Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO website (www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

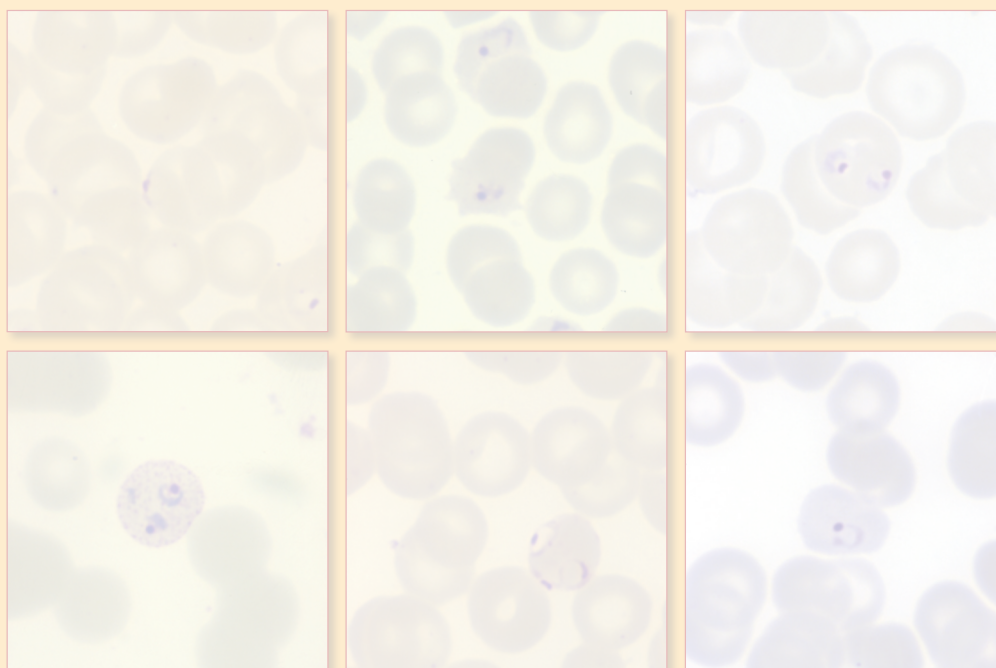

Printed in Italy

Design and layout: Paprika-annecy.com

Front cover, inserts : photomicrographs of Giemsa stained thin films showing clockwise from top left : early trophozoites (ring stages) of 1) *Plasmodium falciparum*, 2) *Plasmodium vivax*, 3) *Plasmodium malariae* and 4) *Plasmodium ovale*; and mature trophozoites of 5) *Plasmodium falciparum* and 6) *Plasmodium vivax*.

MALARIA MICROSCOPY

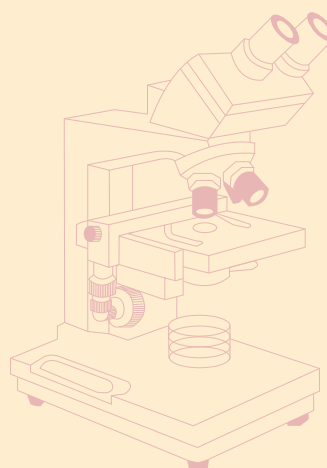

Quality Assurance Manual

Contents

Acknowledgements	VII
Abbreviations	VIII
Preface	IX
Executive summary	XI
Glossary	XIV
1. Why quality assurance of malaria microscopy should be improved.....	1
1.1 Accurate diagnosis	1
1.2 Role of light microscopy in current malaria control and elimination strategies	2
1.3 Promotion of microscopic diagnosis of malaria.....	2
1.4 Improving the competence and performance of microscopists.....	3
2. Structure and function of a quality assurance system.....	6
2.1 Why quality assurance systems should be expanded.....	6
2.2 Basic structure	6
2.3 Quality assurance coordinator	8
2.4 Functional elements of the programme.....	9
2.5 Tasks of microscopists.....	9
2.6 Role of clinical staff in quality assurance	12
3. Plan of action	13
3.1 Goals and objectives	13
3.2 Essential elements	14
3.3 Implementation	14
3.4 Situation analysis.....	15
3.5 Workload.....	17
3.6 Costing of quality assurance programmes	19
4. Supplies and equipment	21
4.1 Standard lists.....	21
4.2 Establishment of a supply chain	21
4.3 Microscopes	22
4.4 Microscope slides	22
4.5 Staining reagents	22
4.6 Other supplies.....	23
5. Self-monitoring of laboratory procedures (internal quality control)	24
5.1 Internal quality control	24
5.2 Implementation	24
5.3 Corrective action	26
5.4 Measuring the impact of internal quality control.....	26
6. External assessment of the competence of national core group microscopists.....	27
6.1 Aims of certification	28
6.2 Modality of certification	28
6.3 Planning certification activities	29
6.4 Basic elements of the assessment	37
6.5 Competence levels and certificates	39
6.6 Roles of microscopists after external competence assessment.....	40
6.7 Measuring the effectiveness of external competence assessment.....	41

7. Establishing a national competence assessment programme.....	42
7.1 Aims and principles.....	43
7.2 Planning courses.....	43
7.3 Elements of the assessment	46
7.4 Competence levels and certificates.....	48
7.5 Roles of microscopists after national competence assessment	50
7.6 Measuring the effectiveness of national competence assessment	50
8. Training of microscopists	51
8.1 Objectives of training.....	51
8.2 Selection of trainees.....	52
8.3 Method of training	53
8.4 Reporting	56
8.5 Corrective action.....	56
8.6 Measuring the impact of training.....	56
9. Outreach training and supportive supervision.....	57
9.1 Definition	57
9.2 Objectives	58
9.3 Implementation	58
9.4 Method.....	61
9.5 Monitoring and evaluation	64
10. Cross-checking malaria slide results	66
10.1 Background and objective.....	66
10.2 Implementation and requirements	66
10.3 Principles and classification of errors.....	67
10.4 Method and protocol for slide cross-checking.....	71
10.5 Corrective action to be taken in the case of discordant results.....	78
10.6 Measuring the impact of cross-checking malaria slide results.....	79
11. Proficiency testing scheme	80
11.1 Terminology and definitions	80
11.2 Objective.....	81
11.3 Implementation.....	81
11.4 Corrective action.....	89
11.5 Measuring the impact of proficiency testing	90
12. Reference malaria slide banks	91
12.1 Background and objectives.....	91
12.2 Constitution of a slide bank.....	91
12.3 Costing	93
12.4 Selection of staff.....	94
12.5 Methods of slide collection.....	94
12.6 Selection of donors	95
12.7 Slide preparation and labelling	96
12.8 Data management and entry.....	98
12.9 Slide bank storage and maintenance.....	98
Annex 1. Model list of equipment and supplies for a malaria diagnostic laboratory	99
Annex 2. Examples of checklists and reporting forms for supervisory visits.....	103
Annex 3. Model monthly reporting form for cross-checking malaria blood slides: no species identification	112
Annex 4. Model monthly reporting form for cross-checking malaria blood slides: species identification	114
Annex 5. Example checklist for internal quality assurance	116

Acknowledgements

We wish to acknowledge the contributions of many people who have participated in the development of the updated version of this Manual, particularly Ken Lilley, the main author of the document. The original WHO *Manual for quality assurance of malaria microscopy* (2009) was prepared by the WHO Regional Office for the Western Pacific on behalf of the WHO Global Malaria Programme (co-ordinators: David Bell, WHO Regional Office for the Western Pacific and Andrea Bosman, WHO Global Malaria Programme). The project arose from a proposal made at the WHO consultation on quality assurance for malaria microscopy in Kuala Lumpur, Malaysia, in 2004.

The current edition of the *Manual* was written by Ken Lilley on the basis of a review by experts convened by WHO for a technical consultation held on 26–28 March 2014 in Geneva. Other experts who participated in the consultation and provided invaluable suggestions for updating the *Manual* include Michael Aidoo, Lawrence Barat, David R. Bell, Andrea Bosman, Jane Carter, Sheick Oumar Coulibaly, Alison Crawshaw, Jane Cunningham, Timothy Finn, Prakash Ghimire, Glenda Gonzales, Troy Martin, Chloe Masetti, Maria Luisa Matute, Mwinyi Msellem, Josephine Namboze, Daouda Ndiaye, Tesfay Abreha Niguuse, Peter B. Ogembo Obare, Seth Owusu-Agyei, Wellington Oyibo, Maria de la Paz Ade y Torrent, Bhavani Poonsamy, Katrina Roper, Silvia Schwarte, Rosario Garcia Suarez, Nancy Arrospide Velasco, Suman Lata Wattal, Nicole Whitehurst and Emanuel Ouma Yamo.

The individual revised chapters and sections of the *Manual* were then reviewed in detail by small groups of experts. Only a few chapters or sections were assigned to each reviewer, to allow time for more reading and input. In particular, we acknowledge the contributions of the following technical resource persons: Michael Aidoo, David R. Bell, Luis Benavente, Jane Carter, Anderson Chinorumba, Sheick Oumar Coulibaly, Alison Crawshaw, Timothy Finn, Prakash Ghimire, Glenda Gonzales, Derryck Klarkowski, Troy Martin, Chloe Masetti, Maria Luisa Matute, Mwinyi Msellem, Josephine Namboze, Daouda Ndiaye, Tesfay Abreha Niguuse, Seth Owusu-Agyei, Wellington Oyibo, Maria de la Paz Ade y Torrent, Bhavani Poonsamy, Rosario Garcia Suarez, Suman Lata Wattal, Nicole Whitehurst and Emanuel Ouma Yamo.

The final second version of the *Manual* was then reviewed by a core group of reviewers, whose inputs were essential. In particular, the input from the following is gratefully acknowledged: Michael Aidoo, Lawrence Barat, David R. Bell, Andrea Bosman, Jane Carter, Sheick Oumar Coulibaly, Jane Cunningham, Glenda Gonzales, Daouda Ndiaye, Tesfay Abreha Niguuse and Suman Lata Wattal.

The *Manual* is thus a consensus document and does not reflect the individual opinion of any individual contributor or of the agencies to which the contributors are affiliated. Financial support for preparation of this version of the *Manual* was kindly provided by the United States Agency for International Development Bureau for Global Health, as part of its WHO consolidated grant.
