Acknowledgements and dedication

Eliminating soil-transmitted helminthiasis as a public health problem in children: progress report 2001–2010 and strategic plan 2011–2020 is the result of a series of meetings convened by the World Health Organization (WHO) in Geneva, Switzerland, in April and July 2011, with the participation of national control programme managers, independent experts, partners from donor agencies, and representatives of pharmaceutical companies, nongovernmental organizations and academic and research institutions, as well as staff from the WHO Department of Control of Neglected Tropical Diseases, and regional and country offices.

WHO acknowledges all those who contributed to the publication of this document. Special thanks are due to the following individuals:

Dr Marco Albonico (Ivo de Carneri Foundation, Italy), Dr Riadh Ben-Ismaïl (WHO Regional Office for the Eastern Mediterranean, Egypt), Professor Moses J. Bockarie (Centre for Neglected Tropical Diseases, Liverpool School of Tropical Medicine, UK), Dr Mark Bradley (GlaxoSmithKline, UK), Dr Molly A. Brady (WHO Regional Office for the Western Pacific, Philippines), Dr Simon Brooker (London School of Hygiene & Tropical Medicine, UK), Mr Colin H. Buckley (Children's Investment Fund Foundation, UK), Dr Eva-Maria Christophel (WHO Regional Office for the Western Pacific, Philippines), Professor David W.T. Crompton (WHO Collaborating Centre, University of Glasgow, Scotland), Professor Nilanthi de Silva (Faculty of Medicine, University of Kelaniya, Sri Lanka), Dr Lesley Drake (Imperial College School of Medicine, UK), Dr Christine Dubray (United States Agency for International Development, US), Dr Alissa Fishbane (Deworm the World, USA), Dr Amadou Garba (Neglected Tropical Disease Programme, Niger), Professor John Gyapong (University of Ghana), Professor Theresa W. Gyorkos (McGill University Health Centre, Canada), Dr Julie Jacobson (Bill & Melinda Gates Foundation,

USA), Dr Narcis Kabatereine (Ministry of Health of Uganda), Ms Kim Koporc (Children Without Worms, USA), Dr Patrick Lammie (United States Centers for Disease Control and Prevention, US), Dr Tuan Le Anh (WHO Regional Office for the Western Pacific, Philippines), Dr William Lin (Johnson & Johnson, USA), Dr Jaouad Mahjour (WHO Regional Office for the Eastern Mediterranean, Egypt), Dr Adiele Onyeze (WHO Regional Office for Africa, Congo), Dr Eric A. Ottesen (Task Force for Global Health, USA), Dr Anna Philipps (Schistosomiasis Control Initiative, Imperial College London, UK), Dr Maria Rebollo, (Centre for Neglected Tropical Diseases, Liverpool School of Tropical Medicine, UK), Dr Jutta Reinhard-Rupp (Merck Serono, S.A., Germany), Dr C.R. Revankar (WHO Regional Office for South-East Asia, India), Dr Frank Richards (The Carter Center, USA), Dr Martha Saboya (WHO Regional Office for the Americas, USA), Dr Alexander Scheer (Merck Serono, S.A., Germany), Dr Marcia de Souza Lima (Global Network for Neglected Tropical Diseases, USA), Professor Russell Stothard (Liverpool School of Tropical Medicine, UK), Dr Richard Thompson (National Institute of Health, Mozambique), Dr Jürg Utzinger (Swiss Tropical and Public Health Institute, Switzerland), Dr Marci Van Dyke (United States Agency for International Development, USA), Dr Andy Wright (GlaxoSmithKline, UK), Dr Willemijn Zaadnoordijk (Merck Serono, S.A., Germany), Dr Alexandra Zoueva (Children's Investment Fund Foundation, UK).

This document is dedicated to the memory of Dr Likezo Mubila (WHO Regional Office for Africa) for her significant contribution to overcoming neglected tropical diseases in Africa.

Glossary of terms

The definitions given below apply to the terms as used in this document. They may have different meanings in other contexts.

anthelmintic

A medicine used to expel helminths (worms) in humans. The action of the medicine kills the worms and facilitates their expulsion from the human body. The
