WHO and the London School of Hygiene and Tropical Medicine co-chair the work on metrics in the Every Newborn Action Plan. A technical consultation was convened by WHO and organized with the support of the members of the ENAP Metrics Coordination Group: Agbessi Amouzou, Suzanne Fournier, John Grove, Joy Lawn (co-Chair), Matthews Mathai (co-Chair), Allisyn Moran and Lara Vaz. The contributions of members of the coordination group, members and leaders of coverage indicator task teams and all the meeting participants to the consultation and the preparation of this report are gratefully acknowledged. Dr Manoj Kurian and Dr Niall Conroy contributed to the initial drafts of the report. Harriet Ruysen (nee Rees-Forman) collated the inputs from meeting participants and finalized the report.

Funding for the consultation was provided by the Bill & Melinda Gates Foundation through the United States Fund for UNICEF, the Children's Investment Fund, the United States Agency for International Development and WHO.
