Publications of the World Health Organization are available on the WHO web site ([www.who.int](http://www.who.int)) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)).

Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO website ([www.who.int/about/licensing/copyright\\_form/en/index.html](http://www.who.int/about/licensing/copyright_form/en/index.html)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

## Acknowledgements

This publication is the product of extensive collaboration between clusters, departments and offices of the World Health Organization (WHO), and partners of WHO's Public Health Emergency Operations Centre Network (EOC-NET). The work was led by the Department of Global Capacities Alert and Response (GCR), in the Health Security and Environment Cluster (HSE), and was supported by: the Department of Knowledge, Ethics and Research (KER), in the Health Systems and Innovation Cluster (HIS); the Department of Emergency Risk Management and Humanitarian Response (ERM), in the Polio, Emergencies and Country Collaboration Cluster (PEC); WHO regional office for Africa (AFRO); WHO regional office for the Americas (AMRO); WHO regional office for the Eastern Mediterranean (EMRO); WHO regional office for Europe (EURO); WHO regional office for South East Asia (SEARO); and WHO regional office for the Western Pacific (WPRO).

WHO acknowledges with gratitude the important contributions of the technical experts and partners of EOC-NET who contributed to evidence finding, expert consultations, technical meetings, and reviews of several drafts of this document. A full list of collaborators is provided at the end of this document.

Recognition is also given to authors of materials that were included in the systematic reviews conducted through EOC-NET. List of references are made available on the WHO website:

The production of the *Framework for a public health emergency operations centre* was financially supported by the Defence Threat Reduction Agency (DTRA) of the United States of America.

## Use of the document

The *Framework for a public health emergency operations centre* (PHEOC framework) document is intended to be used by practitioners of public health; health policy makers; and authorities and agencies responsible for managing emergencies, incidents, or events where the health of populations is at risk. This document provides high-level methodical guidance for designing, developing, and strengthening of public health emergency operations centres.
