# CONTENTS

<b>ACKNOWLEDGEMENTS</b> .....	vi
<b>ABBREVIATIONS AND ACRONYMS</b> .....	x
<b>GLOSSARY</b> .....	xii
<b>EXECUTIVE SUMMARY</b> .....	xvi
<b>1 INTRODUCTION</b> .....	1
1.1 Progress and challenges .....	2
1.2 Rationale .....	7
1.3 Scope of guidelines .....	7
1.4 Using these guidelines .....	7
1.5 Goal and objectives .....	8
1.6 Target audience .....	9
1.7 Guiding principles .....	9
<b>2 METHODOLOGY</b> .....	11
2.1 Overview .....	12
2.2 Establishing the Guideline Development Group .....	12
2.3 Defining the scope of the guidelines .....	13
2.4 Review of the evidence .....	13
2.5 Development of the recommendation on HIV testing, using RDTs, by trained lay providers .....	13
2.6 Developing the recommendation .....	14
2.7 Review of service delivery, implementation approaches and case examples .....	14
2.8 Additional background work .....	15
<b>3 PRE-TEST AND POST-TEST SERVICES</b> .....	17
3.1 Introduction .....	18
3.2 Services prior to HIV testing .....	18
3.3 Services for those who test HIV-negative .....	24
3.4 Services for those whose HIV status is inconclusive or test results are not yet confirmed .....	26

3.5	Services for those whose test results are HIV-positive . . . . .	26
3.6	Linkage to care . . . . .	30
<b>4</b>	<b>SERVICE DELIVERY APPROACHES . . . . .</b>	<b>37</b>
4.1	Principles and approaches to service delivery . . . . .	38
4.2	Good practices for effective HTS programming . . . . .	40
4.3	HIV testing service approaches . . . . .	46
<b>5</b>	<b>PRIORITY POPULATIONS . . . . .</b>	<b>59</b>
5.1	Infants and children . . . . .	60
5.2	Adolescents . . . . .	63
5.3	Pregnant women . . . . .	65
5.4	Couples and partners . . . . .	66
5.5	Men . . . . .	68
5.6	Key populations . . . . .	69
5.7	Other vulnerable populations . . . . .	70
<b>6</b>	<b>STRATEGIC PLANNING FOR HIV TESTING SERVICES . . . . .</b>	<b>73</b>
6.1	Introduction . . . . .	74
6.2	Strategic decision-making for selecting approaches to HIV testing . . . . .	80
6.3	Developing a strategic, efficient and cost-effective HIV testing services plan . . . . .	89
<b>7</b>	<b>DIAGNOSTICS FOR HIV DIAGNOSIS . . . . .</b>	<b>91</b>
7.1	Overview of HIV diagnosis . . . . .	92
7.2	HIV testing strategies for diagnosis (after 18 months of age) . . . . .	101
7.3	HIV testing algorithms . . . . .	105
7.4	Retesting to verify HIV status . . . . .	110
<b>8</b>	<b>QUALITY ASSURANCE OF HIV TESTING . . . . .</b>	<b>115</b>
8.1	Assuring the quality of HIV testing results . . . . .	116
8.2	Regulations for in vitro diagnostics . . . . .	120
8.3	Quality management systems, irrespective of the testing setting . . . . .	121
8.4	Quality improvement for HIV testing . . . . .	131

<b>9 HIV TESTING IN THE CONTEXT OF SURVEILLANCE</b>	133
9.1 Overview	134
9.2 Populations selected for biological surveillance	135
9.3 Returning HIV test results to participants in biological surveillance	137
9.4 Approaches for HIV testing in the context of surveillance	137
9.5 Using PMTCT programme data to replace ANC sentinel surveillance data	139
9.6 HIV case reporting	141
<b>10 MONITORING AND EVALUATION</b>	143
10.1 Background and key issues	144
10.2 Selection and use of indicators	145

## ANNEXES

All annexes can be found on the Internet at <http://www.who.int/hiv/pub/guidelines/>

Annex 1. Should trained lay providers perform HIV testing and counselling services using HIV rapid diagnostic tests?: A systematic review

Annex 2. An analysis of 48 national HIV testing and counselling policies

Annex 3. Case examples: Global examples of HIV testing services

Annex 4. Report on the attitudes, values and preferences on HIV self-testing among key populations

Annex 5. Literature review on the cost of different HIV testing services approaches

Annex 6. Mathematical model on the cost of testing pregnant women in high and very low prevalence settings

Annex 7. Diagnostics for HIV diagnosis

Annex 8. Ensuring the quality of HIV testing services

Annex 9. Quality HIV testing in programmes for prevention of mother-to-child transmission

Annex 10. A systematic review of community-based HIV testing services among the general population

Annex 11. A systematic review of community-based HIV testing services among key populations

Annex 12. Comprehensive list of HIV testing services approaches and considerations by epidemic setting

Annex 13. Indicator reference sheets for monitoring and evaluating HIV testing services

Annex 14. Comprehensive literature review on misdiagnosis of HIV status

Annex 15. Summary of the Guideline Development Group declarations of interest

# ACKNOWLEDGEMENTS

## Guideline Development Group

**Jamila Taiseer Al-Abri** (Department of Family and Community Health, Ministry of Health, Oman), **Kathleen Charters** (UK Civil Society Advisory Board, United Kingdom), **Martin Choo** (Global Network of People Living with HIV/AIDS, Malaysia), **Elizabeth Corbett** (London School of Hygiene & Tropical Medicine, Malawi), **Neeraj Dhingra** (Ministry of Health and Family Welfare, India), **Miriam Franchini** (Ministry of Health, Brazil), **Mehdi Karkouri** (Centre Hospitalier Universitaire, Ibn, Morocco), **Segundo Leon** (Universidad Nacional Mayor de San Marcos, Peru), **Joseph Tak Fai Lau** (Chinese University of Hong Kong, Hong Kong SAR, China), **Gertrude Ncube** (Ministry of Health, Zimbabwe), **Lisa Nelson** (Global Fund to Fight Tuberculosis, HIV/AIDS and Malaria, Switzerland), **Anne Ng'ang'a** (National AIDS Control Programme, Kenya), **Carla Obermeyer** (American University of Beirut, Lebanon), **Midnight Poonkasetwattana** (Asia Pacific Coalition on Male Sexual Health, Thailand), **Jennifer Stuart-Dixon** (University of the West Indies, Jamaica), **Miriam Taegtmeier** (Liverpool School of Tropical Medicine, United Kingdom), **Johnny Tohme** (Arab Foundation for Freedoms and Equality, Lebanon), **Coumba Toure-Kane** (Laboratoire de Bacteriologie, CHU Le Dantec, Senegal) and **Vincent Wong** (United States Agency for International Development (USAID), USA).

## Contributors to the GRADE systematic review

**Caitlin Kennedy** and **Virginia Fonner** (Johns Hopkins Bloomberg School of Public Health, USA); **Nandi Siegfried** (independent clinical epidemiologist, South Africa) was the methodologist.

## Contributors to supporting evidence

**Ruanne Barnabas**<sup>o</sup> and **Monisha Sharma**<sup>o</sup> (University of Washington, USA), **Lynae Darbes**, **Gail Kennedy**, **Ryan Keating** and **Hilary Spindler** (University of California at San Francisco, USA), **Carmen Figueroa** (Instituto de Salud Carlos III, Madrid, Spain), **David Flynn** (Griffith University, Australia), **Virginia Fonner**, **Caitlin Kennedy** and **Sharon Tsui** (Johns Hopkins Bloomberg School of Public Health, USA), **Daniel Hogan**
