Many dedicated scientists worked together tirelessly to create this volume.

Data collection and compilation of the phytochemical aspects containing information about chemical constituents and qualitative and quantitative assays was conducted and coordinated by: Professor Narantuya S., Health Sciences University of Mongolia (HSUM); Associate Professor Purevsuren S., School of Pharmacy, HSUM; and Professor Tsetsegmaa S., School of Pharmacy, HSUM.

Data collection and compilation of the traditional medicine aspects including Tibetan names of the plants was coordinated by: Professor Natsagdorj D., president of the Training Centre of Mongolian Traditional Medicine “Manba Datsan”, “Otoch Manramba” Institute of Traditional Mongolian Medicine; “Mongolian Honored Doctor”, Professor Oldoh S., Dean of the School of Traditional Medicine, HSUM; Ms Khurelchuluun B., lecturer in the School of Traditional Medicine, HSUM; and Professor Chimedragchaa Ts., director of the Corporation of Mongolian Traditional Medicine, Research and Technology.

Professor Ganbold E., head of the Department of Biology, Ulaanbaatar University and Professor Batkhoo B., lecturer at the Mongolian National University (MNU) coordinated the collection of information on the English names, synonyms, distribution, habitat and morphology of the plants. Professor Batkhoo B., Khurelchuluun B., Associate Professor Purevsuren S., School of Pharmacy, HSUM; and Professor Suran D., head of the Department of Botany, MNU, photographed the plants.

Information on the plant parts used, the anatomical structure of the plants and their bioactivities was provided by Associate Professor Bayasgalan B., School of Pharmacy, HSUM; and Professor Choijamts G., head of the Department of Pharmacology, School of Medicine, HSUM.

The monographs were compiled by Associate Professor Purevsuren S. and editing was done by Dr.Tuya M., President of
