	42
A. Effects and safety of daily iron supplementation in infants and young children aged 6–23 months	42
B. Effects and safety of daily iron supplementation in children aged 24–59 months	43
C. Effects and safety of daily iron supplementation in children aged 60 months and older	44

ACKNOWLEDGEMENTS

This guideline was coordinated by the World Health Organization (WHO) Evidence and Programme Guidance Unit, Department of Nutrition for Health and Development. Dr Pura Rayco-Solon, Dr Lisa Rogers and Dr Juan Pablo Peña-Rosas oversaw the preparation of this document. WHO acknowledges the technical contributions of the following individuals (in alphabetical order): Dr Pedro Alonso Fernandez, Dr Andrea Bosman, Ms Hala Boukerdenna, Dr Maurice Bucagu, Dr Carmen Casanovas, Dr Camila Chaparro, Dr Maria Nieves Garcia-Casal, Dr Viviana Mangiaterra, Dr Peter Ehizibue Olumese, Dr Pascal Ringwald, Ms Silvia Schwarte, Ms Zita Weise Prinzo and Mr Gerardo Zamora.

We would like to express our gratitude to Dr Susan Norris from the WHO Guidelines Review Committee Secretariat and members of the Guidelines Review Committee for their technical support throughout the process. Thanks are also due to Ms Alma Alic from the Department of Compliance and Risk Management and Ethics, for her support in the management of the conflicts of interest procedures. Ms Jennifer Volonnino, from the Evidence and Programme Guidance Unit, Department of Nutrition for Health and Development, provided logistic support.

WHO gratefully acknowledges the technical input of the members of the WHO Steering Committee for Nutrition Guidelines Development and the WHO guidelines development groups, especially the chairs of the meeting concerning this guideline, Ms Deena Alaasor and Dr Maria Elena del Socorro Jefferds. WHO is also grateful to the staff of the Cochrane Infectious Diseases, for their support in developing and updating one of the systematic reviews used to inform this guideline.

Financial support

WHO thanks the Bill & Melinda Gates Foundation for providing financial support for this work. The Micronutrient Initiative and the International Micronutrient Malnutrition Prevention and Control Program of the United States Centers for Disease Control and Prevention (CDC) provided financial support to the Evidence and Programme Guidance Unit, Department of Nutrition for Health and Development, for the commissioning of systematic reviews of nutrition interventions. Donors do not fund specific guidelines and do not participate in any decision related to the guideline development process, including the composition of research questions, membership of the guideline groups, conduct and interpretation of systematic reviews, or formulation of recommendations.
