Systematic review of the link between tobacco and poverty

CONTENTS

SUMMARY	10
BACKGROUND	13
OBJECTIVES	14
METHODS	14
SELECTION CRITERIA	14
Definition of exposure	14
Definition of outcome.....	14
Types of study designs.....	14
Types of participants (population).....	15
SEARCH STRATEGY	15
Search terms.....	15
Search strategies.....	15
Grey literature search.....	17
Study selection and processing	17
Statistical analysis	19
RESULTS	20
Methodological quality.....	20
Figure 1. Study flow diagram	21
DISCUSSION	25
Implications for practice	27
Implications for research	27
REFERENCES	28
ANNEX 1: TABLES AND GRAPHS	40
DESCRIPTIVE TABLES	40

Table 1. Characteristics of included studies about current smoking and income levels.....	40
Table 2. Risk of bias of included studies	57
Table 3. Effect of income level categories on current smoking	71
SUMMARY RESULTS TABLES	177
Table 4. OR of smoking comparing low vs high income level of all studies and by decade, continent, WHO region, country mortality stratum, and risk of bias.....	177
Table 5. OR of smoking comparing low vs high income level of all studies and by decade, continent, WHO region, country mortality stratum, and risk of bias – adults	179
Table 6. OR of smoking comparing low income level vs high income level/medium income level considering only studies that reported results in three categories	181
Table 7. OR of smoking comparing low vs high income level considering all studies that included females/males	181
Table 8. OR of smoking comparing low income level vs high income level/medium income level considering only studies of females/males that reported results in three categories	181
Table 9. OR of smoking comparing low vs high income level considering all studies that included first/second/third age group	182
Table 10. OR of smoking comparing low vs high income level/medium vs high income level considering only studies that included adults or individuals under 15 years old and that reported results in three categories	182
Table 11. OR of smoking comparing low vs high income level/by decade of dataset and mortality level of the countries	183
Table 12. OR of smoking – low vs high income level by gender according to country mortality stratum	184
Table 13. OR of smoking – low vs high income level by smoking status	185
Table 14. OR of Smoking - Low & Medium vs. High Income Level by Smoking Status.....	185
ANNEX 2: QUALITY ASSESSMENT METHODOLOGY.....	186
2.1 Design algorithm	186
2.2 Tool for assessing susceptibility to bias in observational studies.....	187
ANNEX 3 – META-ANALYSES AND FIGURES.....	192
META-ANALYSES	192
Table 15. Smoking prevalence by income: meta-analysis of low vs high income Level.....	192

Table 16. Smoking prevalence by income in adults: meta-analysis of low vs high income level...	202
Table 17. Smoking prevalence by income: meta-analysis of low vs high income level in adults and children (up to 15 years of age).....	207
Table 18. Smoking prevalence by income: meta-analysis of low vs high income level in the elderly and adults aged 45–64.....	214
Table 19. Smoking prevalence by income: meta-analysis of low vs high income level by continent	216
Table 20. Smoking prevalence by income: meta-analysis of low vs high income level by continent (only adults)	228
Table 21. Smoking prevalence by income: meta-analysis of low vs high income level by gender	235
Table 22. Smoking prevalence by income: meta-analysis of low vs high income level by gender (only adults)	242
Table 23. Smoking prevalence by income: meta-analysis of low vs high income level within the stratum of countries with low mortality	246
Table 24. Smoking prevalence by income: meta-analysis of low vs high income level within the stratum of countries with high mortality	252
Table 25. Smoking prevalence by income: meta-analysis of low vs high income level in subjects under 15 years of age.	254
Table 26. Smoking prevalence by income: meta-analysis of low vs high income level by stratum of country mortality.....	256
Table 27. Smoking prevalence by income: meta-analysis of low vs high income level by country stratum of mortality (only studies with data prior to 1989)	267
Table 28. Smoking prevalence by income: meta-analysis of low vs high income level by country stratum of mortality (only studies with data between 1990 and 1999)	268
Table 29. Smoking prevalence by income: meta-analysis of low vs high income level by country stratum of mortality (only studies with data between 2000 and 2009)	272
Table 30. Smoking prevalence by income: meta-analysis of low vs high income level by country mortality stratum (only adults).....	279
Table 31. Smoking prevalence by income: meta-analysis of low vs high income level by risk of bias	285
Table 32. Smoking prevalence by income: meta-analysis of low vs high income level by risk of bias (only adults)	296

Table 33. Smoking prevalence by income: meta-analysis of low vs high income level by WHO region.....	303
Table 34. Smoking prevalence by income: meta-analysis of low vs high income level by WHO region (only adults).....	315
Table 35. Smoking prevalence by income: meta-analysis of low vs high income level by decade	322
Table 36. Smoking prevalence by income: meta-analysis of low vs high income level by decade (only adults).....	333
Table 37. Smoking prevalence by income: meta-analysis of medium vs high income Level (all studies)	339
Table 38. Smoking prevalence by income: meta-analysis of medium vs high income level (only adults)	348
Table 39. Smoking prevalence by income: meta-analysis of medium vs high income Level (only females)	354
Table 40. Smoking prevalence by income: meta-analysis of medium vs high income level (only males)	358
Table 41. Smoking prevalence by income: meta-analysis of medium vs high income level (only subjects under 15 years of age).....	361
Table 42. Subgroup analysis by smoking status: low vs high.....	364
Table 43. Subgroup analysis by smoking status: current smokers low and medium vs high	371
Table 44. Subgroup analysis by smoking status: daily smokers low and medium vs high	378
Table 45. Subgroup analysis by smoking status: household smokers low and medium vs high..	379
Table 46. Subgroup analysis by smoking status: not reported smoking status smokers low and medium vs high.....	381
FIGURES.....	383
Figure 2. Smoking prevalence by income: meta-analysis of low vs high income level	383
Figure 3. Smoking prevalence by income: funnel plot of low vs high income level.....	384
Figure 4. Smoking prevalence by income in adults: meta-analysis of low vs high income level....	385
Figure 5. Smoking prevalence by income: meta-analysis of low vs high income level in adults and children (up to 15 years of age).....	386
