Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO website (www.who.int/about/licensing/copyright_form/en/index.html).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

This report was developed under the direction of John Beard, Islene Araujo de Carvalho, Martin Taylor and Anjana Bhushan of the World Health Organization (WHO), and Wang Peian, Wang Haidong, He Zhaohua, Cai Fei and Zheng Chunmei of the National Health and Family Planning Commission (NHFPC) of the People's Republic of China. It was written by Amuthavalli Thiyagarajan Jotheeswaran.

We very much appreciate the suggestions and contributions we received in the preparation of this document.

Special thanks go to:

- the Center for Health Statistics and information of the NHFPC (Wu Xiaoling)
- the Public Health School of Peking University (Zhang Tuohong)
- the Beijing Institute of Geriatrics of NHFPC (Zhang Tiemei)
- the National Health Development Research Center of NHFPC (Hao Xiaoning)
- the National Center for Chronic and Noncommunicable Disease Control and Prevention (NCCNDC) of the Chinese Center for Disease Control and Prevention (China CDC) (Li Zhixin, Wang Zhihui, Yin Xiangjun and Qi Shige).

These organizations contributed to the long draft of the Chinese language version of this report.

Many thanks to Julie Byles and Lily Xiao for their revisions.

Further support was provided by the members of the National Working Committee on Ageing of the NHFPC.

We appreciate the time that was given to us so generously by the various stakeholders in China who participated in the WHO Knowledge Translation on Ageing and Health project in China.

We gratefully acknowledge the funding and in-kind support provided by Age International and Age UK, which was crucial for implementing the WHO Knowledge Translation on Ageing and Health project in China.

Editing, design and layout by Green Ink, United Kingdom (www.greenink.co.uk).

Data sources

Sources of data for this report include: World Health Organization (WHO) Global Health Observatory (GHO) data; WHO Global Burden of Disease data; the third, fourth and fifth National Health Service Surveys (NHSS) in China; the WHO Study on global AGEing and adult health (SAGE); the

Chinese Longitudinal Healthy Longevity Survey (CLHLS); the China Chronic Disease Risk Factor Surveillance, 2010; the Sixth National Population Census of China; and various population-based research studies and systematic reviews published in peer-reviewed journals.
