic envenoming: Bulbar and respiratory paralysis	121
6.4.2.4 Generalized rhabdomyolysis	123
6.4.2.5 Examination of pregnant women	123
6.5 Species diagnosis	123
6.6 Investigations/laboratory tests	123
6.6.1 20 minute whole blood clotting test (20WBCT)	123
6.6.2 Other tests of blood coagulation	126
6.6.3 Other laboratory tests	126
6.6.4 Other investigations	127
6.7 Antivenom treatment	128
6.7.1 What is antivenom?	128
6.7.2 Indications for antivenom treatment	129
6.7.3 Inappropriate use of antivenom	130
6.7.4 How long after the bite can antivenom be expected to be effective?	130
6.7.5 Antivenom reactions	130
6.7.5.1 Prediction of antivenom reactions	132
6.7.5.2 Contraindications to antivenom: Prophylaxis in high risk patients	132

6.7.5.3	Prevention of antivenom reactions	132
6.7.5.4	Treatment of antivenom reactions	134
6.7.6	Supply, Selection, storage and shelf-life of antivenom	135
6.7.7	Administration of antivenom	136
6.7.8	Dosage of antivenom	138
6.7.9	Recurrence of systemic envenoming	142
6.7.10	Criteria for repeating the initial dose of antivenom	142
6.8	Conservative treatment when no antivenom is available	143
6.9	Supportive/ancillary treatment	144
6.9.1	Treatment of neurotoxic envenoming	144
6.9.2	Practical guide to airway management and respiratory support	144
6.9.3	Trial of anticholinesterase	152
6.9.4	Treatment of hypotension and shock	154
6.9.5	Treatment of oliguria and acute kidney injury	156
6.9.5.1	Oliguric phase of renal failure	156
6.9.5.2	Bleeding/ blood clotting disturbances in patients with acute kidney injury	159
6.9.5.3	Prevention of renal damage in patients with myoglobinuria or haemoglobinuria	159
6.9.5.4	Diuretic phase of renal failure	160
6.9.5.5	Renal recovery phase	160
6.9.5.6	Persisting renal dysfunction	160
6.10	Haemostatic disturbances	160
6.10.1	Dangers of venipuncture in patients with haemostatic abnormalities	160
6.11	Treatment of the bitten part	161
6.11.1	Wound management	161
6.11.2	Bacterial infections	161
6.11.3	Compartment syndromes and fasciotomy	161
6.12	Rehabilitation	163
6.13	Discharge advice and assessment	163
6.14	Management of cobra spit ophthalmia	164
6.15	Management of snakebites at different levels of the health service	165
6.16	Summary of current evidence for treatment of snakebite envenoming	168
