# ACKNOWLEDGEMENTS

This case-study is part of a series of malaria elimination case-studies conducted by the WHO Global Malaria Programme and the University of California, San Francisco (UCSF), Global Health Group.

The WHO Global Malaria Programme and the UCSF Global Health Group wish to acknowledge the financial support of the Bill & Melinda Gates Foundation in developing the elimination case-studies.

The manuscript was developed by Dr Rossitza Kurdova-Mintcheva of the WHO Global Malaria Programme, Dr Seher Topluoglu, Ministry of Health, Turkey, and Dr Aafje Rietveld and Dr Richard Cibulskis of the WHO Global Malaria Programme. The maps in Figures B1.1, B2.1, 17, and 19 were drawn by Mr Ryan Williams.

During the preparation of the manuscript, valuable support was provided by Dr Mikhail Ejov, WHO Regional Office for Europe.

The authors would like to thank the following for their support and assistance in the development of

this case-study: the Minister of Health for Turkey, Dr Mehmet Muezzinoglu, and the Undersecretary for Health, Professor Dr Nihat Tosun, as well as the staff of the Ministry; Dr Maria Cristina Profili, WHO Representative, WHO Country Office in Turkey, and Dr Yavuz Mehmet Kontas, Deputy Head of the WHO Country Office in Turkey.

The authors are also grateful to former WHO colleagues – especially Dr Peter Beales, Dr M.A. Farid, Dr Robert Kouznetsov, Dr Peter Trigg, Dr Walther Wernsdorfer, and other WHO experts listed in [Annex 1](#) – for their excellent work in documenting the malaria programme and situation in Turkey; their various assignment and travel reports, now in the WHO archives, formed the basis for this case-study.

The case-study was reviewed by Dr Robert Newman and Dr Roly Gosling, who provided valuable assistance and feedback, and was edited by Sarah Ballance and Alison Clements-Hunt.

The authors remain responsible for any errors and omissions.

# ACRONYMS AND ABBREVIATIONS

ABER	annual blood examination rate
ACD	active case detection
CFR	case-fatality rate
CISID	Centralized Information System for Infectious Diseases
GDP	gross domestic product
DDT	dichlorodiphenyltrichloroethane
GMEP	Global Malaria Eradication Programme
IRS	indoor residual spraying
MDA	mass drug administration
MEP	malaria eradication programme
MOH	Ministry of Health
NMCP	national malaria control programme
NMES	national malaria eradication service
OECD	Organisation for Economic Co-operation and Development
PCD	passive case detection
PPP	purchasing power parity
QA	quality assurance
RBM	Roll Back Malaria
SAP	Southeastern Anatolian Project
SPR	slide positivity rate
UNDP	United Nations Development Programme
UNICEF	United Nations Children's Fund
WHO	World Health Organization
