Publications of the World Health Organization are available on the WHO website ([www.who.int](http://www.who.int)) or can be purchased from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: [bookorders@who.int](mailto:bookorders@who.int)).

Requests for permission to reproduce or translate WHO publications –whether for sale or for non-commercial distribution– should be addressed to WHO Press through the WHO website ([www.who.int/about/licensing/copyright\\_form/en/index.html](http://www.who.int/about/licensing/copyright_form/en/index.html)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

# Acknowledgements

This Interim Report was carried out as part of the High 5s Project set up by the World Health Organization in 2007 and coordinated globally by the WHO Collaborating Centre for Patient Safety, The Joint Commission in the United States of America, with the participation of the following Lead Technical Agencies including: Australian Commission on Safety and Quality in Health Care, Australia; Canadian Patient Safety Institute, Canada and the Institute for Safe Medication Practices Canada, Canada; National Authority for Health-HAS, France, with CEPPRAL (Coordination pour L' Evaluation des pratiques professionnelles en santé en Rhône-Alpes), France, OMEDIT Aquitaine (Observatoire du Medicament, Dispositifs medicaux et Innovation Therapeutique), France (from 2012-2015) and EVALOR (EVALuation LORraine), France (from 2009-2011); German Agency for Quality in Medicine, Germany and the German Coalition for Patient Safety, Germany; CBO Dutch Institute for Healthcare Improvement, the Netherlands; Singapore Ministry of Health, Singapore; Trinidad and Tobago Ministry of Health, Trinidad & Tobago; Former National Patient Safety Agency, United Kingdom of Great Britain and Northern Ireland; and the Agency for Healthcare Research and Quality, USA.

This work is a part of the High 5s Project which has been supported by the Agency for Healthcare Research and Quality, USA, WHO, and the Commonwealth Fund, USA.

This report is dedicated *in memoriam* to Jerod M. Loeb, PhD, friend, colleague, master of performance measurement and quality improvement. The unique feature of the work presented here is its multidimensional system of evaluation, for which Jerod was the guiding force. His intellect, integrity and *joie de vivre* brought out the best in each of us.

# Contents

Executive Summary .....	9
1. The purpose and objectives of the High 5s Project .....	14
2. The history, concepts, and overall strategy of the High 5s Project .....	16
1. Historical background .....	16
2. Scope of the High 5s Project.....	17
3. Unique features of the High 5s Project .....	18
3.1. Standardization .....	18
3.2. Evaluation.....	19
3. The High 5s Project governance, structures, participating LTAs and hospitals, description of the work of the Steering Group and its several committees .....	22
1. Overall governance .....	22
2. Lead Technical Agency governance .....	22
3. Lead Technical Agency structure .....	23
4. Participating hospitals .....	25
5. High 5s Steering Group .....	30
6. High 5s Project Committees .....	30
4. The design of the Project and its protocols and evaluation framework, including an overview of methodologies, instruments and processes .....	34
1. Design of the Project.....	34
2. Standard Operating Protocols (SOPs).....	34
3. High 5s evaluation framework .....	34
3.1. SOP implementation experience .....	35
3.2. SOP-specific performance measures.....	35
3.3. Event analysis.....	38
3.4. Patient safety culture survey .....	40

5.	Qualitative and quantitative interim findings.....	44
	1. Summary of culture survey findings .....	44
	1.1. Culture surveys in participating Member States .....	45
	2. Context survey of Medication Reconciliation .....	48
	2.1. Medication Reconciliation context survey findings in Member States .....	49
	3. Context survey of Correct Site Surgery.....	50
	4. Interim findings .....	51
	4.1. Summary of qualitative findings .....	51
	4.2. Member State implementation experiences and qualitative findings .....	56
	4.3. Summary of event analysis findings .....	65
	4.4. Summary of quantitative findings .....	67
	4.5. Member State quantitative and event analysis findings .....	80
6.	Interim outcomes .....	90
	1. Feasibility .....	90
	1.1. Overall issues .....	90
	1.2. Summary of in-country experiences .....	92
	2. Impact .....	99
	2.1. Overall issues .....	99
	2.2. Summary of Member State experiences .....	101
7.	Developing networks and awareness raising for the High 5s Project .....	110
	1. Developing global networks and awareness raising .....	110
	2. National networks and awareness raising.....	112
8.	High 5s Steering Group meetings and international hospital meeting .....	116
	1. Steering Group meetings.....	116
	2. International hospital meeting .....	116
9.	Next steps .....	118
	1. Overview .....	118
	2. The cross High 5s Medication Reconciliation map .....	118
	3. Next steps by LTAs .....	118
	Annexes .....	125

## Acronyms

ACS	American College of Surgeons
ADE	Adverse Drug Event
ACSQHC	Australian Commission on Safety and Quality in Health Care
AHRQ	Agency for Healthcare Research & Quality
APS	German Coalition for Patient Safety
AZQ / AQuMed	German Agency for Quality in Medicine
CBO	Dutch Institute for healthcare Improvement (a TNO company)
CC	WHO Collaborating Centre for Patient Safety
CEPPRAL	Qualité et Sécurité en santé, France
CI	Concentrated Injectables
CPSI	Canadian Patient Safety Institute
CI	Concentrated Injectables
CSHP	Canadian Society of Hospital Pharmacists
CSS	Correct Site Surgery
BPMH	Best Possible Medication History
EA	Event Analysis
ED	Emergency Department
EHR	Electronic Health Record
EMGO	Institute for Health and Care Research, The Netherlands
EMR	Electronical Medical Record
EVALOR	French EVALuation en LORraine
FMEA	Failure Mode and Effects Analysis
HAS	French National Authority for Health
HCO	Healthcare Organization
HRO	High Reliability Organization
IfPS	Institute for Patient Safety
IMS	Information Management System
ISMP Canada	Institute for Safe Medication Practices Canada
