All rights reserved. Publications of the World Health Organization can be obtained from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int). Requests for permission to reproduce or translate WHO publications – whether for sale or for noncommercial distribution – should be addressed to WHO Press, at the above address (fax: +41 22 791 4806; e-mail: permissions@who.int).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

WHO/HTM/NTD/GBUI/2011.1

Table of content

Country and NGO presentations	7
The epidemiological situation of buruli ulcer in Congo in 2010	9
Presenter: Dr Damas Obvala.....	9
Buruli ulcer in Australia, 2010.....	11
Presenter: Paul Johnson.....	
<i>Mycobacterium ulcerans</i> infection (Buruli ulcer) in French Guyana in 2010	14
Presenter: Pierre Couppié.....	
Surveillance of Buruli ulcer in Japan.....	15
Presenter: Rie Roselyne Yotsu.....	
National Buruli ulcer control programme 2010, Ghana.....	16
Presenter: Edwin Ampadu.....	
A case of cutaneous tuberculosis in a Buruli ulcer endemic area.	20
Presenter: Martin Bratschi.....	
Raoul Follereau Fondation (FRF) (France): 1995-2010, 15 years of partnership in Buruli ulcer control .	21
Presenter: Bénédicte de Charette	
An integrated approach to education aids in West Africa.....	23
Presenter: Yuki Shimomura	
Stop Buruli – progress, lessons learned, and outlook	25
Presenter: Susanna Hausmann-Muela	
Antibiotics treatment.....	27
Clinical and bacteriological response of Buruli ulcer patients in Ghana to treatment with rifampicin-streptomycin for 7 days per week for 8 weeks compared with rifampicin-streptomycin for 2 weeks followed by rifampicin and clarithromycin for 6 weeks.....	29
Presenter: Richard Phillips	
Successful outcomes using oral fluoroquinolone antibiotics in the treatment of <i>Mycobacterium ulcerans</i> . .	
Presenter: Daniel O'Brien.....	31
Antibiotic treatment: 12 months assessment of follow-up after treatment of a cohort of patients in Cameroun.	32
Presenter: Alphonse Um Boock	
The influence of the immunological status of co-infected HIV/Buruli patients on the evolution of their Buruli treatment	34
Presenter: Vanessa Christinet.....	
Microbiological, histological, immunological, and toxin response to antibiotic treatment in the mouse model of <i>M. ulcerans</i> disease	35
Presenter: Paul J. Converse	
Light as adjunct treatment in the healing of Buruli Ulcers.....	36
Presenter: Alvar Grönberg	
Antibiotic treatment using a combination of rifampicin and clarithromycin (R/C) by the MSF–Akonolinga project, Cameroon	37
Presenter : Dr Serge M. Kaboré	

Early detection, surveillance and decentralization..... 39

Scaling up early detection and treatment to reduce Buruli ulcer morbidity in the Asante- Akim north district of Ghana..... 41

Presenter: Anthony Ablordey.....

The contribution of health workers and community intermediaries in Moyen Ogooué (Lambaréné) province to raising awareness of Buruli ulcer..... 43

Presenter: Louis Bayonne Manou.....

Contribution of Frontline Workers in Early Detection of Buruli ulcer-Amansie West District Experience
Presenter: Joseph Adomako 46

Lessons drawn from experience of decentralization of Buruli ulcer control in Côte d'Ivoire: the case of the Irish-One project..... 48

Presenter: Julien Aké.....

The position and role of community guides and intermediaries in health promotion to control Buruli ulcer in Allada/Zè/Toffo (ZS AZT) health area in southern Benin: 50

Presenter: Yolande Goudoté.....

The effectiveness of community and health system supports for BU case detection and treatment: a case study of Obom sub-district in Ghana..... 52

Presenter: Collins S. K. Ahorlu.....

Buruli ulcer surveillance in Ghana: Sentinel sites, seasonality, and defining endemic areas..... 53

Presenter: Lance A. Waller.....

Case confirmation of Buruli ulcer within the context of decentralization: the experience of the IME/Kimpese Buruli ulcer project..... 54

Presenter: Delphin Phanzu.....

Partnership and support for the control of Buruli ulcer at the Institut Médical Evangélique (IME) in Kimpese, Democratic Republic of the Congo (DRC): assessment and prospects 58

Presenter: Désiré Imposo.....

Raising awareness of Buruli ulcer in the community in Côte d'Ivoire action by the NGO AFRISOL -Côte d'Ivoire in partnership with the institut pasteur of Côte d'Ivoire..... 60

Presenter: Marie Constance Kadio.....

Using community volunteers for yaws surveillance and control 62

Presenter : Nsiire Agana.....

Prevention of disability and surgery 65

Buruli ulcer sequelae in lower and upper limbs: clinical features, prevention and principles of treatment..... 67

Presenter: Henri Assé.....

Buruli ulcer functional disability trends in the Ejisu-Juaben municipality of Ghana..... 68

Presenter: Pius Agbenorku.....

Multicentre study of Buruli ulcer disabilities in the head and neck region..... 69

Presenter: Pius Agbernorku.....

Implementing prevention of disability at the Allada Centre for the Detection and Treatment of Buruli Ulcer (CDTUB): organization and results, 2005 - 2009 70

Presenter: Jean Gabin Houezo.....

Problems posed by case management of former Buruli ulcer patients with disabilities living in the community.....	72
Presenter: Désiré Imposo	
From preventing disabilities caused by Buruli ulcer to community-based rehabilitation (CBR)	73
Presenter: Valérie Simonet.....	
Reliability of assessing limitation of movement (LOM)	75
Presenter: Linda Lehman	
Research.....	77
Environment and transmission.....	79
Highlights and Review of Transmission and Related Research on Buruli Ulcer Disease for 2010	81
Presenter: Rich W. Merritt	
Laboratory studies on the ability of <i>Mycobacterium ulcerans</i> to infect through open wounds.....	82
Presenter: Heather R. Williamson.....	
"Micro-geography of <i>Mycobacterium ulcerans</i> and epidemiology of Buruli ulcer in Tandji village Benin.	83
Presenter: Pamela Small.....	
Survey of aquatic bugs' species in Bankim, a new endemic area in Cameroon.....	84
Presenter: Solange Meyin	
Entomological investigations carried out from 2002 to 2010 into the involvement of water bugs (<i>Heteroptera</i> - <i>Hemiptera</i>) in transmission of <i>Mycobacterium ulcerans</i> to humans in Côte d'Ivoire (West Africa)	85
Presenter: Julien Doannio	
Complex Systems Approach for Studying Buruli Ulcer in Central Ghana.....	87
Presenter: Heidi Hausermann.....	
Identify Associations of Behavioral Patterns with BU in Hopes of Better Elucidating Transmission Modes.	88
Presenter: Gyasi Samuel	
Diagnosis and Pathogenesis.....	89
Use of VNTR to detect <i>M. ulcerans</i> : its value in laboratory diagnosis of Buruli ulcer	91
Presenter: David Coulibaly	
Report on second quality assessment program for molecular detection of <i>M. ulcerans</i> in environmental samples.....	92
Presenter: Caroline Lavender	
Laboratory Examination of Buruli Ulcer in Japan	94
Presenter: Kazue Nakanaga.....	
Inaugural Report of the WHO BU Laboratory Network Working Group	95
Presenter: Françoise Portael	
Report of activities carried out in 2010 by the National Buruli ulcer Reference Laboratory in the Democratic Republic of the Congo	97
Presenter : Anatole Kibadi Kapay.....	
Case confirmation by molecular diagnosis at the Institut Pasteur in Côte d'Ivoire (IPCI) in 2010	98
Presenter : Solange Kakou-Ngazona.....	

Direct Chemical Detection of Mycolactone Detection in human Patients as a Diagnostic test	99
Presenter: Pamela Small.....	
Sero-reactivity to the 18KDa small heat shock protein of <i>M. ulcerans</i> : is it an indication of BU endemicity?.....	100
Presenter: Dorothy Yeboah-Manu	
Comparative genomics of <i>Mycobacterium ulcerans</i> : small changes, big impacts.....	101
Presenter: Tim Stinear.....	
Mycolactone targets epithelial cell control of adhesion and motility	102
Presenter: Caroline Demangel.....	
'Is <i>M. ulcerans</i> able to colonize neuronal cells?'	103
Presenter: Estelle Marion	
Mycolactone circulates in the peripheral blood of Buruli ulcer patients - Consequences for diagnosis and disease monitoring	104
Presenter: Laure Guenin-Macé	
Inhibition of inflammatory protein synthesis by mycolactone	105
Presenter: Rachel Simmonds.....	
The kinetics of gamma interferon secretion during antibiotic therapy in <i>Mycobacterium ulcerans</i> disease Presenter: Stephen Sarfo	106
Mouse model of Buruli Ulcer: protection conferred by <i>Mycobacterium bovis</i> BCG or with a mycolactone negative strain of <i>M. ulcerans</i>	108
Presenter: Teresa Martins.....	
Buruli Ulcer: apoptosis and antibiotic therapy.	109
Presenter: Elisa Zavattaro	
Histopathological characteristics of suspected Buruli ulcer injuries on admission.....	110
Presenter: Luc Brun.....	
A multiplex kindred with severe Buruli Ulcer displaying Mendelian inheritance.....	112
Presenter: Quentin Vincent	
A histopathological analysis of skin lesions emerging several months after completion of antibiotic treatment of Buruli ulcer	113
Presenter: Marie-Therese Ruf	
Cytotoxic effect of mycolactone produced by <i>M. ulcerans</i>	114
Presenter: Masamichi Goto	
<i>Mycobacterium ulcerans</i> infections induce progressive muscle atrophy and dysfunction and mycolactone impairs satellite cell proliferation.	115
Presenter: Jérôme Frenette
