WHO guidelines for indoor air quality: household fuel combustion

Contents

Foreword	vii
Glossary	ix
Acknowledgements	xii
Executive summary	xiv
1. Introduction	1
1.1 The health burden from household fuel combustion	1
1.2 Scoping questions	9
1.3 WHO guidelines relating to this topic	9
1.4 Target audience	10
2. Guideline development process	11
2.1 Scope of the guidelines	11
2.2 Evidence review	12
2.3 From evidence to recommendations	24
3. Individuals and partners involved in the development of these guidelines	31
3.1 WHO steering group (SG)	31
3.2 Guideline development group (GDG)	31
3.3 External peer-review group (EPRG)	32
3.4 Management of conflicts of interest	32
4. Recommendations	33
4.1 Focus of recommendations	33
4.2 General considerations	33
4.3 Recommendation 1: Emission rate targets	34
4.4 Recommendation 2: Policy during transition to technologies and fuels that meet WHO air quality guidelines	41
4.5 Recommendation 3: Household use of coal	48
4.6 Recommendation 4: Household use of kerosene (paraffin)	53
4.7 Good practice recommendation: securing health and climate co-benefits	55

5. Implementation of the guidelines	59
5.1 Introduction	59
5.2 Approach to implementation: collaboration and the role of the health sector	59
5.3 Needs assessment	60
5.4 Intervention options and strategies	61
5.5 Policy for effective and sustained adoption	66
5.6 Standards, testing and regulation	67
5.7 Monitoring and evaluation: assessing the impact of these guidelines	68
5.8 Research needs	73
6. Updating the guidelines	75
6.1 Web-based updates	75
6.2 Updates based on substantial new evidence	75
Annex 1: Steering, advisory and external review groups	79
Annex 2: Summary of conflict of interest (COI) management	89
Annex 3: Summary of evidence reviews	93
Annex 4: Recommendation 1 – Emission rate targets: assessment of the quality of the evidence and strength of the recommendation	101
Annex 5: Recommendation 2 – Policy during transition: assessment of the quality of the evidence and the strength of the recommendation	103
Annex 6: Recommendation 3 – Household use of coal: assessment of the quality of the evidence and setting the strength of the recommendation	132
