

March 2015

Rapid Guidance
on the Decommissioning
of **EBOLA CARE
FACILITIES**

World Health
Organization

A light gray world map is shown in the background. Overlaid on the map are several thin, light gray circles of varying sizes, some of which overlap each other, suggesting a global or regional focus.

Rapid Guidance on the Decommissioning of Ebola Care Facilities

Contents

Acknowledgements.....	7
Acronyms	9
1. Introduction.....	11
2. Existing evidence on Ebola virus survival on surfaces and in water and sanitation infrastructures	12
2.1 Ebola virus survival on surfaces	12
2.2 Evidence of virus survival in faeces and urine	12
2.3 Susceptibility to disinfectants.....	13
2.4 Precautionary principle	13
3. Community engagement	15
3.1 Step 1: Identify.....	15
3.2 Step 2: Inform	15
3.3 Step 3: Consult	15
3.4 Step 4: Reassure	15
4. Decommissioning and its practical application	16
4.1 General considerations.....	16
4.2 Decommissioning process.....	16
5. Infection prevention and control principles for terminal cleaning and decontamination procedures.....	19
5.1 Procedures for terminal cleaning and decontamination of Ebola care facilities	19
5.2 Procedures for environmental cleaning and disinfection	20
6. Water and sanitation facility principles for terminal cleaning and decontamination procedures.....	22
6.1 Latrines	22
6.2 Septic/holding tanks.....	23
6.3 Grey water facilities	23
6.4 Lime and chlorine advisory	24
6.5 Water infrastructure	24
6.6 Solid waste	24
7. Decontamination principles for medical devices and equipment.....	25
7.1 Categories of medical assets	25
7.2 Planning for decontamination of medical assets	26
7.3 General steps for decontamination of medical assets.....	28
7.4 Waste management.....	28
7.5 Medication	28
8. Laboratory equipment principles for terminal cleaning and decontamination procedures of laboratory equipment	29
8.1 General considerations.....	29

9. Occupational health and safety risk principles: decommissioning procedures to reduce risks and ensure the safety of workers	30
9.1 Measures for the protection of occupational health and safety	31
10. References	33
11. Annexes	34
Annex 1: Decommissioning process	34
Annex 2: Hydrated lime	35
Annex 3: Generic standard operating procedures for cleaning and decontamination of medical devices and hospital furniture	36
Annex 4: Decommissioning process for medical devices	42
Annex 5: Collection of lessons learned on decontamination	43

The World Health Organization (WHO) has developed this rapid guidance document in close collaboration with the Governments of Guinea, Liberia and Sierra Leone; the Centers for Disease Control and Prevention (CDC), Atlanta, USA; the Infection Control Africa Network (ICAN); and the United Nations Children's Fund (UNICEF). The information contained in this document is based on current evidence and expert opinion.

WHO staff and consultants associated with this document are:

- Benedetta Allegranzi (Service Delivery and Safety, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Adriana Velazquez Berumen (Essential Medicines and Health Products, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Melissa Bingham (Foreign Medical Teams, WHO, Geneva, Switzerland)
- Pierre Formenty (Pandemic and Epidemic Diseases, Health Security and Environment, WHO, Geneva, Switzerland)
- Alaa Gad (Consultant, Service Delivery and Safety, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Bruce Gordon (Water, Sanitation, Hygiene and Health, WHO, Geneva, Switzerland)
- Yael Rodriguez Guadarrama, (Essential Medicines and Health Products, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Rob Holden (Foreign Medical Teams, WHO, Geneva, Switzerland)
- Joost Hopman (Consultant, Service Delivery and Safety, Health Systems and Innovation, WHO, Geneva, Switzerland/Radboud University Medical Center, Nijmegen, The Netherlands)
- Ivan D. Ivanov (Public Health, Environmental and Social Determinants of Health, WHO, Geneva, Switzerland)
- Edward Kelley (Service Delivery and Safety, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Kazunobu Kojima (Health Security and Environment, WHO, Geneva, Switzerland)
- Ying Ling Lin (Consultant, Essential Medicines and Health Products, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Nana A. Mensah Abrampah (Service Delivery and Safety, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Margaret Montgomery (Water, Sanitation, Hygiene and Health, WHO, Geneva, Switzerland)
- Gabriela Jimenez Moyao (Essential Medicines and Health Products, Health Systems and Innovation, WHO, Geneva, Switzerland)
- Dhamari Naidoo (Pandemic and Epidemic Diseases, WHO, Geneva, Switzerland)
- Ian Norton (Emergency Risk Management and Humanitarian Response, WHO, Geneva, Switzerland)
- Flavio Salio (Foreign Medical Teams, WHO, Geneva, Switzerland)
- Valeska Stempliuk (Consultant, Epidemic Alert and Response, and Water Borne Diseases, Pan American Health Organization, Washington D.C., United States of America, and WHO Country Office
