ISBN 978 92 4 156486 1

(NLM classification: WC 680)

Investing to overcome the global impact of neglected tropical diseases: third WHO report on neglected tropical diseases was produced by the World Health Organization's Department of Control of Neglected Tropical Diseases under the overall direction and supervision of Dr Dirk Engels (Director) and Dr Denis Daumerie (Programme Manager).

Special thanks are due to the participants of the first informal meeting of the Investment for Impact Working Group of the Strategic and Technical Advisory Group for Neglected Tropical Diseases (STAG-NTD) for their contribution to Chapter 2¹ and to the Department of Public Health, Environmental and Social Determinants and the Special Programme for Research and Training in Tropical Diseases for their contribution to Chapter 3.

Regional Directors and members of their staff provided support and advice.

Members of the STAG-NTD gave valuable input, contributions and peer review. The report was edited by its Chairman, Professor Peter Holmes.

Appreciation is extended to the Ministries of Health, donors, partners, foundations, pharmaceutical companies donating medicines, nongovernmental organizations, academia and colleagues for their generosity and contributions.

Given the space constraints and the large number of contributors, their names have been omitted but their involvement and commitment are gratefully acknowledged.

CONTENTS

HIGHLIGHTS

INVESTING TO OVERCOME THE GLOBAL IMPACT OF NEGLECTED TROPICAL DISEASES

*Third WHO report on
neglected tropical diseases*

1 THE RESOLUTION AND THE ROADMAP: PROGRESS TOWARDS TARGETS

In May 2013, the Sixty-sixth World Health Assembly adopted resolution WHA66.12, a testimony of the global resolve to prevent, control, eliminate and eradicate neglected tropical diseases through planned interventions.

11 INVESTING TOWARDS UNIVERSAL COVERAGE AGAINST NEGLECTED TROPICAL DISEASES

Universal coverage against NTDs will be a measure of the success of universal health coverage in reaching the poorest. Domestic investment from within endemic countries will be central to the realization of universal coverage against NTDs.

45 KEY INTERVENTIONS: SITUATION REPORT

WHO recommends five public-health interventions to accelerate prevention, control, elimination and eradication of NTDs.

FOREWORD BY THE DIRECTOR-GENERAL OF THE WORLD HEALTH ORGANIZATION	ix
--	----

EXECUTIVE SUMMARY	xi
-------------------	----

1 THE RESOLUTION AND THE ROADMAP: PROGRESS TOWARDS TARGETS 1

1.1 Building on commitments	2
1.2 Registering progress	3
1.3 Confronting challenges	6
1.4 Supporting innovation	7
1.5 Staying the course	7
1.6 NTDs, Sustainable Development Goals and the case for investment	8

2 INVESTING TOWARDS UNIVERSAL COVERAGE AGAINST NEGLECTED TROPICAL DISEASES 11

2.1 NTDs in the era of the Millennium Development Goals	11
2.2 NTDs and the Sustainable Development Goals	13
2.2.1 NTD control as a litmus test for universal health coverage	14
2.2.2 NTD control as a canary in the mine for climate-sensitive disease risks	15
2.3 Towards targets for universal coverage against NTDs by 2030	16
2.3.1 Prevention of NTDs	16
2.3.2 Treatment and care of NTDs	17
2.4 Investment targets for universal coverage against NTDs	19
2.4.1 Population and service targets	20
2.4.2 Investment targets towards 2020 and beyond	23
2.4.3 Investment targets for low- and middle-income countries	27
2.4.4 Targets for domestic investment	28
2.5 Towards an investment case for NTDs within universal health coverage	32
2.5.1 The investment case based on cost-effectiveness	32
2.5.2 Towards an investment case including equity	33

2.6	Financing universal coverage against NTDs	35
2.6.1	The role of foreign donors and community volunteers in progress made to 2015	35
2.6.2	The role of domestic investment in driving progress to 2030	36
2.6.3	The role of innovative financing mechanisms in optimizing domestic investments	37
2.7	Moving forward with country programmes	39

3 KEY INTERVENTIONS: SITUATION REPORT 45

3.1	Innovative and intensified disease management	46
3.1.1	Innovation	46
3.1.2	Intensification	46
3.1.3	IDM at work	47
3.2	Preventive chemotherapy	50
3.2.1	Scaling up is the priority	50
3.2.2	Implementation status	52
3.2.3	A positive outlook	54
3.3	Vector ecology and management	54
3.3.1	VEM in action	54
3.4	Veterinary public-health services	58
3.5	Water, sanitation and hygiene	62
3.5.1	Global access to drinking-water and sanitation – a mixed picture	62
3.5.2	Implications of the current situation on achieving progress on NTDs	63
3.5.3	Moving towards collaboration for elimination	63
3.6	Priority areas for NTD research	64
3.6.1	Generating basic knowledge	64
3.6.2	Developing new methods	65
3.6.3	Devising new and improved strategies	66
3.6.4	Setting priorities	66

4 THE DISEASES	69
4.1 Buruli ulcer	70
4.2 Chagas disease	75
4.3 Dengue	82
4.4 Dracunculiasis (guinea-worm disease)	89
4.5 Echinococcosis	95
4.6 Endemic treponematoses	100
4.7 Foodborne trematodiasis	105
4.8 Human African trypanosomiasis (sleeping sickness)	110
4.9 Leishmaniasis	118
4.10 Leprosy	127
4.11 Lymphatic filariasis	136
4.12 Onchocerciasis (river blindness)	144
4.13 Rabies	149
4.14 Schistosomiasis	154
4.15 Soil-transmitted helminthiasis	161
4.16 Taeniasis and (neuro)cysticercosis	168
4.17 Trachoma	173
 ANNEXES	 179
Annex 1a Resolutions of the World Health Assembly concerning neglected tropical diseases, 1948–2013	180
Annex 1b Resolution WHA66.12 on neglected tropical diseases, 2013	182
Annex 2 Roadmap targets for eradicating and eliminating neglected tropical diseases, at a glance	186
