ACKNOWLEDGEMENTS

This case-study is part of a series of malaria elimination case-studies conducted by the World Health Organization (WHO) Global Malaria Programme and the University of California, San Francisco (UCSF), Global Health Group.

The two groups wish to acknowledge the financial support of the Bill & Melinda Gates Foundation in developing the elimination case-studies.

The following institutions and people participated in the collection and analysis of information that is included in this report:

Dr Leili Shamuradova, Vice Minister, Ministry of Health and Medical Industry

Dr Maral Aksakova, Ministry of Health and Medical Industry

Dr Sofia Alieava, Ministry of Health and Medical Industry

The manuscript was written by Dr Rossitza Kurdova-Mintcheva, Dr Aafje Rietveld and Dr Richard Cibulskis of the WHO Global Malaria Programme. The map was drawn by Mr Ryan Williams.

During the preparation of the manuscript a valuable support was obtained from Dr Mikhail Ejov, WHO Regional Office for Europe and Dr Bahtygul Karriyeva, Head of the WHO country office in Turkmenistan.

The authors would like to thank the honourable Minister of Health, Dr Gurbanmamet Ylyasov, and his staff, as well as the staff of the WHO country office in Turkmenistan for their support and assistance in the preparation of this case-study.

The authors acknowledge with thanks the contributions of the many people who participated in the collection and analysis of country information, including Professor D. Tesler, Dr Kasim Roziev, Dr Sachli Nuriyeva, and the heads and staff of the Experimental Production Centre in Ashgabat and of the provincial and district sanitary epidemiological services of the Ministry of Health and Medical Industry of Turkmenistan, as well as the WHO external evaluation experts Dr Anatoly Kondrashin and Dr Allan Schapira.

The following experts, recruited by the WHO Regional Office for Europe contributed to Turkmenistan's success in eliminating malaria and to the body of evidence contained in this case-study: Dr Andrei Zvantsov, Professor Vladimir Davidyants, Professor Rossitza Kurdova-Mintcheva, Professor Alla Baranova, and Dr Ara Kysheshan.

Dr Robert Newman and Mrs Cara Smith Gueye reviewed the case-study and provided important assistance and feedback. The authors remain responsible for any errors and omissions.

ACRONYMS AND ABBREVIATIONS

ABER	annual blood examination rate
ACD	active case detection
ACT	artemisinin-based combination therapy
API	annual parasite index
CFR	case-fatality rate
CISID	Centralized Information System for Infectious Diseases
DDT	dichlorodiphenyltrichloroethane
EQA	External Quality Assurance
EPC	Experimental Production Centre
GDP	gross domestic product
GFATM	Global Fund to Fight AIDS, Tuberculosis and Malaria
GMEP	Global Malaria Eradication Programme
G6PD	glucose-6-phosphate dehydrogenase
IRS	indoor residual spraying
MDA	mass drug administration
MDG	Millennium Development Goals
MOHMI	Ministry of Health and Medical Industry
NMCP	national malaria control programme
NRL	national reference laboratory
PCD	passive case detection
PPP	purchasing power parity
QA	quality assurance
RDTs	rapid diagnostic tests
SES	Sanitary Epidemiological Service
SOP	standard operating procedure
SPR	slide positivity rate
SSR	Soviet Socialist Republic
USAID	United States Agency for International Development
USDP	United States Development Programme
